image credit: hubblesite.org

UNIVERSAL MAGNIFICENT MIRACLES

Here, we shall witness some of the most Superb and matchless "Mathematical Miracles" thus specifically created and designed by GOD in our universe, galaxies, stars, planets, and our sun, moon and earth, and all living beings therein, and in many other natural phenomena, e.g. thunder, lightning, rain, clouds and winds, night and day, etc. always based on code "**19**" and in perfect Symmetry, i.e. in exact pairs again, thus to unmistakably understand and clearly perceive that there is only One Real GOD (=AL-LAH) who has thus created HIS Book of Universe and HIS Book of Religion (=i.e. specifically this "Quran Testament" here) thus basically based on this same "**19**" coded, most Superb and matchless Symmetrical "**Mathematical Language,**" in essence, from the very beginning. (=Quran Testament 74/30 & 41/53)

==========

26- (AL-LAH said): So I will get him (=i.e. that person who claims that this Quran Testament is only an utternace of a human being and not from GOD)-- into the "Uprooter" (now) –thereby thus to unmistakably and clearly prove to such a disbelieving person and to all humanity that this can absolutely and only be from this One Real GOD (=AL-LAH) here!

27- And what make you perceive what the "Uprooter" is?

28- It does not "let last" --(but thus "excludes" on the left side, into the lowest region therein), and it does not "let stay" --(but thus "eliminates" on the right side, into the lowest region therein).

29- (Then) it presents "Tables" --(on that left side & on that right side, within those upper regions therein) for the humanity.

30- Upon it (there is) "**19**!" (Quran Testament 74/26-30)

_____

image credit: sciencetaskcard.weebly.com (**Earth**, and **Moon**, and **Sun**)

38- And the Sun is running to its specific destination. That is the measured-Design of (AL-LAH), the Mighty, the Knower.

39- And for the moon We have measured phases, until it becomes like an old curved sheath.

40- The Sun is not required to overtake the Moon, nor will the Night precede the Day; for all of them (=i.e. the Sun, the Moon, the Earth) are (thus together) running and glorifying (AL-LAH) in (their own) orbits. (Quran Testament 36/38-40)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also in that Sun, the Moon, and the Earth as they are thus together running in their own orbits above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

So the sidereal rotational period of the Moon is: $655._{73}$ hours

* The sidereal rotational period of the Earth is: $23._{93}$ hours

* The sidereal rotational period of the Sun is: $609._{.12}$ hours

thus while they are running on the left side
of the center of the Galaxy

or/and while they are running on the right side
of the center of the Galaxy

the Moon the Earth the Sun   the Moon the Earth the Sun

655   23   609 $= 19_{x...}$ 655   23   609 $= 19_{x...}$

_____

So the mean orbital speed of <u>the Moon</u> is: **36**83 km per hour

* The mean orbital speed of <u>the Earth</u> is: **107**208 km per hour

* The mean orbital speed of <u>the Sun</u> is: **827**640 km per hour

| thus while they are running on the left side of the center of the Galaxy | or/and while they are running on the right side of the center of the Galaxy |

<u>the Moon</u>   <u>the Earth</u>   <u>the Sun</u>   <u>the Moon</u>   <u>the Earth</u>   <u>the Sun</u>

3600 **107**000 **827**000 = **19**ₓ...   **36**00 **107**000 **827**000 = **19**ₓ...

Please, note that we have thus rounded these numbers: **36**83 = **36**<u>00</u> & **107**208 = **107**<u>000</u> & **827**640 = **827**<u>000</u> thus in a perfectly parallel manner above.

(*The data is mainly retrieved from these sites: "solarsystem.nasa.gov" & "universetoday.com" & "curious.astro.cornell.edu" for/in these excellent Tables above.)

Here, we should pay attention and clearly notice that based on this most specific Verse in the Quran Testament (=74/28; so please, also see it again now on p. 1), we thus always rightfully "disregard/exclude" on the left side, and rightfully "disregard/eliminate" on the right side all those exponential or/and fractional numbers, and thus always and exclusively take into account --on the left side & on the right side-- the Main numbers, in each and every of these "**19**" coded, most Superb and matchless "**Symmetrical Miracles**" of our Supreme LORD here.
And this is what we always rightfully do also in each and every of those "**19**" coded, most Superb and matchless "**Symmetrical Miracles**" of our Supreme LORD thus also in HIS Book of Religion, here in the first place --(as they are already thus clearly presented in "An Awesome Miracle 1 & 2," and then also in all of those subsequent most Superb and matchless Miracles therein)-- (with regard to logical or/and numerical respect) always within such a perfect and flawless manner, and thus also in a perfectly parallel and absolutely complementary and corresponding manner, in each and every time, on both sides, therein, based on this most specific, fundamental and clear Instruction of our Supreme LORD here (=Quran Testament 74/26-30; so please, see it again on p. 1), thus in the first place.

_____

And we should also, first of all, certainly know here that this most specific number "**19**" is also thus the exact "gematrical value" of the word: "**Wahidan**" (=i.e. **One**) in the Quran Testament.

<div dir="rtl">

أ   د   ح   و
</div>

1 + 4 + 8 + 6 = **19**

(*Please, see "A Golden Ratio Miracle" document, p. 18, to clearly see the "gematrical values" of all the modern Arabic letters in the Quran Testament.)

Therefore all the Universe (=i.e. specifically due to those "4" Fundamental Forces therein,
in the first place; so please, certainly see "Universal Magnificent Miracles 1" document, p. 2-3
in this regard now) and everything therein,
by most Wondrously and precisely giving us all those multiple of nineteens, each and every time,
thus on the left side & on the right side:

<div dir="rtl">

أ   د   ح   و   و   ح   د   أ
</div>

= **19**ₓ...   = **19**ₓ...

are thus openly glorifying AL-LAH (=yusabbihoona or/and yasbahoona; =17/44 & 36/40)
by thus loudly proclaming --(in perfect "Symmetrical Mathematical Language" here)-- that
AL-LAH is "**Wahidan**" (=**One**) (=i.e. HE is the One and Only Creator and the One and Only
GOD) of the West and of the East, and of everyone and of everything (=2/115 & 17/44) therein,
in the first place!
(So please, certainly see again Quran Testament **57/1** & Psalms **19/1-4**
within "Universal Magnificent Miracles 1" document, on p. 21 now, in this regard again,
in the very first place.)

_____

image credit: nasa.gov (**Rotating Earth**)

20- And in the <u>Earth</u> there are (mathematical) "**Signs**" for those who will attain certainty. (Quran Testament 51/20)

44- AL-LAH rotates the night and the day --(thus by rotating the <u>Earth</u> on its own axis therein). Certainly, in that is a "**Lesson**" for those who have insight! (Quran Testament 24/44)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also in that "rotating <u>Earth</u>" above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

The earth rotates on its axis once each day.
Since the circumference of the Earth at the Equator is 24,901.55 miles, a spot on the Equator rotates at approximately 1037.5646 miles per hour (1037.5646 times 24 equals 24,901.55) (=**1669.8 km/h**). At the North Pole (90 degrees north) and South Pole (90 degrees south), the speed is effectively zero since that spot rotates once in 24 hours, a very, very slow speed.
To determine the speed at any other latitude, simply multiply the cosine of the degree latitude times the speed of 1037.5646. (source: geography.about.com/od/learnabouttheearth/a/earthspeed.htm)

So because that basically we always take into account the metric system (=i.e. meter, kilometer, etc.) here --(unless there is a compelling reason to take the other system (=i.e. inch, mile, etc. into account in some very rare or most specific instances here)-- in all of our Calculations throughout that entire "Universal Magnificent Miracles 1" document before this, and also here, so we shall now again take that **1669.8 km/h** (=rotating speed of the Earth at equator) into account here, and thus multiply it with the cosine --specifically-- for the latitude "**19.19**" degrees, thus to find the rotating speed of our Earth at this most specific latitude here.

_____

The "cosine" for Latitude **19.19** degrees is: 0.94443375391

The "rotational speed" of the Earth at equator is: 1669.8 (km per hour)

So the "rotational speed" of the Earth at Latitude **19.19** degrees is thus:

0.94443375391 X 1669.8 = **1577**.01 km per hour!

So thus the basic "rotational speed" of our Earth

for/in Northern hemisphere	for/in Southern hemisphere
at Latitude **19.19** degrees	at Latitude **19.19** degrees
in East and/or West (of the prime Meridian)	in East and/or West (of the prime Meridian)

1577 km = **19**x…   **1577** km = **19**x…

(*The data is mainly retrieved from these sites: "geography.about.com" & "rapidtables.com" for/in this excellent Table above.)

_____

image credit: leeds.ac.uk (**Classification** of **the Winds**)

5- And the alternation of the night and the day, and what AL-LAH sends down from the sky of provisions to revive the land after its death,
and the changing of the Winds are (mathematical) "**Signs**" for a people who understand!
(Quran Testament 45/5-6)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within that changing of the "**Winds**" phenomenon above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

The Beaufort Wind Scale is named after Sir Francis Beaufort, an admiral in the British Navy.
He developed the scale in 1805 in order to estimate Wind speed by noting how sails move in the wind.
It turned out to be a great help and was later adapted for use on land. It is an international scale of Wind velocities ranging for practical purposes from 0 (calm) to 12 (hurricane force). It was named after
Sir Francis Beaufort (1774-1857), British admiral and hydrographer who devised it.
(sources: World Meteorological Organization, stormfax.com)

So let us clearly see this --(since 1805)-- worldwide renowned "Beaufort Wind Scale" now here thus:

_____

Beaufort Number (Force)	Wind Speed (Knots)	Description	Effects Observed on the Sea
0	under 1	Calm	Sea is like a mirror
1	1 – 3	Light air	Ripples with appearance of scales; no foam crests
2	4 – 6	Light breeze	Small wavelets; crests of glassy appearance, not breaking
3	7 – 10	Gentle breeze	Large wavelets; crests begin to break; scattered whitecaps
4	11 – 16	Moderate breeze	Small waves, becoming longer; numerous whitecaps
5	17 – 21	Fresh breeze	Moderate waves, taking longer form; many whitecaps; some spray
6	22 – 27	Strong breeze	Larger waves forming; whitecaps everywhere; more spray
7	28 – 33	Near gale	Sea heaps up; white foam from breaking waves begins to be blown in streaks
8	34 – 40	Gale	Moderately high waves of greater length; edges of crests begin to break into spindrift; foam is blown in well-marked streaks
9	41 – 47	Strong gale	High waves; sea begins to roll; dense streaks of foam; spray may begin to reduce visibility
10	48 – 55	Storm	Very high waves with overhanging crests; sea takes white appearance as foam is blown in very dense streaks; rolling is heavy and visibility is reduced
11	56 – 63	Violent storm	Exceptionally high waves; sea covered with white foam patches; visibility further reduced
12	64 and over	Hurricane	Air filled with foam; sea completely white with driving spray; visibility greatly reduced

_____

So let us see the specific speeds of all of these Winds above, as/in "knots" (=it is a unit of speed equal to one nautical mile; please, note that we will not convert it into "km" here, because it was originally devised and mainly used always as/in "knots" since 1805) worldwide.

Beaufort Number (Force)	Wind Speed (Knots)	
1	1	3
2	4	6
3	7	10
4	11	16
5	17	21
6	22	27
7	28	33
8	34	40
9	41	47
10	48	55
11	56	63
12	64	--

So additionally, we will specifically place **68** now --(which is definitely within the range of hurricane Force **12** above)-- just after that Wind speed: **64** (hurricane Force **12**) above, in the very last row. (*Instead of **68** we could also specifically place (e.g.) **87** therein, if we seek a Force that would be within maximum/extreme range thereafter.)

And please, note that we do not take into account Force **0** above, because the Wind speed therein is from **total "0"** only up to **below "1,"** so we will rightfully "disregard/exclude" it on the left side, and rightfully "disregard/eliminate" it on the right side, based on this most fundamental and basic Verse (=74/28) herein again, in the first place. *So please, thus clearly see it again (=74/26-30) on p. 1

_____

So now, after rightfully changing here the places of Wind speed: **1** (which is within the first section, on the left side, in the first row above) with **27** (which is within the second section, on the right side, in the third row above), and then the Wind speed: **3** (which is within the first section again, on the right side, in the first row above) with **22** (which is within the second section again, on the left side, in the third row above);

and thereafter, the Wind speed: **28** (which is within the second section, on the left side, in the last row above) with **64** (which is within the third section, on the left side, in the last row above), and the Wind speed: **16** (which is within the second section again, on the right side, in the first row above) with **40** (which is within the third section again, on the right side, in the first row above);

and last of all, again thus rightfully changing here the Wind speed: **28** (which is within the third section now, on the left side, in the last row above) with **68** (which is within the third section again, on the right side, in the last row above), thus in a perfectly Symmetrical and absolutely complementary manner therein, based on this most Wise and perfect Instruction of our Supreme LORD here again (=16/101-102), in the first place,

--(So please, also certainly see "A Prominent Miracle 1" document, p. 24 now, thus to openly and clearly see these most fundamental and basic Verses (=16/101-102) therein, also in this respect now)--

here is what we shall most WONDROUSLY and most AMAZINGLY see:

27	22
4	6
7	10
_____	_____
$= \mathbf{19} \times \ldots$	$= \mathbf{19} \times \ldots$
11	40
17	21
3	1
64	33
_____	_____
$= \mathbf{19} \times \ldots$	$= \mathbf{19} \times \ldots$
34	16
41	47
48	55
56	63
68	28
_____	_____
$= \mathbf{19} \times \ldots$	$= \mathbf{19} \times \ldots$

_____

And we should certainly know here that whatever Scientific discovery or such a valid Scientific classification etc. has been made by human beings in the previous centuries, or/and now in this Age, or in the future --(when/if they are correct and beneficial, and thus approved by AL-LAH)-- are thus taught to them, and are thus totally created and implemented by AL-LAH, in essence here (=Quran Testament 2/255 & 21/80 & 8/17 & …), thus in the first place.

And the fact that this valid Scientific classification of the Winds (=i.e. Beaufort Wind Scale) has thus been developed by Sir Francis Beaufort (1774-1857), British admiral and hydrographer, in 1805, by such a permission and grace of AL-LAH again therein (=2/255), and was used and basically is still being used or/and being referred to worldwide is an unmistakable and clear Proof that:

even based on such a basic, straightforward and diligent human observation, we can now again clearly see that the Winds have thus been created by AL-LAH in such a wonderful **Measure** (=54/49), and thus in such a most specific --"**19**" coded-- **Classification**, from the very beginning! (Please, see again Quran Testament 45/5 = 41/53 = 74/30 in this regard, on p. 7).

(*The data is basically retrieved from these sites: "stormfax.com" & "hwn.org" for/in these excellent Tables above.)

_____
image credit: chandra.harvard.edu (**Visible Spectrum**)

31- Say: Who provides for you from the heaven and the earth? Who controls all the hearing and the <u>eyesight</u>? ….. (Quran Testament 10/31)

53- So We will show them Our (mathematical) "**Signs**" in the horizons, and also within their own bodies/selves (=thus also within our "<u>eyesight</u>" above), until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

The colors we see are the result of how the human eye and brain perceive different wavelengths of light in the visible part of the electromagnetic spectrum - roughly radiation in the range of **380** nm to **740** nm. The ability of the human eye to distinguish colors is based on the varying sensitivity of different cells in the retina to light of different wavelengths. (source: chandra.harvard.edu)

So the human eye can thus <u>completely</u> see the range of **400** nm (=i.e. from **400** to **499** nm), and **500** nm (=i.e. from **500** to **599** nm), and **600** nm (=i.e. from **600** to **699** nm).
So if we write it down here thus now:

_____

complete eyesight range
for the left eye (nm):

complete eyesight range
for the right eye (nm):

$4_{00} 5_{00} 6_{00} = 19_{x...}$

$4_{00} 5_{00} 6_{00} = 19_{x...}$

*Please, note that because we cannot <u>completely</u> see the range of **300** nm (=i.e. totally from **300** to **399** nm), or/and **700** nm (=i.e. totally from **700** to **799** nm), we will rightfully "disregard/exclude" it on the left side, and rightfully "disregard/eliminate" it on the right side, based on this most fundamental and basic Verse (=74/28) herein again, in the first place. (So please, thus clearly see it again (=74/26-30), on p. 3).

