AL-LAH's Awesome Signature on "Golden Ratio" and "Pi Number" =41:53
« **on:** December 06, 2015, 11:03:16 PM »

Salaam to all brothers/sisters,

Here we shall witness **Absolutely AWESOME Miracles**,
which have thus most Superbly and perfectly been created by AL-LAH,
from the very beginning --even from before the foundation of the World,--
unto/within these most Famous and basic "**Mathematical Universal Constants**"
which have fascinated all Mathematicians and the most intelligent Minds
throughout the History of Humankind,
here, namely:

==========

the Golden Ratio, (=**1.618033**.....)
and closely related to it
the Golden Ratio Conjugate, (=**0.618033**.....)

and then

Pythagoras Constant, (=**1.414213**.....)
and perfectly connected with it
Silver Constant, (=**2.414213**.....)

and then

Pi Number (=**3.14159**.....)
and strongly associated with it
Euler Number (=**2.71828**.....)

==========

So let's start with this most Famous and essential

the Golden Ratio, (=**1.618033**.....)
*In mathematics, two quantities are in the Golden Ratio
if their ratio is the same as the ratio of their sum to the larger of
the two quantities. .....

https://en.wikipedia.org/wiki/Golden_ratio

the Golden Ratio Conjugate, (=**0.618033**.....)
*The absolute value of this quantity (=**0.618**) corresponds to
the length ratio taken in reverse order (=i.e. shorter segment length
over longer segment length, b/a),
and is basically referred to as the Golden Ratio Conjugate. .....

https://en.wikipedia.org/wiki/Golden_ratio#Golden_ratio_conjugate

==========
We will show them Our --"**19**" coded-- "**Signs**" (=**74/26-30, 31**)
in the horizons, and (also) within themselves,
until it becomes clear to them that this is absolutely **The Truth**.
Is it not enough that your LORD is Witness over all things?

(QURAN TESTAMENT **41/53**)
==========

So, this Golden Ratio, (=**1.618033**.....)
and Golden Ratio Conjugate, (=**0.618033**.....)
are clearly and unmistakably seen and witnessed
in the horizons (=i.e. in our Universe, Galaxy, Nature),
and also within ourselves (=i.e. in Human body),
as it is perfectly promised by AL-LAH in the above Verse,
now in this Final Age, clearly and openly, everywhere:

---

https://www.youtube.com/watch?v=03uC9bhX0Rc
http://www.goldennumber.net/phi-million-places/

*these links above are thus referred to exclusively and only
thus to clearly see and witness all of the numbers after the
"decimal point" of/in this most special Golden Ratio (=**Phi**) number
even to thousand or million digits therein.

All other information and conclusions therein only belong to
the authors or owners of these Sites above.
When/if what they say are absolutely approved by **QURAN TESTAMENT**
they should be deemed absolutely **Right**,
when/if what they say are absolutely disappproved by **QURAN TESTAMENT**
they should be deemed absolutely **Wrong**,
by all truthful Believers here. (=**QURAN TESTAMENT 6/114-117**)

So here is AL-LAH's
--**"19" coded**-- most Superb and perfect "**Signature**" (=**74/26-30, 31**)
on this most Famous and essential
Golden Ratio, (=**1.618033**.....)
and
Golden Ratio Conjugate, (=**0.618033**.....)

in this absolutely **Most MIRACULOUS** perfect manner,
now here thus:

the Golden Ratio:

=**1.6180339887498948482045868343656381177203091798**
0576286213544862270526046281890244970720720418939
1137484754088075386891752126633862223536931793180
06076672635443338908659593958290563832266131919 .....

the Golden Ratio Conjugate:

=**0.6180339887498948482045868343656381177203091798**
0576286213544862270526046281890244970720720418939
1137484754088075386891752126633862223536931793180
06076672635443338908659593958290563832266131919 .....

So, at the **very first time** we see this most special numbers (=**.....19**)
within these two most special irrational Sequences above
(=i.e. those **numbers** may continue after the "decimal points" above,
without repeating, thus even to infinity,
http://www.goldennumber.net/phi-million-places/
by the perfect Decree and Permission of AL-LAH,
for/in both cases above)--

is thus exactly and precisely at the very end of

190th (=**19x10**) digits here:

the Golden Ratio:

=**1.6180339887498948482045868343656381177203091798**
0576286213544862270526046281890244970720720418939
1137484754088075386891752126633862223536931793180
0607667263544333890865959395829056383226613 19.....

exactly **190 digits** in total above!