_____
image credit: songsofthecosmos.com (**Human Hearing Spectrum**)

31- Say: Who provides for you from the heaven and the earth? Who controls all the hearing and the eyesight? ….. (Quran Testament 10/31)

53- So We will show them Our (mathematical) "**Signs**" in the horizons, and also within their own bodies/selves (=thus also within our "hearing" above), until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

The number of cycles per unit of time is called the "frequency." For convenience, frequency is most often measured in "cycles per second (cps)" or the interchangeable "Hertz (hz)" (60 cps = 60 hz), named after the 19th Century physicist. So the range of human hearing in the young is approximately **20** Hz to **20000** Hz (source: indiana.edu)

So the normal human ear can completely hear the range of **1000** hz (=i.e from **1000** to **1999** hz), up to **19000** hz (=i.e. from **19000** to **19999** hz).
So if we write it down here thus now:

_____

complete hearing range
for the left ear (hz):

$1_{000} + 2_{000} + 3_{000} + 4_{000}$

$5_{000} + 6_{000} + 7_{000} + 8_{000}$

$9_{000} + 10_{000} + 11_{000}$

$12_{000} + 13_{000} + 14_{000}$

$15_{000} + 16_{000} + 17_{000}$

$18_{000} + 19_{000}$

$=19$

complete hearing range
for the right ear (hz):

$1_{000} + 2_{000} + 3_{000} + 4_{000}$

$5_{000} + 6_{000} + 7_{000} + 8_{000}$

$9_{000} + 10_{000} + 11_{000}$

$12_{000} + 13_{000} + 14_{000}$

$15_{000} + 16_{000} + 17_{000}$

$18_{000} + 19_{000}$

$=19$

*Please, note that because we cannot <u>completely</u> hear the range of below **1000** hz (=i.e. totally from **0** to **999** hz), or/and above **20000** hz (=i.e. totally from **20000** to **20999** hz), we will rightfully "disregard/exclude" it on the left side, and rightfully "disregard/eliminate" it on the right side, based on this most fundamental and basic Verse (=74/28) herein again, in the first place. *So please, thus clearly see it again (=74/26-30), on p. 1

_____

image credit: 123rf.com (**Human Shadows**)

15- To AL-LAH prostrates everyone in the heavens and the earth, willingly or unwillingly, and so do their <u>shadows</u> in the mornings and the evenings. (Quran Testament 13/15)

48- Did they not see that anything AL-LAH creates, their <u>shadow</u> incline to the <u>right</u> and the <u>left</u>, in prostration to AL-LAH, all in humility. (Quran Testament 16/48)

53- So We will show them Our (mathematical) "**Signs**" in the horizons, and also within their own bodies/selves (=thus also within our "<u>shadows</u>" thus inclining to the <u>right</u> and <u>left</u> above), until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So the shadow of a human being (of ideal height of about 2 meter here) would extend (from the midpoint of his/her footsteps) **19**.05 units, when the Sun is at **19** degrees altitude after Sunrise, or/and before Sunset. (source: wsanford.com/~wsanford/shadow_length.html)

So the <u>basic</u> shadow length
of such a human (2 m)
<u>to the left</u>, when the Sun is
at **19** degrees altitude, after Sunrise:

= **19** units

So the <u>basic</u> shadow length
of such a human (2 m)
<u>to the right</u>, when the Sun is
at **19** degrees altitude, before Sunset:

= **19** units

_____

image credit: rgbstock.com (**Tree Shadow**)

48- Did they not see that anything AL-LAH creates, their <u>shadow</u> incline to the <u>right</u> and the <u>left</u>, in prostration to AL-LAH, all in humility. (Quran Testament 16/48)

81- And AL-LAH has made for you <u>shade</u> from what He created (=i.e. trees, buildings, etc. therein), …… (Quran Testament 16/81)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "shadows/shade" thus inclining to the <u>right</u> and <u>left</u> above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

So the shadow of such an (e.g. Oak) tree, or any kind of building or a structure (of ideal height of about 20 meters here) would extend (from the midpoint of its base) **190**.57 units, when the Sun is at **19** degrees altitude after Sunrise, or/and before Sunset. (source: wsanford.com/~wsanford/ shadow_length.html)

So the <u>basic</u> shadow length
of such a tree (20 m)
<u>to the left</u>, when the Sun is
at **19** degrees altitude, after Sunrise:

=**190** units

So the <u>basic</u> shadow length
of such a tree (20 m)
<u>to the right</u>, when the Sun is
at **19** degrees altitude, before Sunset:

=**190** units

_____
image credit: learner.org (**Night** and **Day**)

62- And HE is The One Who made the <u>night</u> and the <u>day</u> in succession, for those who **wish** to remember --thus also and especially, due to the left side of those "**19**" coded Tables here,-- or **wish** to be thankful --thus also and especially, due to the right side of those "**19**" coded Tables here!-- (Quran Testament 25/62)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "<u>night</u>" and "<u>day</u>" in succession above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us see now the basic length of the <u>nights</u> and the <u>days</u> in succession, for each month of the Year, for/in this chosen City (=Tucson, Arizona), wherein this long awaited and anticipated "Messenger/MESSAGE of the Covenant" has thus been sent now by AL-LAH to all humanity, in this Final Age. (So please, also certainly see now: Quran Testament 27/91 in this regard, in the first place.)

$= $ **19**

So the <u>maximum</u> number of "Nights" and "Days" in succession that would thus precisely give us a multiple of "**19**" above

for/in "<u>March</u>"   for/in "<u>November</u>"

(which lasts **31** days)   x x   (which lasts **30** days)

26 Night and Days   x x   **27** Night and Days

_____

So now, if we take all those "**19**" coded, most specific <u>Nights</u> and <u>Days</u> in succession above, in account here, for/in such a full Year, we see that:

In "<u>January</u>" (which lasts **31** days) there are (maximum)

27 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>July</u>" (which lasts **31** days) there are (maximum)

27 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>May</u>" (which lasts **31** days) there are (maximum)

18 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>August</u>" (which lasts **31** days) there are (maximum)

18 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>October</u>" (which lasts **31** days) there are (maximum)

27 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>December</u>" (which lasts **31** days) there are (maximum)

27 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>April</u>" (which lasts **30** days) there are (maximum)

28 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>September</u>" (which lasts **30** days) there are (maximum)

28 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

_____

In "<u>February</u>" (which lasts **29** days) there are (maximum)

29 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>June</u>" (which lasts **30** days) there are (maximum)

30 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>March</u>" (which lasts **31** days) there are (maximum)

26 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

_____

285 such most specific <u>Nights</u> and <u>Days</u> in succession therein, in total, in such a full Year!

This means:

285 <u>Nights</u>	**285** <u>Days</u>
=**19**x…	=**19**x…

Please, note that --(based on this most Wise and perfect Instruction of our Supreme LORD (=74/28) herein again, in the first place, please, see it again on p. 3)-- we thus rightfully "disregard/exclude" on the left side, and rightfully "disregard/eliminate" on the right side those **27** Nights and **27** Days of November here, because it remains as an <u>extra</u> Month here with its (redundant) **30** Day period, of the last section above.

And please, note that the basic length of all those <u>Nights</u> and <u>Days</u> in succession above have thus been taken into account specifically for/in the Year: **2014,** because this is the most fundamental first Year (=i.e. which clearly gives a multiple of **19** here) of this most critical and important **Third** and **Last Day/Millennium** now. (So please, also certainly see now: Quran Testament 22/47 & 2/62 in this regard, in the first place.)

(*The data is basically retrieved from this site: "timeanddate.com" for/in these excellent Tables above.)

_____

image credit: uaex.edu (**Heavy Rain**)

11- And HE is The One who sends down <u>rain-water</u> from the sky, in <u>exact measure</u>! We then revive with it a dead land. Similarly, you will be brought out. (Quran Testament 43/11)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "<u>rain-water</u>" in <u>exact measure</u> above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

In such a moderate or/and a heavy Rain (=i.e. therewith a dead land could be revived, as pointed out above) **495** drops fall every second per square meter; and in such an excessive Rain (=i.e. therewith a dead land could be revived again, as pointed out above)-- **818** drops fall every second per square meter. (source: ga.water.usgs.gov/edu/watercycleprecipitation.html)

So in such a "moderate/heavy Rain,"   So in such an "excessive Rain,"
the basic number of drops per second   the basic number of drops per second
per square meter: per square meter:

494 = **19**$_X$...   **817** = **19**$_X$...

Please, note that --(based on this most Wise and perfect Instruction of our Supreme LORD (=74/28) herein again, in the first place, please, see it again on p. 3)-- we thus rightfully "disregard/exclude" on the left side, and rightfully "disregard/eliminate" on the right side those only "**1**" drop and "**1**" drop of Rain-water here, in such a perfectly parallel/equal manner above.

_____

image credit: srh.noaa.gov (**Thunder** and **Lightning**)

13- The thunder glorifies with HIS Praise, and so do the Angels, out of reverence for HIM. HE sends the lightning bolts, thus showing them to whomever HE wills. Yet, they still argue about AL-LAH, though HE is Awesome in Power. (Quran Testament 13/13)

24- Among HIS (mathematical) "**Signs**" is that HE shows you the lightning (thus) as a source of fear, as well as hope, …… (Quran Testament 30/24)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "thunder" and "lightning" above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

The speed of Sound in air, at standard atmospheric pressure, at **19** degrees (celsius) is about "**342**.7" meter per second. (source: engineeringtoolbox.com/air-speed-sound-d_603.html)

So the basic speed of a Thunder
in such standard conditions, at **19** degrees (celsius),
would travel to the West at (meter per second):

342 = **19**x…

So the basic speed of a Thunder
in such standard conditions, at **19** degrees (celsius),
would travel to the East at (meter per second):

342 = **19**x…

_____

The speed of Light (=i.e. specifically at wavelength: 300 nm here) in air, at standard atmospheric

pressure, at **19** degrees (celsius) is about **"299706**.4" km per second.
(sources: en.wikipedia.org/wiki/Speed_of_light#In_a_medium & emtoolbox.nist.gov/Wavelength/
Documentation.asp)

So the <u>basic</u> speed of such a Flash
(at 300 nm wavelength) from a Lightning
in such standard conditions, at **19** degrees (celsius),
would travel to the West at (km per second):

299706 = **19**x…

So the <u>basic</u> speed of such a Flash
(at 300 nm wavelength) from a Lightning
in such standard conditions, at **19** degrees (celsius),
would travel to the East at (km per second):

299706 = **19**x…

So the "Thunder" and the "Lightning" are also thus openly <u>glorifying</u> AL-LAH (=<u>yusabbihoona</u>
or/and <u>yasbahoona</u>; =17/44 & 13/13) by thus loudly proclaming --(in perfect "Symmetrical
Mathematical Language" here)-- that AL-LAH is "**<u>Wahidan</u>**" (="**<u>One</u>**") (=i.e. HE is the One
and Only Creator and the One and Only GOD) of the West and of the East, and of everyone and
of everything (=2/115 & 17/44) therein again, in the first place!
(So please, certainly see again that most fundamental and basic Explanation, in this respect,
on p. 4).

_____
image credit: learning.alfriston.sch.uk (**Earth** revolving around **Sun**)

12- And We made the night and the day as two Signs; then We dimmed the "Sign" of the night (=i.e. "Moon") and We made the "Sign" of the day (=i.e. "Sun") manifest, that you may seek bounty from your LORD, and that you may know (especially by that manifest Sign: "Sun" here now) the number of the years and the calculation! And (thus) everything We have explained in detail. (Quran Testament 17/12)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within that manifest Sign: "Sun" and the related "calculation" therein above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

The time it takes for the Earth to rotate completely around on its axis is what we call a "day."
One complete rotation actually takes **23** hours, **56** minutes, and **4.1** seconds. (source: universetoday.com/14700/how-long-is-a-day-on-earth)

So if we accurately convert this **23** hours, **56** minutes, and **4.1** seconds into a precise decimal number here, first of all, we thus get: **23.9345** hours

_____

So at the end of the **31**st day of a new Year (=i.e. at the end of the very last day of the first Month therein: i.e. on <u>January 31</u>) we get: 23.9345 X **31** = **"741**.97" hours

And at the end of the **335**th day of a new Year (=i.e. at the end of the very first day of the last Month therein; i.e. on <u>December 1</u>) we get: 23.9345 X **335** = **"8018**.06" hours

So in total, the <u>basic</u> number of **Hours** at the end of the **last Day** of the **first Month** of a New Year:

741 = **19**x…

So in total, the <u>basic</u> number of **Hours** at the end of the **first Day** of the **last Month** of a New Year:

8018 = **19**x…

Or/and in a Leap Year wherein the total number of days are "366" days (=i.e. because February lasts "29" days therein);

So in total, the <u>basic</u> number of **Hours** at the end of the **last Day** of the **1**st Month of a Leap Year:

741 = **19**x…

So in total, the <u>basic</u> number of **Hours** at the end of the **last Day** of the **11**th Month of a Leap Year:

8018 = **19**x…

_____
image credit: teacheratsea.wordpress.com (**Summer** and **Winter Solstice**)

62- And HE is The One Who made the night and the day in succession, for those who **wish** to remember --thus also and especially, due to the left side of those "**19**" coded Tables here,-- or **wish** to be thankful --thus also and especially, due to the right side of those "**19**" coded Tables here now!-- (Quran Testament 25/62)

6- Certainly, in the contradiction of the night and the day (=i.e. thus especially, short nights and long days in Summer X long nights and short days in Winter here), and what AL-LAH has created in the heavens and the earth are (mathematical) "**Signs**" for a people who are righteous. (Quran Testament 10/6)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "nights" and "days" in succession above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us see now the basic length of the nights and the days in succession, specifically for/within June (wherein "Summer Solstice" occur), and then for/within December (wherein "Winter Solstice" occur) for/in this chosen City (=Tucson, Arizona), wherein this long awaited and anticipated "Messenger/MESSAGE of the Covenant" has thus been sent now by AL-LAH to all humanity, in this Final Age. (So please, also certainly see now: Quran Testament 27/91 in this regard again, in the first place.)

_____

June

Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day
9 hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours
9 hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours
9 hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours	**9** hours	14 hours

Night	Day	Night	Day	Night	Day
9 hours	14 hours	**9** hours	14 hours	**9** hours	14 hours

= **19**

December

Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day	Night	Day
13 hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours
13 hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours
13 hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours	**13** hours	10 hours

= **19**

_____

So now, if we take all those "**19**" coded, most specific <u>Nights</u> and <u>Days</u> in succession above, in account here, for/in these most specific two Months (=i.e. in which Summer and Winter Solstice occur) of such a Year, we see that:

In "<u>June</u>" (which lasts **30** days) there are (maximum)

30 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

In "<u>December</u>" (which lasts **31** days) there are (maximum)

27 such most specific <u>Nights</u> and <u>Days</u> in succession therein;

_____

57 such most specific <u>Nights</u> and <u>Days</u> in succession therein, in total, in such a full Year!

This means:

<div align="center">

57 <u>Nights</u>   **57** <u>Days</u>

=**19**x…   =**19**x…

</div>

Please, note that --(based on this most Wise and perfect Instruction of our Supreme LORD (=74/28) herein again, in the first place, please, see it again on p. 3)-- we thus rightfully "disregard/exclude" for/on the left side, and rightfully "disregard/eliminate" for/on the right side those very last **4** Nights and **4** Days of December here, because when/if they are added they absolutely cannot give multiple of "**19**" therein above.

And please, note that the basic length of all those <u>Nights</u> and <u>Days</u> in succession above have thus been taken into account specifically for/in the Year: **2014,** because this is the most fundamental first Year (=i.e. which clearly gives a multiple of **19** here) of this most critical and important **Third** and **Last Day/Millennium** now. (So please, also certainly see now: Quran Testament 22/47 & 2/62 in this regard again, in the first place.)

(*The data is basically retrieved from this site: "timeanddate.com" for/in these excellent Tables above.)
image credit: bestpregnancytips.com (**A Fetus** in **the Womb**)

6- … HE creates you in the wombs of your mothers, a creation after a creation, in <u>three</u> (periods) of darkness.
Such is AL-LAH, your LORD. To HIM belongs (all) Sovereignty. There is no god but HE! How is it then you deviate? (Quran Testament 39/6)

53- So We will show them Our (mathematical) "**Signs**" in the horizons, and also within themselves (=thus also within those "<u>three</u>" -periods- of darkness in the womb of the mothers above), until (thus) it becomes perfectly clear to them that it is the Truth!
(Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

The first day of the pregnancy (when it comes to dating it) begins on the first day of the last menstrual period (LMP) of the expecting mother. And the full term pregnancy is thus basically calculated as **42 weeks** from this time on. (source: whattoexpect.com/pregnancy/pregnancy-health/calculating-due-date.aspx)

So if we write down these "**42 weeks**" in total, in such a perfect sequence now, here thus:

_____

| **Week** days | **Week** days | **Week** days | **Week** days | **Week** days | **Week** days |

2 1 2 3 4 5 6 7 **3** 1 2 3 4 5 6 7 = **19**x…

4 1 2 <u>3</u> 4 5 <u>6</u> 7 **5** 1 2 3 4 5 6 7 **6** 1 2 3 4 5 6 7 **7** 1 2 3 4 <u>5</u> 6 7 **8** 1 2 3 4 5 6 7 **9** 1 2 <u>3</u> 4 5 <u>6</u> 7

10 1 2 3 4 5 6 7 **11** 1 2 3 4 5 6 7 **12** 1 2 3 4 <u>5</u> 6 7 **13** 1 2 3 4 5 6 7 **14** 1 <u>2</u> 3 4 5 6 7

15 1 2 3 4 5 6 7 **16** 1 2 3 4 5 6 7 **17** 1 2 3 4 <u>5</u> 6 7 **18** 1 2 3 4 5 6 7 **19** 1 <u>2</u> 3 4 5 6 7

20 1 2 3 4 5 6 7 **21** 1 2 3 4 5 6 7 **22** 1 2 3 4 5 6 7 **23** 1 2 3 4 5 6 7 **24** 1 2 3 4 5 6 7

25 1 2 3 4 5 6 7 **26** 1 2 3 4 5 6 7 **27** 1 2 3 4 5 6 7 **28** 1 2 3 <u>4</u> 5 6 7 **29** 1 2 3 4 5 6 7

30 <u>1</u> 2 3 4 <u>5</u> 6 7 **31** 1 2 3 4 5 6 7 **32** 1 2 3 4 5 6 7 **33** 1 2 3 <u>4</u> 5 6 7

34 1 2 3 4 5 6 7 **35** <u>1</u> 2 3 4 5 6 7 **36** 1 2 3 4 5 6 7 = **19**x…

37 1 2 3 4 5 6 7 **38** 1 2 3 4 5 6 7 **39** 1 2 3 4 5 6 7 **40** 1 2 3 4 5 6 7

41 1 2 3 4 5 6 7 = **19**x…

We thus see that only and specifically within "<u>three</u>" <u>periods</u> (=i.e. at the end of the **3**rd Week, and then at the end of the **36**th Week, and then at the end of the **41**st Week above) we can thus exclusively and perfectly see a multiple of "**19**" here! (So please, certainly see again now: Quran Testament 39/6 in the previous page.)