= **19** **x...**

the Golden Ratio Conjugate:

=**0**.**618033988749894848204586834365638117720309179805762862135448622705260462818902449707207204189391137484754088075386891752126633862223536931793180060766726354433389086595939582905638322661319**.....

exactly **190 digits** in total above!

= **19** **x...**

therein above, thus for/in both cases, in the very first place!

And then, all those **numbers** which come after the "**decimal point**" above

thus perfectly give a Multiple (=**19x...**),
in such an absolutely **Most MIRACULOUS** perfect manner again,
here:

the Golden Ratio:

=**1**.**618033988749894848204586834365638117720309179805762862135448622705260462818902449707207204189391137484754088075386891752126633862223536931793180060766726354433389086595939582905638322661319**.....

= **19** **x...**

the Golden Ratio Conjugate:

=**0**.**618033988749894848204586834365638117720309179805762862135448622705260462818902449707207204189391137484754088075386891752126633862223536931793180060766726354433389086595939582905638322661319**.....

= **19** **x...**

therein above, for/in both cases again,
in such a perfectly parallel and absolutely complementary manner above,
by this most Wise and perfect "**Creation Design**" of our Supreme LORD here
(**54/49** = **72/28** = **74/26-30, 31**), from the very beginning! (=**41/53**)

---

*Please, absolutely note that
this long awaited and anticipated Messiah and Mahdee descendant of
prophet David and prophet Muhammad (Peace be upon both of Them),
i.e. this most critical and important "**Messenger/MESSAGE of the Covenant**" here,
in this Final Age, thus clearly and unmistakably proves to/for all Humanity now,

that there is **absolutely and only "One Real GOD**" (=AL-LAH)
Who is the **Perfect CREATOR** of this "Fibonacci Sequence and Golden Ratios,"
from the very beginning above.

So all those attempts --(internet is booming with such videos and information)--
which try to attribute this most specific "Fibonacci Sequence and Golden Ratios,"
--(without any credible Proof with them therein at all)-- to their false religions
and imaginary false gods --(which are fabricated based on their own wishful thinking and
their consequent (deliberate or ignorant) misinterpretation of the Scriptures),
or merely to the natural laws and causes --(as atheist/agnostic philosophies are trying to do that),
so, their such (dajjalistic or atheistic) conclusions --(you can see a few of them in the links
referred to below)
are totally deprived of Reason and Proof and absolutely in VAIN.

https://www.youtube.com/watch?v=0hvD5kLqjuw
https://www.youtube.com/watch?v=8Vajq-UK2aE
https://www.youtube.com/watch?v=4oyyXC5IzEE
.....
.....
.....

Because there is **absolutely and only "One Real GOD**" (=AL-LAH)
Who most Superbly and perfectly Designed and most Powerfully and perfectly Created

all Universe
--(by HIS "Cosmic Evolutionary Creation" Miracle),
and all Living-beings therein
--(by HIS "Biological Evolutionary Creation" Miracle),
(=QURAN TESTAMENT **21/30** & **71/13-18** & .....)

based upon HIS Perfect "Fibonacci Sequence and Golden Ratios," from the very beginning,
as it is **clearly and unmistakably proven to/for all Humanity** above,
and also here:

http://www.19covenant19.com/mucize_detay_id135.html

http://www.19covenant19.com/mucize_detay_id136.html

for all those who will wholeheartedly repent and return to AL-LAH,

in this most Rightful beautiful and peaceful manner (=QURAN TESTAMENT **25/70-71 & 25/63-76**), in this Final Age now.

Re: AL-LAH's Awesome Signature on "Golden Ratio" and "Pi Number" =41:53

« **Reply #1 on:** December 07, 2015, 01:03:51 AM »

So now, let us continue on our Way,
secondly, with this most Famous and essential

the Pythagoras Constant, (=**1.414213** .....)
*Geometrically the **square root of 2** is the length of a diagonal
across a square with sides of one unit of length;
this follows from the Pythagorean Theorem.
It was probably the first number known to be irrational.
Its numerical value, truncated to 65 decimal places, is:
.....

https://en.wikipedia.org/wiki/Square_root_of_2

the Silver Constant, (=**2.414213** .....)
*the Silver Constant is the algebraic number given by (1) (2) (3)
(OEIS A116425), where denotes a polynomial root. (see below)
.....