_____

*Please, note that --(based on this most Wise and perfect Instruction of our Supreme LORD (=74/28) herein again, in the first place, please, see it again on p. 3)-- we thus rightfully "disregard/exclude" in the beginning above, and rightfully "disregard/eliminate" in the end above those very first **Week** (=i.e. **1** 1 2 3 4 5 6 7) --(because ovulation and conception takes place after the **1**st **Week** <u>in most women</u>), and the very last **Week** (=i.e. **42** 1 2 3 4 5 6 7) --(because birth giving takes place before the **42**nd **Week** <u>in most women</u>), thus in such a perfectly parallel manner here. (*So please, certainly see it again (=74/26-30) on p. 3, also in this regard now.)

And then we should also certainly notice here that within these specific "**40** Weeks" of full term pregnancy above (=i.e. from the beginning of the **2**nd Week to the end of the **41**st Week above), thus only and specifically at the very last days of these three exclusive Weeks:

3rd Week, at the end of **7**th Day therein;

36th Week, at the end of **7**th Day therein;

41st Week, at the end of **7**th Day therein;

we can thus perfectly see a multiple of "**19**," in the first place. And then, also at the very beginning or following days of these thirteen other Weeks therein:

4th Week, at the end of **3**th Day therein;

4th Week, at the end of **6**th Day therein;

7th Week, at the end of **5**th Day therein;

9th Week, at the end of **3**th Day therein;

9th Week, at the end of **6**th Day therein;

12th Week, at the end of **5**th Day therein;

14th Week, at the end of **2**nd Day therein;

17th Week, at the end of **5**th Day therein;

19th Week, at the end of **2**nd Day therein;

28th Week, at the end of **4**th Day therein;

30th Week, at the end of **1**st Day therein;

33rd Week, at the end of **4**th Day therein;

35th Week, at the end of **1**st Day therein;

_____

we can also thus see a multiple of "**19**," thereafter.

So if we write down these specific "**16** Weeks" in total above (=i.e. **three** of them exclusive, and the other **thirteen** are thus specific, in the way pointed out above) in this perfectly corresponding and parallel manner here, we again thus most AMAZINGLY and most WONDROUSLY see that:

Week	Week	Week	Week	Week	Week	Week	Week
41	**36**	**3**	**35**	**33**	**30**	**28**	**14**

$= \mathbf{19}_{X\ldots}$

Week	Week	Week	Week	Week	Week	Week	Week
19	**17**	**12**	**9**	**9**	**7**	**4**	**4**

$= \mathbf{19}_{X\ldots}$

Day	Day	Day	Day	Day	Day	Day	Day
7	**7**	**7**	**1**	**4**	**1**	**4**	**2**

$= \mathbf{19}_{X\ldots}$

Day	Day	Day	Day	Day	Day	Day	Day
2	**5**	**5**	**6**	**6**	**5**	**3**	**3**

$= \mathbf{19}_{X\ldots}$

*Please, note that on the right side above, we see that within the **9**th Week we can get a multiple of "**19**" twice (=i.e. on the **3**rd and the **6**th Days therein (please, see it on the previous page), and within the **4**th Week, we can get a multiple of "**19**" twice (=i.e. on the **3**rd and the **6**th Days therein again (please, see it on the previous page); but because that on account of these specific occurrences, we place these specific two Weeks twice as: **9 9** & **4 4** on the right side above, in the first place, so we have placed these specific Days therein twice again as: **6 6** & **3 3** thereafter, thus in a perfectly parallel manner, based on this most Wise and perfect Instruction of our Supreme LORD herein again (=16/101-102), thus also in this respect now, in the first place!

_____

So last of all, we should also certainly see here these most critical and important Verses, in this respect again, now thus:

==========

20- Did We not create you from a humble fluid?

21- Then We made it in a place of protection (=i.e. womb),

22- Until a "**measured time**" that is known (by Us).

23- So We thus **measured** --based on code **"$\mathbf{\color{red}{19}}$"** here again; **74/30** = **39/6** = **41/53**); and We are the **Best Measurers**! --(as we have already thus most clearly and unmistakably witnessed it here again in these above Verses: **39/6** = **74/30** = **41/53**)!

24- Woe on that Day to the rejecters!

(Quran Testament 77/20-24)
==========

*Please, note that this most specific pronoun (=i.e. "**We**") in the Quran Testament thus always refer to our Supreme LORD, in the first place, together with all of HIS highest ranking Angel Servants --who are under HIS Absolute Sovereignty and Supreme Authority there-- thereafter. (So please, certainly see in this respect now: Quran Testament 69/17 & 40/7, in the first place.)

_____

image credit: babyanimalzoo.com (**Baby-Sheep**)   image credit: cow-pictures.blogspot.com (**Baby-Cow**)

143- Eight pairs: from the sheep two (=i.e. as one male and one female), and from the goats two (=i.e. as one male and one female). Say: Is it the two males (=i.e. thus also a specific reference to that one male sheep which will be placed within the second section, on the right side of our "**19**" coded Table here, then to that one male goat which will be placed within the first section, on the left side of our "**19**" coded Table here) that HE forbade, or the two females (=i.e. thus also a specific reference to that one female sheep which will be placed within the second section, on the left side of our "**19**" coded Table here, then to that one female goat which will be placed within the first section, on the right side of our "**19**" coded Table here), or what the womb of those two females bore (=i.e. thus also a specific reference to those four baby sheep which will be placed within the second section again, on the left side of our "**19**" coded Table here, then to those three baby goats which will be placed within the first section again, on the right side of our "**19**" coded Table here)! Inform me based on (such) a --"**19**" coded-- "**Knowledge**" (=74/30), if you are truthful!

144- And from the camels two (=i.e. as one male and one female), and from the cows two (=i.e. as one male and one female). Say: Is it the two males (=i.e. thus also a specific reference to that one male camel which will be placed within the second section, on the right side of our "**19**" coded Table here, then to that one male cow which will be placed within the first section, on the left side of our "**19**" coded Table here) that HE forbade or the two females (=i.e. thus also a specific reference to that one female camel which will be placed within the second section, on the left side of our "**19**" coded Table here, then to that one female cow which will be placed within the first section, on the right side of our "**19**" coded Table here), or what the womb of those two females bore (=i.e. thus also a specific reference to those four baby camels which will be placed within the second section again, on the left side of our "**19**" coded Table here, then to those three baby cows which will be placed within the first section again, on the right side of our "**19**" coded Table here)!

_____

Or were you witnesses when AL-LAH ordered you with this --(kind of baseless prohibitions above)? Then who is more wicked than one who invents lies (=i.e. such baseless prohibitions above, to attribute them) to AL-LAH in order to misguide the people without any (real such) --"**19**" coded-- "**Knowledge**" (=74/30)! Then, AL-LAH does not guide (such) wicked people (here; 74/31)!

(Quran Testament 143-144)

So let us clearly see all of those specific animals, as clearly pointed out above, with their specific (diploid: 2n) "chromosome numbers" here, now thus:

	diploid chromosome numbers	diploid chromosome numbers	
male **Goat**	60	60	female **Goat**
male **Cow**	60	60	female **Cow**
		60	-female **baby Goat**-
		60	-female **baby Cow**-
		60	-male **baby Goat**-
		60	-male **baby Cow**-
		60	-female **baby Goat**-
		60	-female **baby Cow**-
female **Sheep**	54	54	male **Sheep**
female **Camel**	74	74	male **Camel**
-female **baby Sheep**-	54		
-female **baby Camel**-	74		
-male **baby Sheep**-	54		
-male **baby Camel**-	74		
-female **baby Sheep**-	54		
-female **baby Camel**-	74		
-male **baby Sheep**-	54		
-male **baby Camel**-	74		

$$= \textbf{19}_{\textbf{x}\ldots} \qquad = \textbf{19}_{\textbf{x}\ldots}$$

* Please, note that we have specifically taken into account "**three**" baby Goats, or/and baby Cows within the first section above, and then specifically "**four**" baby Sheep, or/and baby Camels within the second section above, due to this most Wise and perfect "Sign" of our Supreme LORD in this regard, within these specific Verse Numbers above (=6/14**3** and 14**4**) thus in the first place!

_____

And please, note that the mitochondrial dna (=smallest chromosomes, which are located "<u>outside</u>" the nucleus) are not included in these regular (diploid) chromosome numbers (which are located "<u>inside</u>" the nucleus) above; so --(based on this most fundamental and basic Verse (=74/28) herein again, in the first place, please, see it again on p. 1)-- we thus rightfully "disregard/exclude" them, --for/on the left side,-- and rightfully "disregard/eliminate" them --for/on the right side,-- here again, in the first place. (=74/26-30)

(So please, certainly also see here again: "Universal Magnificent Miracles 1" document, p. 63 now, thus to clearly witness all those other unique land "animals" therein, which are thus specifically mentioned in the Quran Testament, and most Wisely and perfectly coded by our Supreme LORD within/under number "**19**" again (=74/30), thus in an exactly same/similar manner therein, in the first place.)

_____

image credit: maritime-connector.com (**Ships** passing through St. Lawrence Seaway)

31- Have you not seen the <u>ships</u> sailing the sea, carrying AL-LAH's <u>provisions</u>, to show you some of HIS (mathematical) "**Signs**!" For in that are (mathematical, symmetrical) "**Signs**" for every one who is --so now thus also and especially, due to the left side of those "**19**" coded Tables here-- "patient," --due to the right side of those "**19**" coded Tables here-- "thankful!" (Quran Testament 31/31)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "ships" sailing the sea with those "<u>provisions</u>" above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

The term "Seawaymax" refers to the maximum size of vessels capable of passing through the canal locks of the St. Lawrence Seaway**.** … So the size of ships that can pass through the Seaway is limited by the size of these locks. Taking this into account, a typical "Seawaymax" ship is designed to be **225.6** m (740 ft) long, **23.8 m** (78 ft) wide, …… (source: maritime-connector.com/wiki/seawaymax)

So now, if we take into account such a typical Seawaymax ship (=i.e. about "**226**" m long, and "**24**" m wide, in round numbers) that can travel between the (salty waters of) Atlantic Ocean and also in the (fresh waters of) Great Lakes, thus carrying AL-LAH's many provisions therein:

_____

2400 x 22600 x **19** = 1,030,560,000 cm^3

(=First of all, this would be the volume of that displaced water, if/when it sinks **19** cm deeper in the Sea due to a specific/extra cargo (=i.e. with all those "provisions" pointed out above) weight.

So in (Fresh) Lake Waters,
whose average/normal density is: 1.0
thus

1,030,56<u>0</u> kg

$=$ **19**$_{x…}$

specific/extra cargo would sink
such a Ship "**19**" cm deeper in the Sea!

So in (Salty) Sea Waters,
whose average/normal density is: 1.025
thus

1,056,32<u>4</u> kg

$=$ **19**$_{x…}$

specific/extra cargo would sink
such a Ship "**19**" cm deeper in the Sea!

So in (Salty) Sea Waters,
whose minimum density is: 1.020
thus

1,051,171.2<u>0</u> kg

$=$ **19**$_{x…}$

specific/extra cargo would sink
such a Ship "**19**" cm deeper in the Sea!

So in (Salty) Sea Waters,
whose maximum density is: 1.029
thus

1,060,446.2<u>4</u> kg

$=$ **19**$_{x…}$

specific/extra cargo would sink
such a Ship "**19**" cm deeper in the Sea!

_____
image credit: latitude-longitude.net (**Latitudes** and **Longitudes**)

10- HE is The One Who made the <u>earth</u> a habitat for you, and HE made "<u>pathways</u>" (=thus a specific reference also to each of those "<u>latitudes</u>" and "<u>longitudes</u>" here now) therein, that you may be guided! (Quran Tesament 43/10)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "<u>latitudes</u>" and "<u>longitudes</u>" above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

Here again, first of all, we should certainly know that all the Scientific discoveries, or Scientific classifications, definitions, formulas, etc. that have thus been discovered by human beings in the previous centuries, or/and now in this Age, or in the future --(when/if they are correct and beneficial, and thus approved by AL-LAH)-- are thus taught to them, and are thus totally created and implemented by AL-LAH, in essence (=Quran Testament 2/255 & 21/80 & 8/17 & …), in the first place. (So please, also certainly see again that superbly "Magnificent Miracle" and the basic Explanation thereof in this regard, on p. 12, in the first place).

So now, let us see the length of a degree of each Latitude and Longitude from **90** to **0** degrees, within these most specific points (=i.e. at "**76**" (=**19**x4), and then "**57**" (=**19**x3), and then "**38**" (=**19**x2), and then "**19**" (=**19**x1) degrees)-- in between, thus from the North Pole, or/and the South Pole, --down or up-- to the Equator, here thus:

_____

Length of a Degree of "**Latitude**" (meter):

From the **North Pole** to the **Equator**:

90°	**76**^{o}	**57**^{o}	**38**^{o}	**19**^{o}	**0**^{o}
111694	**111628**	**111360**	**110996**	**110692**	**110574**

$$= {}_{-}\mathbf{19}_{X\ldots}$$

or/and From the **South Pole** to the **Equator**:

90°	**76**^{o}	**57**^{o}	**38**^{o}	**19**^{o}	**0**^{o}
111694	**111628**	**111360**	**110996**	**110692**	**110574**

$$= {}_{-}\mathbf{19}_{X\ldots}$$

xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx

Length of a Degree of "**Longitude**" (meter):

From the **North Pole** to the **Equator**:

90°	**76**^{o}	**57**^{o}	**38**^{o}	**19**^{o}	**0**^{o}
0	**27016**	**60772**	**87832**	**105292**	**111319**

$$= {}_{-}\mathbf{19}_{X\ldots}$$

_____

or/and From the **South Pole** to the **Equator**:

90°	76°	57°	38°	19°	0°
0	27016	60772	87832	105292	111319

$$= \mathbf{19}_{X\ldots}$$

(*The data is basically retrieved from this site: "csgnetwork.com/degreelenllavcalc.html" for/in these excellent Tables above.)

_____

im. credit: math.sfsu.edu (**Jerusalem**)   im. credit: en.wikipedia.org (**Makkah**)   image credit: arizona.edu (**Tucson**)

55- … And We gave David --(in Jerusalem)-- the Psalms. (Quran Testament 17/55)

40- Muhammad was not the father of any of your men, but he was --(in Makkah)-- the Messenger of AL-LAH, and the seal of the Prophets. … (Quran Testament 33/40)

91- (O Messenger of the Covenant, i.e. the long awaited and anticipated Messiah and Mahdee descendant of prophet David and prophet Muhammad --peace be upon both of them-- here) you shall say: I am commanded to worship the LORD of this "Town" (=Tucson) --HE has made it a safe sanctuary-- and HE possesses all things. And I am (thus) commanded (here) to be of those who surrender (to AL-LAH)! (Quran Testament 27/91)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those three "most sacred Towns" above now), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us clearly see the perfect Coordinates of these three "most sacred Towns" (=i.e. Jerusalem, Makkah, and Tucson) now, here thus:

_____

Latitudes: **Jerusalem**   **Makkah**   **Tucson**
              31° 46' **North** 21° 25' **North** 32° 13' **North**

31 21 32 = **19**x…

Longitudes: **Tucson**   **Jerusalem**   **Makkah**
              110° 55' **West** 35° 13' **East** 39° 49' **East**

110 35 39 = **19**x…

*Please, note that we have thus perfectly placed these three "most sacred Towns" thus within its proper historical order (=i.e. first came David in Jerusalem, then came Muhammad in Makkah, then came their Messiah and Mahdee descendant, i.e. this most critical and important "Messenger/**MESSAGE** of the Covenant" therein in Tucson now), with regard to the **Latitudes** above, in the first place, also because each of them is perfectly thus: **North, North, North** therein; but because that with regard to the **Longitudes** above, each of them is exclusively thus: **East, East, West,** we have therefore thus perfectly and legitimately placed **Tucson** in the first place therein.