https://en.wikipedia.org/wiki/Silver_ratio

So here is AL-LAH's
--**"19" coded**-- most Superb and perfect "**Signature**" (=**74/26-30, 31**)
on this most Famous and essential

the Pythagoras Constant, (=**1.414213** .....)
and thus perfectly connected with it
the Silver Constant, (=**2.414213** .....)

in this absolutely **Most MIRACULOUS** perfect manner,
now here thus:

the Pythagoras Constant:

=**1**.**4142135623730950488016887242096980785696718753**

088919 .....

the Silver Constant:

=**2**.**4142135623730950488016887242096980785696718753**

6057147010955997160597027453459686201472851741864
088919 .....

So, at the **very first time** we see this most special numbers (=**.....19**)
within these two most special irrational Sequences above
(=i.e. those **numbers** may continue after the "decimal points" above,
without repeating, thus even to infinity,
http://mathworld.wolfram.com/PythagorassConstant.html
by the perfect Decree and Permission of AL-LAH,
for/in both cases above)-- (=QURAN TESTAMENT **16/18**)

is thus exactly and precisely at the very end of

247th (=**19x13**) digits
in this specific manner here:

the Pythagoras Constant:

=**1**.**4142135623730950488016887242096980785696718753**

exactly **247 digits** in total above!

the Silver Constant:

exactly **247 digits** in total above!

= **19** x...

therein above, thus for/in both cases, in the very first place!

And then, again all those most specific **247 digits** above

thus perfectly give a Multiple (=**19**x...),
also here,
in this absolutely **Most MIRACULOUS** perfect manner again:

the Pythagoras Constant:

=**1**.**4142135623730950488016887242096980785696718753769480731766797379907324784621070388503875343276415727350138462309122970249248360558507372126441214970999358314132226659275055927557999505011527820605714701095599716059702745345968620147285174186408891919** .....

= **19** x.....

the Silver Constant:

=**2**.**4142135623730950488016887242096980785696718753769480731766797379907324784621070388503875343276415727350138462309122970249248360558507372126441214970999358314132226659275055927557999505011527820605714701095599716059702745345968620147285174186408891919** .....

= **19** x.....

therein above, for/in both cases again, thereafter!

But what about these most specific
two numbers

(=**1**. ..... **1** ..)
(=**2**. ..... **1** ..)

which thus come in the very first place, and the last place of these:

=**1**.414.....
.....
.....
.....
.....
0889**1**9

=**2**.414.....
.....
.....
.....
.....
0889**1**9

that were thus specifically **excluded** from within both of those
most special "two Sequences" above, in the first place?

So here they are, in this absolutely perfect order above:

1 ..... **1** .. **2** ..... **1** ..

= **19** **x...**

in the very first place,

by this most Wise and perfect "**Creation Design**" of our Supreme LORD here
again (**54/49** = **72/28** = **74/26-30, 31**), from the very beginning! (=**41/53**)

---

*Please, absolutely note that
within these most specific

the Golden Ratio:

=**1**.**6180339887498948482045868343656381177203091798057628621354486227052604628189024497072072041893911374847540880753868917521266338622235369317931800607667263544333890865959395829056383226613****19**.....

the Golden Ratio Conjugate:

all those "**numbers**" which come after the "**decimal points**" above
are thus exactly identical, --(as we have clearly witnessed it
in the very first post above),

and thereafter, within these most specific

the Pythagoras Constant:

=**1**.**4142135623730950488016887242096980785696718753769480731766797379907324784621070388503875343276415727350138462309122970249248360558507372126441214970999358314132226659275055927557999505011527820605714701095599716059702745345968620147285174186408891****9** .....

the Silver Constant:

=**2**.**4142135623730950488016887242096980785696718753769480731766797379907324784621070388503875343276415727350138462309122970249248360558507372126441214970999358314132226659275055927557999505011527820605714701095599716059702745345968620147285174186408891****9** .....

all those "**numbers**" which come after the "**decimal points**" above
are thus exactly identical again, --(as we have clearly witnessed it
in this second post above),

so we have thus rightfully followed exactly same/similar Principals, in essence,
(=e.g. in all of them absolutely the very **first occurrences** of this
most special numbers (=.....**19**) are clearly witnessed above,
one after the other)

within these two **"pairs"** of (=**51/49**)
most Famous and essential
(two & two) "**Universal Mathematical Sequences**" above,

in such a perfectly parallel and absolutely complementary manner,
by this most Wise and perfect "**Creation Design**" of our Supreme LORD here
again (**54/49** = **74/26-30, 31**), from the very beginning! (=**51/49**)

« **Reply #2 on:** December 07, 2015, 01:56:10 AM »

So now, let us continue on our Way,
finally, with this most Famous and essential

Pi Number (=Archimedes Constant), (=**3.141592** .....)
*The number **π** is a mathematical constant,
=**the ratio of a circle's circumference to its diameter**=
commonly approximated as **3.14159**
It has been represented by the Greek letter "**π**"
since the mid-18th century,
though it is also sometimes spelled out as "**Pi**" (/**Paɪ**/).
.....

https://en.wikipedia.org/wiki/Pi

(Euler) E Number (=Napier Constant), (=**2.718281** .....)
*The number **e** is an important mathematical constant
that is the base of the natural logarithm.
It is approximately equal to **2.71828**
(see below) .....

https://en.wikipedia.org/wiki/E *... see e (mathematical constant)

We will show them Our --"**19**" coded-- "**Signs**" (=**74/26-30, 31**)

now here thus:

Pi Number (=Archimedes Constant):

=**3.14159265358979323846264338327950288419**.....

= **19** **x...**

E Number (=Napier Constant):

=**2**.**7182818284590452353602874713526624977572409369995957496696762772407663035354759457138217852516642742746639**19**3200305992181741359629043572900334295260595630738132328627943490763233829880753**19**5251019011573834187930702154089149934884167509244761460668082264800168477411853742345442437107539077744992069551702761838606261331384583000752044933826560297606737113200709328709127443747047230696977209310141692836819025515108657463772111252389784425056953696770785449969967946864454905987931636889230098793127736178215424999229576351482208269895193668033182528869398496465105820939239829488793320362509443117301238**19** .....

= **19** x...

So thus, at the **very first time** we see this most special numbers (=**.....19**)
within that most specific Pi Number above,

we can thus perfectly get a Multiple (=**19x...**),
for/in that first case above,

and then only at the **sixth time** we see this most special numbers (=**.....19**)
within that most specific E Number above,

we can thus perfectly get a Multiple (=**19x...**),
for/in that second case above.

So now, let us clearly see
--(after the "**decimal points**" above)--
exactly how many **digits** are there
within that most specific Pi Number above,
and then within that most specific E Number above?

Pi Number (=Archimedes Constant):

=**3**.**14159265358979323846264338327950288419** .....

exactly **38** (=**19x2**) digits in total above!

= **19** x...

E Number (=Napier Constant):

=**2**.**718281828459045235360287471352662497757247093699959574966967627724076630353547594571382178525166427427466391932003059921817413596629043572900334295260595630738132328627943490763233829880753195251019011573834187930702154089149934884167509244761460668082264800168477411853742345442437107539077744992069551702761838606261331384583000752044933826560297606737113200709328709127443747047230696977209310141692836819025515108657463772111252389784425056953696770785449969967946864454905987931636889230098793127736178215424999229576351482208269895193668033182528869398496465105820939239829488793320362509443117301238**19**.....

exactly **608** (=**19x32**) digits in total above!

= **19** **x...**

in such a perfectly parallel and absolutely complementary manner,
by this most Wise and perfect "**Creation Design**" of our Supreme LORD here again (**54/49** = **72/28** = **74/26-30, 31**), from the very beginning! (=**41/53**)

Re: AL-LAH's Awesome Signature on "Golden Ratio" and "Pi Number" =41:53
« **Reply #3 on:** December 07, 2015, 02:59:38 AM »

Because that these
most Famous and essential

(Euler) E Number (=Napier Constant), (=**2.718281** .....)
and
Pi Number (=Archimedes Constant), (=**3.141592** .....)

are also the most celebrated and acclaimed
two "**Universal Mathematical Constants**,"

in the history of humankind,

---

https://www.youtube.com/watch?v=mZ4CP0vTgEE

http://wmueller.com/precalculus/e/e0.html

---

and also and especially because that they are together used
in this "Euler's Identity"
*In mathematics, Euler's Identity (also known as Euler's Equation)
is the equality

e^{**i** **pi**} + 1 = 0
where

e is (Euler) E Number (=Napier Constant),
(=**2.718281** .....)
=**the base of natural logarithms**=

i is the imaginary unit, which satisfies i2 = −1,

π is Pi Number (=Archimedes Constant),
(=**3.141592** .....)
=**the ratio of the circumference of a circle to its diameter**=