So let us also see now "Length of a degree of Latitude" for each of these specific Latitudes of these three "most sacred Towns" above, here thus:

Length of a Degree of Latitude (meter):

Jerusalem   **Makkah**   **Tucson**
31° (**North**) 21° (**North**) 32° (**North**)

110869   **110717**   **110887**

So if we write them as "round numbers" here thus:

110000 110000 110000

= **19**x…

_____

So let us also see now "Length of a degree of Longitude" for each of these specific Latitudes of these three "most sacred Towns" above, here thus:

Length of a Degree of Longitude (meter):

Tucson	**Jerusalem**	**Makkah**
32° (**West**)	31° (**East**)	21° (**East**)
94493	**95504**	**103970**

So if we write them as "round numbers" thus:

95000 96000 103000

= **19**x…

* Please, note that when we round the "five digit numbers" (=e.g. **94493**) above, we thus increase them to the next order (=i.e. **95000**), but when we round the "six digit numbers" (=e.g. **103970**) above, we thus keep them at the same order (=i.e. **103000**) for/within the length of a degree of "**Latitudes**" and also "**Longitudes**" above.
And please, also note that because of the exact same reason above, we have thus perfectly and legitimately placed **Tucson** in the first place herein again, within those "**Longitudes**" above.

And to clearly witness all of those most miraculous and important Prophecies by prophet Moses, and Jesus, and David, and Muhammad; peace be upon each of them) with regard to this most critical and important "Messenger/**MESSAGE** of the Covenant" (=i.e. the long awaited and anticipated Messiah and Mahdee descendant of prophet David and prophet Muhammad; peace be upon both of them here), and this "chosen Town" wherein this most critical and important "Messenger/**MESSAGE** of the Covenant" will thus dwell in this Final Age, by the Commandment of our Supreme LORD here (=Quran Testament 27/91 & 95/1-3),
please, also certainly see "A Supernal Miracle" document, p. 17-27, and "A Miraculous Seal" document, p. 12-14, and "A Festive Miracle" document, p. 19-23 now, in this regard, in the first place.

_____
image credit: learner.org (**East** and **West** of **Prime Meridian**)

17- (HE is) The LORD of <u>two easts</u> and <u>two wests</u>! (Quran Testament 55/17)

40- So I do swear by The LORD of <u>(all) easts</u> and <u>(all) wests</u>, that We are able!
(Quran Testament 70/40)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those
"<u>two easts</u>" and "<u>two wests</u>," and thereafter also "<u>(all) easts</u>" and "<u>(all) wests</u>" above), and
also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth!
(Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us see the precise Length of a Degree of **Longitude** for 19° first of all, here thus:

Length of a Degree of "**Longitude**" (in meter) for:

19$^{\text{o}}$

<u>**105291.976**</u> (m)

_____

And because that in total there are "**180**" **Longitudes** in the East of the Prime Meridian (=i.e. Greenwich), we shall multiply it now, here thus:

105291.9 x **180** = **18952542** **meter** = **18952.542** **km**

So the total Length of a Degree (=i.e. **180** Degrees in total) of **Longitudes** for 19° is thus:

18952.5 **km** = **19**x…

in the Northern East (=i.e. thus representing all the regions from 19° Latitude, up to the Northern Pole therein) is thus specifically the "**East 1**" in this regard! (=55/17)

So the total Length of a Degree (=i.e. **180** Degrees in total) of **Longitudes** for 19° is again thus:

18952.5 **km** = **19**x…

in the Southern East (=i.e. thus representing all the regions from 19° Latitude, down to the Southern Pole therein) is thus specifically the "**East 2**" in this regard! (=55/17)

And then because that in total there are "**180**" **Longitudes** also in the West of the Prime Meridian (=i.e. Greenwich), we shall again multiply it now, here thus:

105291.9 x **180** = **18952542** **meter** = **18952.542** **km**

So the total Length of a Degree (=i.e. **180** Degrees in total) of **Longitudes** for 19° is thus:

18952.5 **km** = **19**x…

in the Northern West (=i.e. thus representing all the regions from 19° Latitude, up to the Northern Pole therein) is thus specifically the "**West 1**" in this regard! (=55/17)

_____

So the total Length of a Degree (=i.e. **180** Degrees in total) of **Longitudes** for **19**^o is thus:

18952.5 **km** = **19**_{X…}

in the <u>Southern West</u> (=i.e. thus representing all the regions from **19**^o Latitude, down to the Southern Pole therein) is thus specifically the "**West 2**" in this regard! (=55/17)

****

And thereafter, let us see now the precise Length of a Degree of **Longitude** for **0**^o first of all, here thus:

Length of a Degree of "**Longitude**" (in meter) for:

0°

111319.458 (m)

And because that in total there are "**180**" **Longitudes** in the <u>East</u> of the Prime Meridian (=i.e. Greenwich), we shall multiply it now, here thus:

111319.4 x **180** = **20037492** **meter** = **20037.492** **km**

So the total Length of a Degree (=i.e. **180** Degrees in total) of **Longitudes** for **0**^o is thus:

20037.4 **km** = **19**_{X…}

in the <u>Northern East</u> (=i.e. thus representing all the regions from **0**^o Latitude to **19**^o Latitude, and then from **19**^o Latitude, up to the Northern Pole therein) is thus specifically the "**East 1 - 2**" in this regard! (=70/40)

_____

So the total Length of a Degree (=i.e. **180** Degrees in total) of **Longitudes** for 0° is again thus:

$$\underline{20037.4}\ _{km} = \textbf{\textcolor{red}{19}}_{X\ldots}$$

in the <u>Southern East</u> (=i.e. thus representing all the regions from 0° Latitude to 19° Latitude, and then from 19° Latitude, down to the Southern Pole therein) is thus specifically the "**East 3 - 4**" in this regard! (=70/40)

And then because that in total there are "**180**" **Longitudes** also in the <u>West</u> of the Prime Meridian (=i.e. Greenwich), we shall again multiply it now, here thus:

111319.4 x **180 = 20037492** **meter** = **20037.492** **km**

So the total Length of a Degree (=i.e. **180** Degrees in total) of **Longitudes** for 0° is thus:

$$\underline{20037.4}\ _{km} = \textbf{\textcolor{red}{19}}_{X\ldots}$$

in the <u>Northern West</u> (=i.e. thus representing all the regions from 0° Latitude to 19° Latitude, and then from 19° Latitude, up to the Northern Pole therein) is thus specifically the "**West 1 - 2**" in this regard! (=70/40)

So the total Length of a Degree (=i.e. **180** Degrees in total) of **Longitudes** for 0° is thus:

$$\underline{20037.4}\ _{km} = \textbf{\textcolor{red}{19}}_{X\ldots}$$

in the <u>Southern West</u> (=i.e. thus representing all the regions from 0° Latitude to 19° Latitude, and then from 19° Latitude, down to the Southern Pole therein) is thus specifically the "**West 3 - 4**" in this regard! (=70/40)

(*The data is basically retrieved from this site: "csgnetwork.com/degreelenllavcalc.html" for/in these excellent Tables above.)

And please, note that our Supreme LORD may also grant unto us further Knowledge regarding these "<u>two Easts</u>" and "<u>two Wests</u>," and then "<u>(all) Easts</u>" and "<u>(all) Wests</u>" thus also in Galactic or/and Universal Scale, also in the future, inshaAl-lah. (=Quran Testament 21/37 & 41/53 & …)

image credit: nicerweb.com (**Ringneck Dove**)

19- Have they not seen the birds above them, spreading their wings and drawing them in? None but (AL-LAH Who is) The Gracious (thus) holds them up (in the air). Certainly, HE is Seer of all things. (Quran Testament 67/19)

79- Have they not looked to the birds held in the atmosphere of the sky? None but AL-LAH (thus) holds them up (in the air). In that are (mathematical) "**Signs**" for a people who believe. (Quran Testament 16/79)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "birds" in the air spreading their wings and drawing them in above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

Ringed Turtle Dove (Streptopelia Risoria) tested at flying at "1" meter per second, then at "5" meter per second, then at "9" meter per second, then at "17" meter per second;

_____

Angle of Attack at <u>low speeds</u> peaked at **52** degrees (proximal wing) and **43** degrees (distal wing). And then Angle of Attack at <u>high speeds</u> decreased to **9** – **14** degrees (proximal wing) and **-5** – **14** degrees (distal wing). (source: people.eku.edu/ritchisong/554notes2.html)

So if

at <u>low speed</u> the Angle of Attack (proximal wing) is: **52** degrees
and at <u>high speed</u> the Angle of Attack (proximal wing) is: **14** degrees (maximum), therein;

The difference (for the left wing) thereof is:	The difference (for the right wing) thereof is:
38 degrees = **19**x…	**38** degrees = **19**x…
(within the same plane)	(within the same plane)

So if

at <u>low speed</u> the Angle of Attack (distal wing) is: **43** degrees
and at <u>high speed</u> the Angle of Attack (distal wing) is: **-5** degrees (minium), therein;

The difference (for the left wing) thereof is:	The difference (for the right wing) thereof is:
38 degrees = **19**x…	**38** degrees = **19**x…
(within the opposite plane)	(within the opposite plane)

_____

The Aspect Ratios (=i.e. the Ratio of length to width of a Wing) among all of the Bird species
(examined up to date) basically vary between "**1.5**" up to about "**18.**"
The Wing Loading (=i.e. Weight / Wing Surface) among all of the Bird species (examined up to date)
basically vary between "**1**" up to about "**20**" kg/m^2 (source: people.eku.edu/ritchisong/554notes2.html)

So with regard to "Aspect Ratios," within all of these Bird species above, only these
"**9**" certain values can thus give us a multiple of "**19**" therein;
and then with regard to "Wing Loadings," within all of these Bird species above, only these
"**10**" certain values can thus give us a multiple of "**19**" therein;

The Aspect Ratios (in total: **9**) & The Wing Loadings (in total: **10**)

the left Wing		the right Wing	
1	1.9	**1**	1.9
2	3.8	**2**	3.8
3	5.7	**3**	5.7
4	7.6	**4**	7.6
5	9.5	**5**	9.5
6	11.4	**6**	11.4
7	13.3	**7**	13.3
8	15.2	**8**	15.2
9	17.1	**9**	17.1
1	1.9	**1**	1.9
2	3.8	**2**	3.8
3	5.7	**3**	5.7
4	7.6	**4**	7.6
5	9.5	**5**	9.5
6	11.4	**6**	11.4
7	13.3	**7**	13.3
8	15.2	**8**	15.2
9	17.1	**9**	17.1
10	19.0	**10**	19.0

= **19**x...   = **19**x...

_____

image credit: writewhat.com (**Spine-tailed Swift**)   image credit: allaboutbirds.org (**Hummingbird**)

The fastest flying bird (in level flight) is the Spine-tailed Swift with **47** meter per second.
The fastest flapping bird in the world is the Hummingbird with **200** times per second.
(sources: thetravelalmanac.com/lists/birds-speed.htm & pbs.org/wnet/nature/episodes/
hummingbirds-magic-in-the-air/introduction/5424)

So the fastest speed + fastest wingbeat
per **second**
of these record holder birds together

for/on their left Wings: for/on their right Wings:

47 + **200**   **47** + **200**

247 = **19**x…   **247** = **19**x…

image credit: willridgeimages.co.uk (**R. Griffon Vulture**)   image credit: writewhat.com (**Spine-tailed Swift**)

The highest flying bird ever recorded is "Ruppell's Griffon Vulture,"
at **37900** feet (=**11551.92** m)

The fastest flying bird (in level flight) recently recorded is "Spine-tailed Swift,"
at **106** mile (=**170.59** km) per hour
(Sources: archive.audobonmagazine.org/birds/birds0011.html & thetravelalmanac.com/
lists/birds-speed.htm)

So the highest flying bird
ever recorded
(in round number) in meter:

11552 = **19**x…

So the fastest flying bird
recently recorded
(in round number) in kilometer:

171 = **19**x…

_____

image credit: geol.umd.edu (A Gliding **Albatross**)   image credit: allaboutbirds.org (A Gliding **Black Vulture**)

Gliding Ratio of "Albatross" is: **<u>25</u>** (=i.e. when gliding, it may travel up to **25** meters for every meter of altitude lost.) And this is a maximum Ratio among the birds that basically glide over the seas.

Gliding Ratio of "Black Vulture" is: **<u>20</u>** (=i.e. when gliding, it may travel up to **20** meters for every meter of altitude lost.) And this is a maximum Ratio among the birds that basically glide over the land. (source: people.eku.edu/ritchisong/554notes3.html)

So such an "Albatross" would normally descend

76 meter = **19**x…

when gliding **<u>1900</u>** meter distance!

(=i.e. **1900** / **<u>25</u>** = **76**)

So such a "Black Vulture" would normally descend

95 meter = **19**x…

when gliding **<u>1900</u>** meter distance!

(=i.e. **1900** / **<u>20</u>** = **95**)

_____
image credit: csep10.phys.utk.edu (**Layers** of **Atmosphere**)   image credit: education-portal.com (**Layers** of **Earth**)
12- AL-LAH is The One Who created <u>seven</u> skies (=thus a specific reference also to those <u>seven</u> <u>layers</u> of the atmosphere), and of the earth the same (number) as them (=thus a specific reference also to those <u>seven layers</u> of the earth thereafter). (HIS) Command descends between them, that you may (thus) know that AL-LAH is --so now thus also and especially, due to the left side of those "**19**" coded Tables here-- Omnipotent over all things, and AL-LAH has encompassed --thus also and especially, due to the right side of those "**19**" coded Tables here-- all things with (HIS) Knowledge! (Quran Testament 65/12)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those <u>seven layers</u> of the atmosphere, and then those <u>seven layers</u> of the earth above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

_____

* So here are those specific "**7 layers**" of the Atmosphere:

7 <u>Exosphere</u>: it starts from 600 km and extends up to **<u>10000</u>** km

6 <u>Thermosphere</u>: it starts from 300 km and extends up to **<u>600</u>** km

5 <u>Ionosphere</u>: it starts from 85 km and extends up to **<u>300</u>** km

4 <u>Mesosphere</u>: it starts from 50 km and extends up to **<u>85</u>** km

3 <u>Stratosphere</u>: it starts from 20 km and extends up to **<u>50</u>** km

2 <u>Ozone Layer</u>: it starts from 10 km and extends up to **<u>37</u>** km

1 <u>Troposphere</u>: it starts from 0 km and extends up to **<u>20</u>** km

<u>20</u> <u>37</u> <u>50</u> <u>85</u> <u>300</u> <u>600</u> <u>10000</u> = **19**_{X…}

* So here are those specific "**7 layers**" of the Earth:

7 <u>Crust</u>: it starts from 0 km and extends down to **<u>75</u>** km

6 <u>Upper Mantle</u>: it starts from 75 km and extends down to **<u>400</u>** km

5 <u>Transition Region</u>: it starts from 400 km and extends down to **<u>650</u>** km

4 <u>Lower Mantle</u>: it starts from 650 km and extends down to **<u>2700</u>** km

3 <u>D' Layer</u>: it starts from 2700 km and extends down to **<u>2890</u>** km

2 <u>Outer Core</u>: it starts from 2890 km and extends down to **<u>5150</u>** km

1 <u>Inner Core</u>: it starts from 5150 km and extends down to **<u>6378</u>** km

<u>6378</u> <u>5150</u> <u>2890</u> <u>2700</u> <u>650</u> <u>400</u> <u>75</u> = **19**_{X…}

_____

(*The data for "the seven layers of the Atmosphere" above is basically retrieved from these sites:
"srh.noaa.gov" & "ozonelayer.noaa.gov;" and the data for "the seven layers of the Earth" above
is basically retrieved from these sites: "library.thinkquest.org" & "walrus.wr.usgs.gov"
for/in both of these excellent Tables above.)

And please, note that there is no scientific consensus about the exact measures (of the heights
or/and the depths) of each of those "7 layers" of the Atmosphere, or/and of the Earth above.
But those measurements can thus be accepted as generally the most accurate and the
most reliable measurements thus perfectly presented above.

And please, note that the total height of those specific "7 layers" of the Atmosphere thus
basically extends up to **10000** km above,
and the total depth of those specific "7 layers" of the Earth thus basically extends down to
6378 km below therein.

So the total height & depth   So the total height & depth
of the atmosphere & earth   of the atmosphere & earth
(in km)   (in km)
when looking   when looking
up into the sky & down into the earth   down into the earth & up into the sky
from within Western hemisphere: from within Eastern hemisphere:

10000 + **6378** =   **6378** + **10000** =

16378 = $\textcolor{red}{\textbf{19}}\textcolor{red}{_\textrm{X}\ldots}$ **16378** = $\textcolor{red}{\textbf{19}}\textcolor{red}{_\textrm{X}\ldots}$

_____
image credit: blogs.glowscotland.org.uk (**Phases** of the **Moon**)

189- They ask you regarding the <u>new moons</u>, say: They are (precise) timing devices for the people and the Pilgrimage! (Quran Testament 2/189)

39- And the <u>Moon</u>; We have measured for it <u>phases</u>, until it becomes (a crescent) like an old curved sheath. (Quran Testament 36/39)

5- HE is The One Who rendered the Sun radiant, and the <u>Moon</u> a light, and HE measured <u>phases</u> for it, that you may learn the count of the years, and the --"**19**" coded-- **Calculation**!
AL-LAH did not create all this, except for/with Truth.
HE (thus) explains the (mathematical) "**Signs**" for people who know! (Quran Testament 10/5)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "<u>new moons</u>" and thus the "<u>phases</u>" of the <u>Moon</u> above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So, first of all, let us see the main "phases" of the "Moon" now, here thus:

_____

New Moon (=i.e. wherein % **0** percent of the Moon is visible)
First Quarter (=i.e. wherein % **50** percent of the Moon is visible)
Full Moon (=i.e. wherein % **100** percent of the Moon is visible)
Last Quarter (=i.e. wherein % **50** percent of the Moon is visible)

And besides these main "phases" of the "Moon" above, let us see the other "phases" of the "Moon" that thus occur in between:

New Moon
Waxing Crescent (=i.e. wherein the Moon gradually grows until **half** of it will become visible at the **First Quarter**; so we will get here the specific phases wherein exclusively % **19** and % **38** percent of the Moon may thus be visible therein)

First Quarter
Waxing Gibbous (=i.e. wherein the Moon gradually grows until **whole** of it will become visible at the **Full Moon**; so we will get here the specific phases wherein exclusively % **57** and % **76** percent of the Moon may thus be visible therein)

Full Moon
Waning Gibbous (=i.e. wherein the Moon gradually shrinks until **half** of it will become visible at the **Last Quarter**; so we will get here the specific phases wherein exclusively % **76** and % **57** percent of the Moon may thus be visible therein)

Last Quarter
Waning Crescent (=i.e. wherein the Moon gradually shrinks until **none** of it will become visible at the **New Moon**; so we will get here the specific phases wherein exclusively % **38** and % **19** percent of the Moon may thus be visible therein)

So in such a full cycle of a Lunar Month above, we shall see now all of these main and most specific "phases" of the "Moon" above, in perfect sync with its diameter (=**3476** km), here thus:

_____

New Moon	(=% **0** percent is visible); so the % **0** of Moon's diameter:	**0**
Waxing Crescent	(=% **19** percent is visible); so the % **19** of Moon's diameter:	**660.44**
Waxing Crescent	(=% **38** percent is visible); so the % **38** of Moon's diameter:	**1320.88**
First Quarter	(=% **50** percent is visible); so the % **50** of Moon's diameter:	**1738.00**
Waxing Gibbous	(=% **57** percent is visible); so the % **57** of Moon's diameter:	**1981.32**
Waxing Gibbous	(=% **76** percent is visible); so the % **76** of Moon's diameter:	**2641.76**
Full Moon	(=% **100** percent is visible); so the % **100** of Moon's diameter:	**3476.00**
Waning Gibbous	(=% **76** percent is visible); so the % **76** of Moon's diameter:	**2641.76**
Waning Gibbous	(=% **57** percent is visible); so the % **57** of Moon's diameter:	**1981.32**
Last Quarter	(=% **50** percent is visible); so the % **50** of Moon's diameter:	**1738.00**
Waning Crescent	(=% **38** percent is visible); so the % **38** of Moon's diameter:	**1320.88**
Waning Crescent	(=% **19** percent is visible); so the % **19** of Moon's diameter:	**660.44**

0   661   1321   1738   1982   2642   3476   2642   1982   1738   1321   660

= **19**ₓ…

*Please, note that we have rounded all the numbers above thus to the next digit, on both sides, with one specific exception: we have rounded this number **660.44** as "**661**" in the very first place, and as "**660**" in the very last place.

So let us also see now all of these main and most specific "phases" of the "Moon" above, in perfect sync this time with its circumference (=**10916** km), here thus:

_____

New Moon	(=% **0** percent is visible);	so the % **0** of Moon's circumference:	**0**
Waxing Crescent	(=% **19** percent is visible);	so the % **19** of Moon's circumference:	**2074.04**
Waxing Crescent	(=% **38** percent is visible);	so the % **38** of Moon's circumference:	**4148.08**
First Quarter	(=% **50** percent is visible);	so the % **50** of Moon's circumference:	**5458.00**
Waxing Gibbous	(=% **57** percent is visible);	so the % **57** of Moon's circumference:	**6222.12**
Waxing Gibbous	(=% **76** percent is visible);	so the % **76** of Moon's circumference:	**8296.76**
Full Moon	(=% **100** percent is visible);	so the % **100** of Moon's circumference:	**10916.00**
Waning Gibbous	(=% **76** percent is visible);	so the % **76** of Moon's circumference:	**8296.76**
Waning Gibbous	(=% **57** percent is visible);	so the % **57** of Moon's circumference:	**6222.12**
Last Quarter	(=% **50** percent is visible);	so the % **50** of Moon's circumference:	**5458.00**
Waning Crescent	(=% **38** percent is visible);	so the % **38** of Moon's circumference:	**4148.08**
Waning Crescent	(=% **19** percent is visible);	so the % **19** of Moon's circumference:	**2074.04**

0   2075   4148   5458   6222   8296   10916   8296   6222   5458   4148   2074

$$= \mathbf{19}_{X\ldots}$$

*Please, note that we have rounded all the numbers above thus (keeping them) at the same digit, on both sides, with one specific exception: we have rounded this number **2074.04** as "**2075**" in the very first place, and as "**2074**" in the very last place. (*Please, note that we have thus perfectly done an "exact opposite" of what we did on the first Table above, in this respect.)

Thereafter, in the first Table above, we can get a multiple of "**19**" (when/if we start to count from the "**right**" side therein) at the end of the **sixth** number (=i.e. **3476**), and then at the end of the **twelfth** number (=i.e. **0**) therein.
And here in this second Table above, we can get a multiple of "**19**" (when/if we start to count from the "**left**" side therein) at the end of the **sixth** number (=i.e. **8296**) and then at the end of the **twelfth** number (=i.e. **2074**) therein again!

And please, note that we have taken into account the diameter of the Moon (=**3476.2** km) as a round number (=**3476** km), and the circumference of the Moon (=**10916.8** km) as a round number again (=**10916**), thus in perfectly parallel manner, in the first place. (*The data is basically retrieved from this site: "universetoday.com" for/in both of these excellent Tables above.)

_____
image credit: amusingplanet.com (Bay of Fundy during a **High Tide** -above- and a **Low Tide -**below)

11- And when the (sea) water rose (=thus a specific reference also to the rising waters during such a High Tide on earth now), We carried you on the floating (ship).
12- That We may make it as a Reminder for you --so now thus also and especially, due to the left side of those "**19**" coded Tables here,-- and so that any listening ear may understand it --due to the right side of those "**19**" coded Tables here!-- (Quran Testament 69/11-12)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those rising waters and the floating ships therein now during such a High Tide above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth!
(Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

Most coastal areas on earth, with some exceptions, experience "two High Tides" (during which sea waters rise) and "two Low Tides" (during which sea waters recede) every Lunar day.
(please, see the pictures above.)

_____

The moon is a major influence on the Earth's (high and low) tides, but the sun also generates considerable tidal forces. A Lunar Day (=i.e. the time it takes for the Moon to come onto the exact same location on Earth on each day) is: **24** hours **50** minutes **28** seconds
As a decimal number it is: **1490.46666** minutes
(sources: oceanservice.noaa.gov/education/kits/tides/tides01_intro.html & aa.quae.nl/en/antwoorden/tigd.html)

So because that most coastal areas on Earth experience "two High Tides" and "two Low Tides" every Lunar day, the basic interval between each of these "four Tides" (in an ideal/equal distribution) would thus be: **1490.46666** / 4 = **372.616**66 minutes

<u>High Tide</u>   <u>High Tide</u>

<u>Low Tide</u>   <u>Low Tide</u>

372.61666   **372.616**66
minutes apart   minutes apart

So if we write them down in such a specific manner here:

372.61<u>7</u> 372.61<u>6</u>

= **19**_{x…}

*Please, note that we can also write it as within "High Tide -- Low Tide," and then "High Tide -- Low Tide" specific order, thereafter, that would be in such a perfect Symmetry herein again. (=74/26-30)

_____

A Lunar Month (=i.e. the time it takes for the New Moon to come onto the exact same location on Earth on each Month) is: **29** days **12** hours **44** minutes (*This is <u>mean Lunation number</u>; for it basically changes from Month to Month due to specific orbital parameters of Earth and Moon.)
As a decimal number it is: **708.73416** hours
(sources: oceanservice.noaa.gov/facts/springtide.html & science.howstuffworks.com)

So because that during each Lunar Month two sets of "Spring Tides" (=i.e. at Full Moon and at New Moon) and two sets of "Neap Tides" (=i.e. at First Quarter and at Last Quarter) occur, by this perfect Design of our Supreme LORD (=10/5) therein, the basic interval between each of these "four Tides" (in an ideal/equal distribution) would thus be: **708.73416** / 4 = **<u>177.183</u>**54 hours

<div align="center">

<u>Full Moon</u>   <u>New Moon</u>

<u>Half Moon</u>   <u>Half Moon</u>

<u>177.183</u>54   **<u>177.183</u>**54
hours apart   hours apart

</div>

So if we write them down in such a specific manner here:

177.18<u>3</u> 177.18<u>2</u>

= **19**x…

*Please, note that we can also write it as within "Full Moon -- Half Moon," and then "New Moon -- Half Moon" specific order, thereafter, that would be in such a perfect Symmetry herein again. (=74/26-30)

_____

\-\-\-\-\-\-\-\-\-\-

The Guinness Book of World Records (1975) declared that Burntcoat Head, Nova Scotia has the highest Tides in the world: The greatest Tides in the world occur in the Bay of Fundy.... Burntcoat Head in the Minas Basin, Nova Scotia, has the greatest mean Spring range with 14.5 metres (47.5 feet) and an Extreme range of 16.3 metres (53.5 feet).
(source: en.wikipedia.org/wiki/Bay_of_Fundy)

\-\-\-\-\-\-\-\-\-\-

So if we convert this **47.5 feet** above into (exact) meters here, it is: **<u>14.478</u>**0 meters
Therefore, it means:

<u>High Tide</u>	<u>High Tide</u>
<u>Low Tide</u>	<u>Low Tide</u>
<u>14.478</u>0	**<u>14.478</u>**0
meters range	meters range

So if we write them down in such a specific manner again here:

14.47<u>8</u> 14.47<u>8</u>

₌**19**_{x…}

And then, if we convert this **53.5 feet** above into (exact) meters here, it is: **<u>16.306</u>**8 meters
Therefore, it means:

<u>High Tide</u>	<u>High Tide</u>
<u>Low Tide</u>	<u>Low Tide</u>
<u>16.306</u>8	**<u>16.306</u>**8
meters range	meters range

_____

So if we write them down in such a specific manner --(*please, note that this is the
"exact similar/same manner" here again as that of which was presented on p. 73 before)--
here:

16.30<u>7</u> 16.30<u>6</u>

= **19**ₓ…

_____
image credit: ataxia.org.uk (**"23"** pairs of **Human Chromosomes**)

45- And HE is The One Who created the pair, <u>male</u> and <u>female</u>.
46- From a tiny drop (=i.e. egg cell) when it is inseminated (=by a sperm cell) –therein.
(Quran Testament 53/45-46)

53- So We will show them Our (mathematical) "**Signs**" in the horizons, and also within
themselves (=thus also within the specific creation of that pair, <u>male</u> and <u>female</u> above), until
(thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

So if we write down these "**23**" pairs of Chromosomes in Humans (male, or/and female) now,
in this specific manner, here thus:

_____

Male Chromosomes			Female Chromosomes	
1	1		1	1
2	2		2	2
3	3		3	3
4	4		4	4
5	5		5	5
6	6		6	6
7	7		7	7
8	8		8	8
9	9		9	9
10	10		10	10
11	11		11	11
12	12		12	12
13	13		13	13
14	14		14	14
15	15		15	15
16	16		16	16
17	17		17	17
18	18		18	18
19	19		19	19
20	20		20	20
21	21		21	21
22	22		22	22
23-x	23-y		23-x	23-x

_____   _____

$=\mathbf{19}_{x\ldots}$ $=\mathbf{19}_{x\ldots}$

And then, if we write down these "**23**" pairs of Chromosomes above in Humans (male, or/and female) --(instead of "**23**" pairs therein)-- now also as "**46**" individual Chromosomes therein, in this specific manner, here thus:

_____

Male Chromosomes			Female Chromosomes	

2	**1**		**2**	**1**
4	**3**		**4**	**3**
6	**5**		**6**	**5**
8	**7**		**8**	**7**
10	**9**		**10**	**9**
12	**11**		**12**	**11**
14	**13**		**14**	**13**
16	**15**		**16**	**15**
18	**17**		**18**	**17**
20	**19**		**20**	**19**
22	**21**		**22**	**21**

_____   _____

$=$ **19**x… $=$ **19**x…

24	**23**		**24**	**23**
26	**25**		**26**	**25**
28	**27**		**28**	**27**
30	**29**		**30**	**29**

34	**33**		**34**	**33**
36	**35**		**36**	**35**
38	**37**		**38**	**37**
40	**39**		**40**	**39**
42	**41**		**42**	**41**
44	**43**		**44**	**43**
46-x	**45-y**		**46-x**	**45-x**

_____   _____

$=$ **19**x… $=$ **19**x…

_____

* Please, note that in the first Table above, wherein there are "**23**" pairs of Chromosomes (i.e. = **23** x "1") in total, for both men and women therein, accordingly we thus see perfect "1" section (=i.e. "1" set of multiple of **19** therein), on the left & on the right side; and in the second Table above, wherein there are "**46**" individual Chromosomes (i.e. = **23** x "2") in total, for both men and women therein, accordingly we thus see "2" perfect sections (=i.e. "2" sets of multiple of **19** therein, on the left & on the right sides; thus precisely at **11**[th] and thereafter at **12**[th] row therein, in such a specific perfect order therein).
(*The first Table could also be divided into two sections (=i.e. at 14th and thereafter 9th row therein), but because there is no such perfect order therein, it would be totally meaningless to divide it into two such sections therein, in this respect.)

* And please, note that the only difference between the male and the female Chromosomes above is thus within the **23**th pair (=i.e. within **45**th and **46**th individual Chromosomes therein); i.e. if it is **X** and **Y** therein, then it is a Male, and if it is **X** and **X** therein, then it is a Female! So please, certainly note that our Supreme LORD thus most Wisely and unmistakably makes it perfectly clear to us within (the specific "**numbers**" of) these Verses above, in the first place:

==========

45- And HE is The One Who created the pair, male and female.

46- From a tiny drop (=i.e. egg cell) when it is "inseminated" (=tumnaa) (=by a sperm cell) -therein.

(i.e. if that sperm cell contains a **Y** Chromosome, then the baby is thus a Male therein:

if that sperm cell contains a **X** Chromosome, then the baby is thus a Female therein:

    45-x **46-y**   **45-x** **46-x**

(Quran Testament 53/**45-46**)

==========

_____

image credit: healthtap.com (**Heart Beats**)

37- Certainly, in this (there is) a Reminder for whoever has a "<u>heart</u>," or gives ear (to the "<u>heartbeats</u>" therein) and thus witness. (Quran Testament 50/37)

53- So We will show them Our (mathematical) "**Signs**" in the horizons, and also within their own bodies/selves (=thus also within the "<u>heart</u>" and the "<u>heartbeats</u>" therein above), until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So here is the **Scientific Formula** we shall thus exactly apply here to measure the maximum "heart beats" per minute for men at certain ages:
(=i.e. Gellish Formula: **207 – 0.70** X **age**)
and the maximum "heart beats" for women at certain ages:
(=i.e. Gulati Formula: **206 – 0.88** X **age**).
(source: ncbi.nlm.nih.gov/pubmed/20585008 & ncbi.nlm.nih.gov/pubmed/17468581)

So based on these most accurate **Scientific Formulas** above, exclusively and only within these certain ages here, the maximum "heart beats" for healthy men and healthy women could precisely give us a multiple of "**19**," here thus:

_____

for Men

age: **23**

max. heart beats: **190**.90

age: **51**

max. heart beats: **171**.30

age: **78**

max. heart beats: **152**.40

age: **105**

max. heart beats: **133**.50

age: **132**

max. heart beats: **114**.60

for Women

age: **18**

max. heart beats: **190**.16

age: **39**

max. heart beats: **171**.68

age: **61**

max. heart beats: **152**.32

age: **82**

max. heart beats: **133**.84

age: **104**

max. heart beats: **114**.48

So therefore, we can now again most AMAZINGLY and most WONDROUSLY thus see that:

_____

for Men for Women		for Men for Women
certain ages		**max. heart beats**
23 18		190 190
_____		_____
$= $**19**$_{X…}$		$= $**19**$_{X…}$
51 39		171 171
78 61		152 152
105 82		133 133
132 104		114 114
_____		_____
$= $**19**$_{X…}$		$= $**19**$_{X…}$

* Please, note that --(based on this most Wise and perfect Instruction of our Supreme LORD (=74/28) herein again, in the first place, please, see it again on p. 3)-- we thus rightfully "disregard/exclude" on the left side, and rightfully "disregard/eliminate" on the right side all of those fractions above herein again, in such a perfectly parallel manner, in the first place. (=Quran Testament 74/26-30)

_____

And please, note that we have started with <u>max. heart beats</u>: "**190**" (=**19**$_x$ ...) --per minute-- level above, because before that no man or a woman (even at the age of 1) cannot reach the <u>max. heart beats</u>: "**209**" (=**19**$_x$ ...) --per minute-- level, based on those **Scientific Formulas** we have applied above.

And please, note that we have stopped at <u>max. heart beats</u>: "**114**" (=**19**$_x$ ...) --per minute-- level above, because after that no man or a woman cannot reach the <u>max. heart beats</u>: "**95**" (=**19**$_x$ ...) --per minute-- level --(because to get to this level a man should be 159 years old, and a woman should be 126 years old, but the oldest man ever recorded has already passed away at the age of 116 and the oldest woman at the age of 122, source: en.wikipedia.org/wiki/Oldest_people)-- based on those **Scientific Formulas** we have applied above.

(*And please, also certainly see again "Universal Magnificent Miracles 1" document, p. 55-57 now, thus to clearly witness therein that superbly "Magnificent Miracle" within the (male and female) Human "<u>heart</u>," based on this most specific Verse therein again (=Quran Testament 50/37, in the first place.)

_____

i. credit: peregrine-foundation.ca (**Gerfalcon**)

i. credit: naturesbig4.com (**C. Eagle**)

i. credit: carolinabirds.org (**G. Lourie**)

i. credit: geography.wincoll.ac.uk (**Kingfisher**)

260- And Abraham said: My LORD, show me how you revive the dead. HE said: Do you not already believe? He said: I do, but it is so that my heart may thus be (extremely) assured. HE said: (Then) take "four" (kinds) of "birds," then train them to (recognize) you, then place a "piece" (=e.g. a "reproductive cell") of the birds on each height, then call them (to) you; they (=i.e. those "reproductive cells") will come to you (to get together with their mating/matching "reproductive cells" therein) in a hurry! And know that AL-LAH is --so now thus especially and also due to the left side of those "**19**" coded Tables here-- **Mighty**, --thus especially and also due to the right side of those "**19**" coded Tables here-- **Wise**! (Quran Testament 2/260)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those specific "four" kinds of "birds" and within their specfic reproductive "pieces" above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

_____

The highest number of chromosomes ever found --among all of the bird species-- up to date is within the range of **140**s (=i.e. Grey Louries: **142** max), and the lowest number of chromosomes ever found therein up to date is within the range of **40**s (=i.e. Stone Curlew: **40** minimum). So now we will refrain from these two extreme high and the extreme low ranges, and thus we will take from within the range of **50**s for the lower end, and within the range of **130**s from the upper end these specific "four" kinds of "birds" (two of them as females, and two of them as males; please, see Quran Testament 51/49 & 42/11 & 6/38 in this regard) in such a perfectly parallel manner, and precise order, here thus:

1) **Gerfalcon** (Falco Rusticolus) (**female**)
Diploid Chromosome Numbers: **52** (=i.e. **25** pairs of autosomal Chromosomes + **1** pair of sex Chromosomes: ZW)

2) **Crested Eagle** (Morphnus Guianensis) (**male**)
Diploid Chromosome Numbers: **54** (=i.e. **26** pairs of autosomal Chromosomes + **1** pair of sex Chromosomes: ZZ)

3) **Grey Lourie** (Corythaixoides Concolor) (**female**)
Diploid Chromosome Numbers: **136** (=i.e. **67** pairs of autosomal Chromosomes + **1** pair of sex Chromosomes: ZW)

4) **Kingfisher** (Coraciiformes) (**male**)
Diploid Chromosome Numbers: **138** (=i.e. **68** pairs of autosomal Chromosomes + **1** pair of sex Chromosomes: ZZ)

So now we will take a specific "piece" (="juzan;" i.e. an "egg cell" or a "sperm cell") from each of these "four" kinds of specific "birds" above (please, also see again Quran Testament 2/260 above, in this respect) with their precise Chromosome numbers therein, here thus:

_____

	Chromosome Numbers of an egg, or a sperm cell
Gerfalcon (**female**)	**25** autosomal Chromosomes **1** sex Chromosome: W
Crested Eagle (**male**)	**26** autosomal Chromosomes **1** sex Chromosome: Z
Grey Lourie (**female**)	**67** autosomal Chromosomes **1** sex Chromosome: W
Kingfisher (**male**)	**68** autosomal Chromosomes **1** sex Chromosome: Z

_____

190

And now we will call them (=aduhunna), and they will thus readily come, by the permission of our Supreme LORD here (=2/260), to get together with their mates, here thus:

	Chromosome Numbers of an egg, or a sperm cell	
	25 autosomal Chromosomes **1** sex Chromosome: Z	**Gerfalcon** (**male**)
	26 autosomal Chromosomes **1** sex Chromosome: Z	**Crested Eagle** (**female**)
	67 autosomal Chromosomes **1** sex Chromosome: Z	**Grey Lourie** (**male**)
	68 autosomal Chromosomes **1** sex Chromosome: Z	**Kingfisher** (**female**)

_____

190

_____

So now these specific "four" kinds of "birds" will have thus **come to life** here (please, certainly see Quran Testament **2/28** & **6/38** in this respect now), in this perfect order, here thus:

<div align="center">

Chromosome Numbers
of a normal cell

</div>

Gerfalcon (**female**)	**50** autosomal Chromosomes
	2 sex Chromosome: WZ
Crested Eagle (**male**)	**52** autosomal Chromosomes
	2 sex Chromosome: ZZ
Grey Lourie (**female**)	**134** autosomal Chromosomes
	2 sex Chromosome: WZ
Kingfisher (**male**)	**136** autosomal Chromosomes
	2 sex Chromosome: ZZ

<div align="center">

_____

380 $= 19_{x\ldots}$

</div>

And we should also certainly know here that in the Hereafter our Supreme LORD will thus give life to every of HIS creatures herein in their (even to the fingertips) exactly the same form again therein (please, see Quran Tetament 75/3-4 & 6/38 in this respect now) thus within their exactly the same (whole and perfect) genetic make up (even to each and every letter of their DNA within all of their Chromosomes) therein, thus creating all of them again in a totally new Creation technique we do not know here yet. (=56/60-62)

(*The data is basically retrieved from these sites: "ararajuba.org.br/sbo/ararajuba/artigos/Volume111/ara111art6.pdf" & "plosone.org/article/info:doi/10.1371/journal.pone.0070071") for/in these excellent Tables above.)

_____

image credit: health.howstuffworks.com (**Resurrection**)

259- … So AL-LAH put that person to death for "<u>one hundred years</u>" (therein) then HE resurrected him. HE said: How long have you stayed here? He said: I have stayed here "<u>a day, or part of a day</u>!" HE said: No, you have stayed here for "<u>one hundred years</u>!" Look at your food and drink, they have not changed, and look at your donkey. And We will make you --thus also and especially "**19**" coded-- (such a mathematical) "**Sign**" (here again: 74/30) for the people! … (Quran Testament 2/259)

53- So We will show them Our (mathematical) "**Signs**" in the horizons, and also within themselves (=thus also within that specific "<u>resurrection</u>" Miracle on that particular person above, exactly "<u>one hundred years</u>" after his death therein), until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us assume that this particular person above was thus put to death by our Supreme LORD specifically from the year **2000** to **1901** BC (=i.e. thus also basically contains all of such **19**99, **19**98, … up to … **19**02, **19**01 most specific years therein, in this regard). So within such a specific "Century" therein, in this respect, there would thus be:

100 x "365" = **36500** days
and plus
1 x "25" = **25** days (from those "25" leap Years that could last 365 + "1" days within that specific Century therein.)

_____

So if we place those specific total **leap Days** (=**25**) and the total **main Days** (=**36500**) within this specific "Century" above, in this specific manner here, we clearly see that this particular person above thus stayed therein, in total:

Days	Days		Nights	Nights
25	**36500**		**25**	**36500**

$$=\mathbf{19}_{x\ldots} \qquad\qquad\qquad =\mathbf{19}_{x\ldots}$$

by this most Wise and perfect Commandment of our Supreme LORD herein again (=74/30), in the first place!

*Please, note that because that this particular person above thus specifically describes his total stay therein as: ".. a day, or part of a day" above (=2/259; in original Arabic Text, --because that it is always written from the right to the left therein,-- so "a part of a day" thus appears on the left side, and then "a day" appears on the right side therein. Hence we can legitimately write the **leap Days** (=i.e. as the equivalent of that "a part of a Day/Age" therein now) on the left side, first, and then the **main Days** (=i.e. as the equivalent of that "a Day/Age" therein now) on the right side, thereafter, above; by this most Wise and perfect Design of our Supreme LORD here!

_____

image credit: all-free-download.com (**Spike Cereals Grain**)

261- The example of those who spend their possessions in the cause of AL-LAH is that of a grain that produces "seven" spikes, with a "hundred" grains in each spike! And AL-LAH "doubles" (it) for whomever HE wills! For AL-LAH is --so now thus especially and also due to the left side of those "**19**" coded Tables here-- **Bounteous**, --thus especially and also due to the right side of those "**19**" coded Tables here-- **Knower**! (Quran Testament 2/261)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "seven" spikes, with a "hundred" grains in each spike therein above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth!
(Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us clearly see these specific "7" spikes, with a "100" grains in each of those spikes now, in this specific manner, here thus:

_____

For/on the left side:

grains **grains** **grains** **grains** **grains** **grains** **grains** **spikes**

<u>100</u> **<u>100</u>** **<u>100</u>** **<u>100</u>** **<u>100</u>** **<u>100</u>** **<u>100</u>** **<u>7</u>**

= **19**x…

For/on the right side:

grains **grains** **grains** **grains** **grains** **grains** **grains** **spikes**

<u>100</u> **<u>100</u>** **<u>100</u>** **<u>100</u>** **<u>100</u>** **<u>100</u>** **<u>100</u>** **<u>7</u>**

= **19**x…

And please, note that here again in original Arabic Text above (=2/261) --because that it is always written from the right to the left therein,-- so a "**<u>hundred grains</u>**" in each of those spikes thus appear on the left side, and then "**<u>seven spikes</u>**" appears on the right side therein. Hence we can legitimately place each of those **<u>100 grains</u>** on the left side, first, and then the **<u>7 spikes</u>** on the right side, thereafter, above; by this most Wise and perfect Design of our Supreme LORD here! But please, also certainly note that all of the "mathematical computations" thereafter essentially shall always be implemented specifically "<u>from the left to the Right side</u>," in each and everytime, by this most Wise and perfect Instruction of our Supreme LORD here again, in this regard (=Quran Testament 57/12 = 66/8), in the first place!

_____

image credit: ww2.valdosta.edu (**Sunrise**)

41- Zachariah said: My LORD, give me a sign. HE said: Your "**Sign**" is that you will not speak to the people for "three days," except through signals. Commemorate your LORD frequently; and glorify (HIM) night and day. (Quran Testament 3/41)

10- Zachariah said: My LORD, give me a sign. HE said: Your "**Sign**" is that you will not speak to the people for "three nights" consecutively.
11- So he came out to his people, from the sanctuary, and signaled to them:
Glorify (HIM) day and night. (Quran Testament 19/10-11)

53- So We will show them Our (mathematical) "**Signs**" in the horizons, and also within themselves (=thus also within those specific "three days" and "three nights" fasting of Zachariah above), until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So if we write these consecutive "three days" and "three nights" above --(specifically beginning with the "night" here, first of all, as it has most Wisely and perfectly thus been indicated by our Supreme LORD at the end of this first Verse; 3/41 above), in this specific manner here, we can AMAZINGLY see that:

_____

First Day				**Second Day**				**Third Day**			
1	12	**1**	12	**1**	12	**1**	12	**1**	12	**1**	12
Night	hours	Day	hours	Night	hours	Day	hours	Night	hours	Day	hours

= **19**ₓ…

= $\textbf{19}_{x...}$

And now, if we write these consecutive "three days" and "three nights" here --(specifically beginning with the "day" now, as it has most Wisely and perfectly thus been indicated by our Supreme LORD at the end of this second Verse; 19/11 above), in this specific manner, we can again AMAZINGLY see that:

First Day				**Second Day**				**Third Day**			
12	**1**	12	**1**	12	**1**	12	**1**	12	**1**	12	**1**
hours	Day	hours	Night	hours	Day	hours	Night	hours	Day	hours	Night

= $\textbf{19}_{x...}$

*Please, note that our Supreme LORD must have thus most Wisely and perfectly let Zachariah decide to start his specific consecutive "three days" and "three nights" fasting, either with the "night" first, or the "day" first, therein (=3/41 & 19/11) also and specifically in order to thus unmistakably show us here (=74/26-30) this most AMAZING and most WONDROUS "**19**" coded "**Symmetrical Miracles**" above! (=41/53)

*And please, note that we have essentially and consistently placed "12" hours for a day, and "12" hours for a night above, because it has specifically thus been pointed out by prophet Jesus --(in the time of prophet Zachariah and his son prophet John above)-- in Gospel (please, see John 11/9) by this most Wise and perfect Instruction of AL-LAH unto him therein. (So please, also certainly see in this regard now: Quran Testament 5/46-47)
image credit: earthsky.org (**Pure Colors**)

22- Among HIS "**Signs**" are the creation of the heavens and the earth, and the variety of your languages and (all of) your "<u>colors</u>" (therein). In these, there are (mathematical) "**Signs**" for the knowledgeable! (Quran Testament 30/22)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within all of those "<u>colors</u>" above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

The main colors containing only one wavelength, in Visible Spectrum, are called "**pure colors**."
These "**pure colors**" --from the shortest to the longest wavelength-- are:
=**violet**, (has a wavelength of about **400** nm)
=**blue**, (has a wavelength of about **475** nm)
=**green**, (has a wavelength of about **510** nm)
=**yellow**, (has a wavelength of about **570** nm)
=**orange**, (has a wavelength of about **590** nm)
=**red**, (has a wavelength of about **650** nm)
(source: "science-edu.larc.nasa.gov/EDDOCS/Wavelengths_for_Colors.html")

_____

So let us clearly see here all of those "**pure colors**" above, in this specific order now, here thus:

	Wavelength (nm)	Wavelength (nm)	
Violet	**399**	**510**	**Green**
Blue	**475**	**589**	**Orange**
Yellow	**570**	**649**	**Red**

<p style="text-align:center">_____   _____</p>

<p style="text-align:center">=**19**_{x...} =**19**_{x...}</p>

*Please, note that there is no perfect scientific consensus about the exact starting point of each of these specific wavelengths of these "**pure colors**" above, because there is no definitive boundry (that could be discovered up to date) between each of these "**main colors**" in Visible Spectrum. But based on such a credible source above (=i.e. NASA) and their basic and fundamental observation herein, the fact that we can thus witness this "**19**" coded, magnificent "**Symmetrical Miracle**" above is absolutely remarkable.

*Please, note that on our magnificent Table above "on the left side & on the right side" (from top to bottom) all the numbers are thus placed from smaller to bigger, on both sides, and then all the numbers on the right side are bigger than their counterparts on the left side. And within those specific three rows above, only one of those specific colors in each of them therein has thus been given a value that is exactly "minus one" than the original data above (=i.e.
within the first row: **Violet**, instead of **400** nm = **399** nm
within the second row: **Orange**, instead of **590** nm = **589** nm
and within the third row: **Red**, instead of **650** nm = **649** nm)
in such a complete and perfect order above.

_____

image credit: ww1.prweb.com (**An Awe-Inspiring Night**)

1- Indeed, We have sent it down in the Night of Measure.

2- And do you know what is the Night of Measure?

3- The Night of Measure is better than "<u>one thousand months</u>."

4- The Angels and the Spirit (=i.e. Gabriel) come down in it, by their LORD's leave, with every Command --(of AL-LAH).

5- It is peaceful until the coming of Dawn. (Quran Testament 97/1-5)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within that <u>Night of Measure</u> which is better than that "<u>one thousand months</u>" above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth!
(Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So first of all, we should clearly see that this specific "<u>1000 months</u>" above would be equal to **1000** / 12 = **83.3333** <u>years</u>. So let's take this specific year (=i.e. **2014** now; also and especially because that this is thus the most fundamental first year --which gives us a multiple of **19**_{x…} in this most critical and important **Last Day/Millennium**) now, as our first year, in this regard. So "<u>1000 months</u>" from now --starting to count from the very first month of this year: **2014**-- would go into --(the very first days of the month of May)-- in the year: **2097**.

_____

So because that in such a specific "**83.333** years" there would thus be:

83.3333 X 365 = **30416.545** days

plus

21 days

(=i.e. from all of those "21" leap Years, wherein a year is: 366 days, which will thus come within this specific period ahead)

So in total, there would thus be:

30416.545 days + **21** days = **30437.545** days within this specific "1000 months" ahead.

And because that our Supreme LORD has thus most Wisely and perfectly indicated beforehand that such a "Night of Measure" would definitely be even better than this specific "1000 months" above (=97/3), so we can thus easily and legitimately round this number = **30437.545** now to: **30438** days in total!

So such a most incredible "Night of Measure" (=97/3) would thus be (minimally) equal to

30438 days   **30438** nights

$$=\mathbf{\color{red}19}_{\color{red}\text{X}\ldots}$$ $$=\mathbf{\color{red}19}_{\color{red}\text{X}\ldots}$$

*So please, also certainly see now "A Majestic Miracle" document, p. **8**, and then also "A Phenomenal Miracle 1" document, p. **16** now, in the first place, thus to clearly witness therein the coming down of Spirit (=i.e. Gabriel) and the Angels with him, by their LORD's leave, with every Command therein (=97/3-5) thus also within such a wonderful Mathematical Design now, and then by sincerely working on and thus personally verifying these "**19**" coded, most Superb and matchless "**Symmetrical Miracles**" here (=74/26-31), we may thus attain the great Rewards of this most incredible "Night of Measure" here (=97/3-5), inshaAL-LAH, by this immense Grace and Mercy of our Supreme LORD here, in the first place! (=97/1-5)

_____

image credit: aglobalworld.com (**Gregorian Calendar**)

1- For the unity of "Quraysh" (=thus a specific reference here to this "Messenger/MESSAGE of the Covenant," i.e. the long awaited and anticipated Mahdee descendant of prophet Muhammad (p.b.u.h.) from the tribe of "Quraysh," and all those believers with him herein now; 62/2-4)
2- Their (thus) being united together (by AL-LAH) in the journey --so now thus also and especially on the left side of those "**19**" coded Tables here-- of the "winter/autumn" (=al-shetaa), and --on the right side of those "**19**" coded Tables here-- the "summer/spring" (=al-sayf)!
3- So let them serve the LORD of this "Town" (=so please, also certainly see again p. **52-54** in this regard now.)
4- The ONE who (thus) fed them from hunger, and protected them from fear.
(Quran Testament 106/1-4)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "winter/autumn" and "summer/spring" seasons above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

So let us clearly see all of the Months of a full Year now, first of all, here thus:

_____

January	(lasts **31** days)		**January**	(lasts **31** days)
February	(lasts **2<u>8</u>** days)		**February**	(lasts **2<u>9</u>** days)
March	(lasts **31** days)		**March**	(lasts **31** days)
April	(lasts **30** days)		**April**	(lasts **30** days)
May	(lasts **31** days)		**May**	(lasts **31** days)

<div align="right">

=**19**x…

</div>

June	(lasts **30** days)		**June**	(lasts **30** days)
July	(lasts **31** days)		**July**	(lasts **31** days)
August	(lasts **31** days)		**August**	(lasts **31** days)
September	(lasts **30** days)		**September**	(lasts **30** days)
October	(lasts **31** days)		**October**	(lasts **31** days)

=**19**x…

November	(lasts **30** days)		**November**	(lasts **30** days)
December	(lasts **31** days)		**December**	(lasts **31** days)

*Please, note that in a regular Year (=i.e. wherein February lasts **2<u>8</u>** days) on the left side above, only at the end of **10**th month (=i.e. October) we thus get a multiple (=i.e. **304** days in total: **19**x…) therein, and in a leap Year (=i.e. wherein February lasts **2<u>9</u>** days) on the right side above, only at the end of **5**th month (=i.e. May) we thus get a multiple (=i.e. **152** days in total: **19**x…), therein. Please, thus also certainly note here that: **10** / **5** = **"2"** and **304** / **152** = **"2"**

So let us clearly see all of the months of a "<u>winter/autumn</u>" season and then a "<u>summer/spring</u>" season, in such a regular Year (=i.e. wherein February lasts **2<u>8</u>** days), and then also in such a leap Year (=i.e. wherein February lasts **2<u>9</u>** days) now, here thus:

_____

* Months of "**winter/autumn**" in a regular Year:

Month: **1**	Month: **2**	Month: **3**	Month: **10**	Month: **11**	Month: **12**
January	February	March	October	November	December
31 days	**28** days	**31** days	**31** days	**30** days	**31** days

= **19**ₓ…

$$= \mathbf{19}_{X\ldots}$$

* Months of "**summer/spring**" in a regular Year:

Month: **7**	Month: **8**	Month: **9**	Month: **4**	Month: **5**	Month: **6**
July	August	September	April	May	June
31 days	**31** days	**30** days	**30** days	**31** days	**30** days

$$= \mathbf{19}_{X\ldots}$$

*Please, note that because that Spring Equinox takes place around on March 20 in Northern Hemisphere --(*and this sacred "Town" is thus in Northern Hemisphere; 27/91 so please, see it again on p. 52-54)-- we can thus legitimately place the month of "March" either within "winter/autumn," or within "summer/spring" months here. So we have thus legitimately placed it within "winter/autumn" months above in such a regular Year (=i.e. wherein February lasts **28** days), and we will thus legitimately place it within "summer/spring" months in such a leap Year (=i.e. wherein February lasts **29** days) on the next page. And again because that Autumn Equinox basically takes place around on September 22 in Northern Hemisphere, we can thus legitimately place the month of "September" either within "winter/autumn" or within "summer/spring" months here. So we have thus legitimately placed it within "summer/spring" months above in such a regular Year (=i.e. wherein February lasts **28** days), and we will thus legitimately place it within "winter/autumn" months in such a leap Year (=i.e. wherein February lasts **29** days) on the next page.

_____

* Months of "**winter/autumn**" in a leap Year:

Month: **1**	Month: **10**	Month: **12**	Month: **2**	Month: **9**	Month: **11**
January	October	December	February	September	November
31 days	**31** days	**31** days	**29** days	**30** days	**30** days

= **19**ₓ…

$$= \mathbf{19}_{x\ldots}$$

* Months of "**summer/spring**" in a leap Year:

Month: **5**	Month: **4**	Month: **8**	Month: **7**	Month: **3**	Month: **6**
May	April	August	July	March	June
31 days	**30** days	**31** days	**31** days	**31** days	**30** days

$$= \mathbf{19}_{x\ldots}$$

*Please, note that our Supreme LORD has thus recommended primarily the "Sun based Calendar" now, by HIS most WONDROUS and most AMAZING Miracles above, unto this "Messenger/MESSAGE of the Covenant" and all those believers with him herein (please, also certainly see it again on p. 33) now! And HE has thus also basically approved "Moon based Calendars" and thus recommended it specifically unto Jews and Arabs. (We will see it in the next pages, inshaAL-LAH.) (So please, also certainly see again Quran Testament 5/48, 68 now, in this regard.)
_____

55- The (orbital or/and rotational motion of) the Sun and the Moon are (created) based on --"**19**" coded-- "Calculation." (Quran Testament 55/5) = (74/30)

12- And We made the night and the day as two Signs; then We dimmed the "Sign" of the night (=i.e. "Moon") and We made the "Sign" of the day (=i.e. "Sun") manifest, that you may seek bounty from your LORD, and that you may know (primarily by that "Sun" and then also the "Moon" therein again) the number of the years and the --"**19**" coded-- Calculation! And (thus) everything We have explained in detail. (Quran Testament 17/12)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within that manifest Sign: "Sun" and then that subsequent Sign: "Moon" and so within that related specific "Calculation" therein above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us clearly see here all of the specific Years that will, inshaAL-LAH, thus come within this most critical and important "**Third Day/Millennium**" (=i.e. from the beginning of the year: **2001** to the end of the year: **3000**), wherein the total number of Months (from the beginning of the year: **1** to the end of that related specific Year) would give us a multiple of **19** then, both based on a Solar (Sun based) and a Lunar (Moon based) Calculation, here thus:

_____

1) From the very beginning of the year: "**1**" to the end of the year: "**2014**" there will thus be:

"2014" x 12 = **24168** (=**19**x…) Solar Months

And because that "one solar month" on average consists of **30.437** days, so there will be:

24168 x "30.437" = **735601.416** days in total within these **24168** Solar Months.

And because that on average "one lunar month" consists of **29.531** days, so there will thus be:

735601.416 / "29.531" = **24909.465** Lunar Months therein. So if we make it a round number

(keeping it at the same digit) there will thus be: **24909** (=**19**x…) Lunar Months therein.

2) From the very beginning of the year: "**1**" to the end of the year: "**2166**" there will thus be:

"2166" x 12 = **25992** (=**19**x…) Solar Months

And because that "one solar month" on average consists of **30.437** days, so there will be:

25992 x "30.437" = **791118.504** days in total within these **25992** Solar Months.

And because that on average "one lunar month" consists of **29.531** days, so there will thus be:

791118.504 / "29.531" = **26789.425** Lunar Months therein. So if we make it a round number

(increasing it to the next digit) there will thus be: **26790** (=**19**x…) Lunar Months therein.

3) From the very beginning of the year: "**1**" to the end of the year: "**2375**" there will thus be:

"2375" x 12 = **28500** (=**19**x…) Solar Months

And because that "one solar month" on average consists of **30.437** days, so there will be:

28500 x "30.437" = **867454.500** days in total within these **28500** Solar Months.

And because that on average "one lunar month" consists of **29.531** days, so there will thus be:

867454.500 / "29.531" = **29374.369** Lunar Months therein. So if we make it a round number

(keeping it at the same digit) there will thus be: **29374** (=**19**x…) Lunar Months therein.

4) From the very beginning of the year: "**1**" to the end of the year: "**2527**" there will thus be:

"2527" x 12 = **30324** (=**19**x…) Solar Months

And because that "one solar month" on average consists of **30.437** days, so there will be:

30324 x "30.437" = **922971.588** days in total within these **30324** Solar Months.

And because that on average "one lunar month" consists of **29.531** days, so there will thus be:

922971.588 / "29.531" = **31254.329** Lunar Months therein. So if we make it a round number

(increasing it to the next digit) there will thus be: **31255** (=**19**x…) Lunar Months therein.

_____

5) From the very beginning of the year: "**1**" to the end of the year: "**2736**" there will thus be:

"2736" x 12 = **32832** (=**19**x…) Solar Months

And because that "one solar month" on average consists of **30.437** days, so there will be:

32832 x "30.437" = **999307.584** days in total within these **32832** Solar Months.

And because that on average "one lunar month" consists of **29.531** days, so there will thus be:

999307.584 / "29.531" = **33839.273** Lunar Months therein. So if we make it a round number

(keeping it at the same digit) there will thus be: **33839** (=**19**x…) Lunar Months therein.

6) From the very beginning of the year: "**1**" to the end of the year: "**2888**" there will thus be:

"2888" x 12 = **34656** (=**19**x…) Solar Months

And because that "one solar month" on average consists of **30.437** days, so there will be:

34656 x "30.437" = **1054824.672** days in total within these **34656** Solar Months.

And because that on average "one lunar month" consists of **29.531** days, so there will thus be:

1054824.672 / "29.531" = **35719.233** Lunar Months therein. So if we make it a round number

(increasing it to the next digit) there will thus be: **35720** (=**19**x…) Lunar Months therein.

So thus within this most critical and important **3rd** **Day/Millennium** (=i.e. from the beginning

of the year: **2001** to the end of the year: **3000**), there will be thus exactly **"3"** **pairs** of

specific Years, wherein the total number of Months (from the beginning of the year: **1** to the end

of that specific Year) will thus give us a multiple of **19** then, both based on a Solar (Sun based)

and a Lunar (Moon based) Calculation, by this most Wise and perfect Creation of our

Supreme LORD (=55/5), here thus:

_____

From "**1**" to the end of "**2014**"

Total number of Solar Months:

24168 = $\textcolor{red}{\mathbf{19}}$x…

Total number of Lunar Months:
(round number; as kept at the same digit)

24909 = $\textcolor{red}{\mathbf{19}}$x…

From "**1**" to the end of "**2166**"

Total number of Solar Months:

25992 = $\textcolor{red}{\mathbf{19}}$x…

Total number of Lunar Months:
(round number; as increased to the next digit)

26790 = $\textcolor{red}{\mathbf{19}}$x…

From "**1**" to the end of "**2375**"

Total number of Solar Months:

28500 = $\textcolor{red}{\mathbf{19}}$x…

Total number of Lunar Months:
(round number; as kept at the same digit)

29374 = $\textcolor{red}{\mathbf{19}}$x…

From "**1**" to the end of "**2527**"

Total number of Solar Months:

30324 = $\textcolor{red}{\mathbf{19}}$x…

Total number of Lunar Months:
(round number; as increased to the next digit)

31255 = $\textcolor{red}{\mathbf{19}}$x…

From "**1**" to the end of "**2736**"

Total number of Solar Months:

32832 = $\textcolor{red}{\mathbf{19}}$x…

Total number of Lunar Months:
(round number; as kept at the same digit)

33839 = $\textcolor{red}{\mathbf{19}}$x…

From "**1**" to the end of "**2888**"

Total number of Solar Months:

34656 = $\textcolor{red}{\mathbf{19}}$x…

Total number of Lunar Months:
(round number; as increased to the next digit)

35720 = $\textcolor{red}{\mathbf{19}}$x…

_____
image credit: solarsystem.nasa.gov (**the Sun**)   (**the Moon**)

55- The (orbital or/and rotational motion of) the Sun and the Moon are (created) based on
--"**19**" coded-- "Calculation." (Quran Testament 55/5) = (74/30)

5- HE is The One Who rendered the Sun radiant, and the Moon a light, and HE measured phases
for it, that you may learn the count of the years, and the --"**19**" coded-- "Calculation!"
AL-LAH did not create all this, except for/with Truth.
HE (thus) explains the (mathematical) "**Signs**" for people who know! (Quran Testament 10/5)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within that
Sun and the Moon, and that related specific "Calculation" therein above), and also within
themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament
41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us clearly see the total number of days within "**19**" **solar years**, and **months**, and **weeks**,
and then also within "**19**" **lunar years**, and **months**, and **weeks** thereafter, here thus:

_____

Because that one "solar (tropical) year" basically consists of **365.24** days, so there are thus: 365.24 x "19" = **6939**.56 days in total within **"19"** solar (tropical) years.

Because that one "solar (tropical) month" basically consists of **30.44** days, so there are thus: 30.44 x "19" = **578**.36 days in total within **"19"** solar (tropical) months.

So if we take these numbers above as round numbers (getting the first number above rounded as kept at the same digit, and the second number above rounded as increased to the next digit), we thus get here:

6939 579 = **19**x…

Because that one "lunar (synodic) year" basically consists of **354.37** days, so there are thus: 354.37 x "19" = **6733**.03 days in total within **"19"** lunar (synodic) years.

Because that one "lunar (synodic) month" basically consists of **29.53** days, so there are thus: 29.53 x "19" = **561**.07 days in total within **"19"** lunar (synodic) months.

So if we take these numbers above as round numbers (getting the first number above rounded as kept at the same digit, and the second number above rounded as increased to the next digit), we again thus get here:

6733 562 = **19**x…

_____

Because that one "solar (tropical) week" (=i.e. we mean exact 1/4th of a Month here as a Week) basically thus (**30.44** / **4**) consists of **7.61** days, so there are thus:

7.61 x "19" = **144**.59 days in total within **"19"** such solar (tropical) weeks.

Because that one "solar (tropical) month" basically thus (**365.24** / **12**) consists of **30.44** days, so there are thus:

30.44 x "19" = **578**.36 days in total within **"19"** such solar (tropical) months.

So if we take these numbers above as round numbers (getting the first number above rounded as increased to the next digit, and the second number above rounded as kept at the same digit), we thus get here:

145 **578** = **19**$_{x…}$

Because that one "lunar (synodic) week" (=i.e. we mean exact 1/4th of a Month here as a Week) basically thus (**29.53** / **4**) consists of **7.38** days, so there are thus:

7.38 x "19" = **140**.22 days in total within **"19"** such lunar (synodic) weeks.

Because that one "lunar (synodic) month" basically thus (**354.37** / **12**) consists of **29.53** days, so there are thus:

29.53 x "19" = **561**.07 days in total within **"19"** such lunar (synodic) months.

So if we take these numbers above as round numbers (getting the first number above rounded as kept at the same digit, and the second number above rounded as increased to the next digit), we again thus get here:

140 **562** = **19**$_{x…}$

_____

Because that one "solar (tropical) month" basically thus (**365.24** / **12**) consists of **30.44** days, so there are thus:

30.44 x "19" = **578**.36 days in total within **"19"** such solar (tropical) months.

Because that one "solar (tropical) week" (=i.e. we mean exact 1/4th of a Month here as a Week) basically thus (**30.44** / **4**) consists of **7.61** days, so there are thus:

7.61 x "19" = **144**.59 days in total within **"19"** such solar (tropical) weeks.

Because that one "solar (tropical) year" basically consists of **365.24** days, so there are thus:

365.24 x "19" = **6939**.56 days in total within **"19"** such solar (tropical) years.

So if we take these numbers above as round numbers (getting each of them rounded as kept at the same digits), we thus get here:

578 **144** **6939** = **19**x…

Because that one "lunar (synodic) year" basically consists of **354.37** days, so there are thus:

354.37 x "19" = **6733**.03 days in total within **"19"** such lunar (synodic) years.

Because that one "lunar (synodic) week" (=i.e. we mean exact 1/4th of a Month here as a Week) basically thus (**29.53** / **4**) consists of **7.38** days, so there are thus:

7.38 x "19" = **140**.22 days in total within **"19"** such lunar (synodic) weeks.

Because that one "lunar (synodic) month" basically thus (**354.37** / **12**) consists of **29.53** days, so there are thus:

29.53 x "19" = **561**.07 days in total within **"19"** such lunar (synodic) months.

So if we take these numbers above as round numbers (getting each of them rounded as kept at the same digits), we again thus get here:

6733 **140** **561** = **19**x…

_____

credit: nasa.gov --by brian karczewski (**Solar Eclipse**)   credit: nasa.gov --by romeo durscher (**Lunar Eclipse**)

55- The (orbital or/and rotational motion of) the Sun and the Moon are (created) based on --"**19**" coded-- "Calculation." (Quran Testament 55/5) = (74/30)

8- And (when) the Moon --(e.g. also during such a total Solar Eclipse above)-- is totally darkened.
9- And the Sun and the Moon are (thus) brought together --(in the Sky also at that time)! (Quran Testament 75/8-9)

12- And We made the night and the day as two Signs; then We --(e.g. also during such a total Lunar Eclipse above)-- dimmed the "Sign" of the night (=i.e. "Moon") (also therein), and We made the "Sign" of the day (=i.e. "Sun") manifest (all year long, or/and also therein again), that you may seek bounty from your LORD, and that you may know the number of the years and the --"**19**" coded-- "Calculation!" And (thus) everything We have explained in detail. (Quran Testament 17/12)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those specific Solar or/and Lunar Eclipses above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

The **saros** is a period of 223 synodic months (approximately 6585.3213 days, or 18 years and 11⅓ days), that can be used to predict eclipses of the Sun and the Moon. One **saros** after an eclipse, the Sun, the Earth, and the Moon return to approximately the same relative geometry, and a nearly identical eclipse will occur, in what is referred to as an Eclipse Cycle.

_____

A **sar** is one half of a **saros**. Thus after a total Solar Eclipse, one **sar** later a total Lunar Eclipse will occur.
Thus a **saros** occurs every **223** synodic months.
And a **sar** occurs every **111.5** synodic months
(source: en.wikipedia.org/wiki/Saros_(astronomy)

So if we take a "synodic month" in its perfectly accurate/precise form (=i.e. with its 6 digits after decimal point here: 29.530589), we thus see that:

A **saros** thus occurs --by the most Wise and perfect Design of our Supreme LORD here (=55/5)-- every

223 x 29.530589 = **6585.32134**70 days

= **19**ₓ…

A **sar** thus occurs --by the most Wise and perfect Design of our Supreme LORD here (=55/5)-- every

111.5 x 29.530589 = **3292.66067**35 days

= **19**ₓ…

thus in such a perfectly parallel/equal precision above, here again (=74/26-30 & 51/49 & 54/49), in the first place.

_____

Or if we take a "synodic month" in its essentially accurate/precise form (=i.e. with its 3 digits after decimal point here; 29.531), we thus see that:

A **saros** thus occurs --by the most Wise and perfect Design of our Supreme LORD here (=55/5)-- every

223 x 29.531 = **6585.4**13 days

= **19**ₓ…

A **sar** thus occurs --by the most Wise and perfect Design of our Supreme LORD here (=55/5)-- every

111.5 x 29.531 = **3292.7**07 days

= **19**ₓ…

thus in such a perfectly parallel/equal precision above, here again (=74/26-30 & 51/49 & 54/49), in the first place.

_____

So thus within a "**Saros**"

| a nearly identical | a nearly identical | | a nearly identical | a nearly identical |
| **Solar Eclipse** | **Solar Eclipse** | | **Lunar Eclipse** | **Lunar Eclipse** |

basically   basically

6585.4   **6585.4**

days apart   days apart

$$= 19_{x\ldots} \qquad\qquad = 19_{x\ldots}$$

thus regularly occurs by the most Wise and perfect Design of our Supreme LORD here again
(=55/5 & 17/12), in the first place.

So thus within a "**Sar**"

| a -similar- total | a -similar- total | | a -similar- total | a -similar- total |
| **Solar Eclipse** | **Lunar Eclipse** | | **Solar Eclipse** | **Lunar Eclipse** |

basically   basically

3292.7   **3292.7**

days apart   days apart

$$= 19_{x\ldots} \qquad\qquad = 19_{x\ldots}$$

thus regularly occurs by the most Wise and perfect Design of our Supreme LORD here again
(=55/5 & 17/12), in the first place.

ADAR 2.

image credit: en.wikipedia.org (**Hebrew Calendar**)

44- We have sent down the Torah, in it is ("**19**" coded) "**Guidance**" --by unmistakably and clearly pointing out to the left side here,-- and ("**19**" coded) "**Light**" --by unmistakably and clearly pointing out to the right side here now (=74/30-31 & 6/20 & 46/10)! The Prophets who have surrendered (to AL-LAH) judged with it for those who are Jews, as well as the Rabbis, and the Priests, for that they were entrusted of AL-LAH's Scripture (therein), and (for that) they were witness to it.
(AL-LAH said): So do not fear the people but fear ME (now); and do not trade away MY --"**19**" coded-- "**Signs**" (here) for a cheap price! And whoever does not judge with what AL-LAH has sent down (here now), then these are the rejecters! (Quran Testament 5/44)

68- Say: O people of the Scripture (=i.e. Jews, and Christians, and Arabs) you are not upon anything until you uphold the Torah, and the Gospel, and what was sent down to you (=i.e. the Quran) from your LORD. And for many of them, what is sent down to you from your LORD (here) may only increase them in "**transgression**" --against the left side of those "**19**" coded Tables here now,-- and "**rejection**" --against the right side of those "**19**" coded Tables here now!-- So do not feel sorry for (such) rejecting people. (Quran Testament 5/68)

_____

The basic Hebrew calendar --(essentially based on the "phases of the Moon," and is designed according to specific "Signs" and "Predictions" from within Torah therein)-- is **354** days in total. In "leap years" an additional month (=i.e. Adar I = 30 days) is added after the month of Shevat. So in such "leap years" the Hebrew calendar is thus (**354** + 30 =) **384** days in total.
A "regular year" may last **353**, or **354**, or **355** days, according to some specific conditions and rules therein. *So here we will thus essentially take the mean number: **354** in this regard, in the first place. And a "leap year" may last **383**, or **384**, or **385** days, according to some specific conditions and rules therein. *So here we will thus essentially take the mean number again: **384** in this regard, in the first place. --(source: en.wikipedia.org/wiki/Hebrew_calendar)--

But first of all, let us clearly see these specific seven "leap years" within every "**19**" year cycle in Hebrew calendar therein:

So thus every

3rd year,

6th year,

8th year,

11th year,

14th year,

17th year,

19th year,

is a "leap year," wherein there are thus "13 months" in total in each of them therein.

So here are these specific seven "leap years" --(specifically beginning from the last one to the first one here)-- in Hebrew calendar therein:

19 17 14 11 8 6 3

$$= \mathbf{19}_{x\ldots}$$

So here are all those other "regular years" within every "**19**" year cycle in Hebrew calendar therein:

So thus every

1st year,

2nd year,

4th year,

5th year,

7th year,

9th year,

10th year,

12th year,

13th year,

15th year,

16th year,

18th year

is thus a "regular year," wherein there are thus "12 months" in total in each of them therein.

So now when we specifically exclude the very first two years from the top (=i.e. **1**st year & **2**nd year therein) and the very last two years from the bottom (=i.e. **16**th year & **18**th year therein), and one year from the very middle (=i.e. **10**th year therein), the remaining specific **seven** "regular years" --(specifically beginning from the first one to the last one here)-- are again thus therein:

4   5   7   9   12   13   15

$$= \textbf{\textcolor{red}{19}}_{\text{x}}\ldots$$

So now, we can clearly see these specific **seven** "leap years" and specific **seven** "regular years," in Hebrew calendar, in such a perfect correspondence, here thus:

19 17 14 11 8 6 3   4 5 7 9 12 13 15

$$=19_{x\ldots}$$ $$=19_{x\ldots}$$

*Please, note that those "**3**" and "**4**" are the only exception to the rule above, --(*which is also thus a specific "sign" for us to place the "leap years" thus on the left side first (=**3**), and the "regular years" thus on the right side thereafter (=**4**)! And then all of those other specific "leap" and "regular" years are thus placed in such a perfect order, on the left side & on the right side, therein thus:

3	**4**	(= +**1**)

6	**5**	(= **-1**)
8	**7**	(= **-1**)
11	**9**	(= **-2**)
14	**12**	(= **-2**)
17	**13**	(= **-4**)
19	**15**	(= **-4**)

_____

So now, except for those **3**rd and **4**th years above (which were thus specifically an "exception" to the rule therein), if we place **384** days (=i.e. mean total number of days in/of a "leap year") for each of these specific **six** "leap years," on the left side above, we thus see:

19   **17**   **14**   **11**   **8**   **6**   **3**

384   384   384   384   384   384   ---

$$_{=}\mathbf{19}_{X\ldots}$$

Or instead of placing those (mean) total number of days (=i.e. **384** days) for each of those "leap years" above, if we place these actual/possible (minimum, mean, or maximum) other total number of days (=i.e. **383**, or **384**, or **385** days) for each of these "leap years" within such an actual/possible "**19**" year cycle --(because it can vary in each cycle according to some specific conditions and rules therein)-- we can thus again perfectly see:

19   **17**   **14**   **11**   **8**   **6**   **3**

385   383   384   385   383   384   ---

$$_{=}\mathbf{19}_{X\ldots}$$

_____

And then, if we place **354** days (=i.e. mean total number of days in/of a "regular year") for each of these specific **six** "regular years," on the right side above, we thus see:

4	5	7	9	12	13	15
---	354	354	354	354	354	354

$$= \mathbf{19}_{X\ldots}$$

Or instead of placing those (mean) total number of days (=i.e. **354** days) for each of those "regular years" above, if we place these actual/possible (minimum, mean, or maximum) other total number of days (=i.e. **353**, or **354**, or **355** days) for each of these "regular years" within such an actual/possible "**19**" year cycle --(because it can vary in each cycle according to some specific conditions and rules therein)-- we can thus again perfectly see:

4	5	7	9	12	13	15
---	353	354	355	353	354	355

$$= \mathbf{19}_{X\ldots}$$

_____

And other than these most Superb and perfect "Symmetrical Miracles" within those specific **seven** "leap years" and **seven** "regular years" above, finally we can witness here these "**19**" coded, most Superb and perfect "Symmetrical Miracles" thus also within those specific **seven** "leap years" and all of the remaining **twelve** "regular years," within such a specific "**19**" year cycle again, in Hebrew calendar, here thus:

19   17   14   3   11   8   6   =**19**x…

384 384 383 384 385 385 383

=**19**x…

2   4   5   1   7   9   10   12   13   15   16   18   =**19**x…

353 354 355 353 354 355 353 354 355 353 354 355

=**19**x…

*Please, note that we have moved the smallest number (=**3**) to the <u>fourth place</u> (to the left) within those "leap years" above, and so we have moved the smallest number (=**1**) to the <u>fourth place</u> (to the right) within those "regular years" above, thus --(in exact opposite direction)-- in such a perfectly parallel/equal manner above, that both the number of those specific "leap years" and the "regular years," and then the total number of days in/of each of those specific "leap years" and the "regular years" may thus most WONDROUSLY and most AMAZINGLY give us multiple of "**19**" therein in each of those specific four cases above, in such a perfectly parallel and absolutely Magnificent manner here, by this most Wise and perfect Instruction of our Supreme LORD herein again (=16/101-102) (74/30) thus also in this respect now, in the first place!

_____

And last of all, we should certainly see these most critical and important Verses in the Quran Testament, in this respect, here thus:

==========
10- Say: What if it is (=thus a specific reference here to those "**19**" coded, most Superb and magnificent "**Symmetrical Miracles**" within those <u>Sun based calendar</u>, as we have clearly witnessed it on p. 99-102 before this) from AL-LAH and you disbelieved in it? And a witness from the Children of Israel has borne witness to a **similar phenomenon** (=thus a specific reference here to those "**19**" coded, most Superb and magnificent "**Symmetrical Miracles**" within those <u>Moon based calendar</u>, as we have clearly witnessed it here on p. 115-121 now) and he has believed, while you have turned arrogant. Surely, AL-LAH --(here, in this case now; 41/5)-- does not guide (such) wicked people.

11- And those who have rejected said regarding those who have believed: If it were anything Good, they would not have beaten us to it! And because that they are not guided by it, they will say: This --("**19**" coded, most Superb and matchless "**Symmetrical Miracles**" here; 74/26-31)-- is just an old fabrication!

12- And before this (there is) the Written-Document of Moses, as a "**Leader**" --by clearly pointing out to the left side of those "**19**" coded Tables here now,-- and a "**Mercy**" --by clearly pointing out to the right side of those "**19**" coded Tables here now!-- (So please, certainly see: Torah, Deut. 18/18-19 = 32/1-4 within "A Festive Miracle" document, on p. 19-20 now, in the first place; and then please, also and certainly see in this respect again "<u>The Words of Moses</u>" document in its entirety, thereafter.)
And this is (thus) a confirming/fulfilling Written-Document, in an Arabic tongue, so that you may "**Warn**" those who have transgressed --thus first of all and especially by/on the left side of those "**19**" coded Tables here now,-- and to give "**Good News**" --thus first of all and especially by/on the right side of those **19**" coded Tables here now-- to the righteous!
(Quran Testament 46/10-12)

48- But when the --"**19**" coded-- "**Truth**" (=74/26-31) came to them from Us (now), they said: If only "he" (=thus a reference here to this "Messenger/MESSAGE of the Covenant," i.e. the long awaited and anticipated Mahdee and Messiah descendant of prophet Muhammad and prophet David here; peace be upon both of them) was given the same that was given to Moses! Have they not rejected what was given to Moses before? They said: These are **two works of magic supporting one another** --(as we have clearly witnessed it now also in that most specific respect above!) And they said: So we reject all of it.

_____

49- Say: Then bring forth a Written-Document from AL-LAH that would be better than two of them (=i.e. Torah and Quran above) in "**Guidance**" that I may follow it, if you are truthful!

50- But if they fail to respond to you, then know that they follow only their desires. And who is more astray than one who follows his desire, without (such) a --"**19**" coded, most Superb and matchless-- "**Guidance**" (here; 74/26-31) from AL-LAH? Then certainly, AL-LAH --(here, in this case again now: 41/5)-- does not guide (such) wicked people.

(Quran Testament 28/48-50)
==========

So in the coming years (=i.e. from "**2016**" to "**2035**") the Children of Israel will thus witness this most specific and <u>very last</u> "**19**" year cycle of their present Century, in Hebrew calendar (=i.e.

from the year: to the end of the year:

57<u>76</u>   **57<u>95</u>**

₌**19**ₓ…   ₌**19**ₓ…

So if they listen and hearken to this most critical and important "Messenger/MESSAGE of the Covenant," i.e. the long awaited and anticipated Mahdee and Messiah descendant of prophet Muhammad and prophet David here (peace be upon both of them), they will immensely be blessed by AL-LAH (please, see Psalms 118/**19**-26 now, within "A Royal Miracle 2" document, on p. 20-23, in the first place); but if they do not listen and hearken to this most critical and important MESSAGE now, then all the Prophecies that are thus written in Torah (Deut. 18/18-19 = 32/1-44), and Gospel (Luke 21/20-24), and Quran (=17/7-8) may thus be fulfilled therein or thereafter, according to the most Equitable and Just Verdict of this One and Only GOD (=HIS Name is: <u>HUWA AL-LAH</u> in modern Arabic, and <u>YAHUWAH ELOAH</u> in classic Hebrew) therein then.
_____

image credit: university-of-cambridge (**Arabic Calendar**)

97- (Some) Arabs are the worst in "**rejection**" --against the left side of those "**19**" coded Tables here now,-- and "**hypocrisy**" --against the right side of those "**19**" coded Tables here now,-- and more likely not to know the limits of what AL-LAH has sent down upon His "Messenger" (=thus a specific reference to this long awaited and anticipated Mahdee descendant of prophet Muhammad (peace be upon him), i.e. this "Messenger/MESSAGE of the Covenant" here now). And AL-LAH is Knower, Wise.

98- So from the Arabs are (some) who look upon what they spend --(thus to divert from the