Euler's Identity is named after the Swiss mathematician Leonhard Euler.
It is considered --(by some most knowledgeable Mathematicians in the world)--
an example of
"Mathematical Beauty,"
"the Most Famous Formula in all Mathematics,"
"the Most Beautiful Theorem in Mathematics,"
"the Greatest Equation ever," .....

https://en.wikipedia.org/wiki/Euler%27s_identity

So now, we will go even further and deeper here,
and will thus also clearly witness
"19" coded, most Beautiful and matchless "**Mathematical Miracle**,"
(=**74/26-30, 31 = 72/28**)
unto/within these most Famous and essential

(Euler) E Number (=Napier Constant), (=**2.718281** .....)
and
Pi Number (=Archimedes Constant), (=**3.141592** .....)
above,
in such an **awesomely intertwined** manner here,

by this One and Only CREATOR (=AL-LAH)
of all of these most beautiful and awesome "**Mathematical Formulas**,"
in the history of all Mathematics above,
from the very beginning --(even from before the foundation of the World),

in this absolutely **Most MIRACULOUS** perfect manner,
now here thus:

E Number (=Napier Constant):
http://jlsigrist.com/e.html

=**2**. **7182818284590452353602874713526624977572470936999595749669676277240766303535475945713821785251664274274663919**.....

= **19** **x...**

So, when we specifically **exempt** this **main number**
before the "**decimal point**" above (=**2**.)
we can thus perfectly get a Multiple (=**19x...**),
in the very **first** (=**1**st) occurrence of this most special numbers (=**.....19**)
at the very end of **109**th digit, within this most special E Number above,

****
So we shall remember these most important numbers here,
for/in the first place:

(=**.....19**)= occurrence no: **"1"**
(=**718.....6391919**)= total number of digits: **"108"**
(*specifically excluding this very last special number: **9** therein)
****

E Number (=Napier Constant):

=**2**. **7182818284590452353602874713526624977572470936999595749669676277240766303535475945713821785251664274274663919320030599218174135962904357290033429526059563073813232862794349076323382988075319525101901157383418793070215408914993488416750924476146066808226480016847741185374234544243710753907774499206955170276183860626133138458300075204493382656029760673711320070932870912744374704723069697720931014169283681902551510865746377211125238978442505695369677078544996996794686445490598793163688923009879312773617821542499922957635148220826989519366803318252886939849646510582093923982948879332036250944311730123819.....

=**19**x...

So, when we specifically **take into account** also this **main number**
before the "**decimal point**" above (=**2**.)
we can thus perfectly get a Multiple (=**19**x...),
only in the **sixth** (=**6**th) occurrence of this most special numbers (=.....**19**)
at the very end of **609**th digit, within this most special E Number again above,

****
So we shall remember these most important numbers here,
for/in the second place:

(=.....**19**)= occurrence no: **"6"**
(=**2**.**718**.....**639****19**)= total number of digits: **"608"**
(*specifically excluding this very first main number: **2** therein)

Pi Number (=Archimedes Constant):

=**19**x...

So, when we specifically **exempt** this **main number**

before the "**decimal point**" above (=**3**.)

we can thus perfectly get a Multiple (=**19x...**),

only in the **ninth** (=**9**th) occurrence of this most special numbers (=**.....19**)

at the very end of **542**nd digit, within this most special Pi Number above,

****
So we shall remember these most important numbers here,
for/in the third place:

(=**.....19**)= occurrence no: **"9"**

(=**141.....73719**)= total number of digits: **"541"**
(*specifically excluding this very last special number: **9** therein again)
****

Pi Number (=Archimedes Constant):
http://webs.adam.es/rllorens/pi.htm

=**3. 14159265358979323846264338327950288419**.....

= **19x...**

So, when we specifically **take into account** also this **main number**
before the "**decimal point**" above (=**3**.)

we can thus perfectly get a Multiple (=**19x...**),

in the very **first** (=**1**st) occurrence of this most special numbers (=**.....19**)

at the very end of **39**th digit, within this most special Pi Number again above,

(=**3.141.....73719**)= total number of digits: **"38"**

So now, here are all of those most important numbers,
within each of those purple sections above,
in those absolutely precise and perfect orders therein,
now here thus:
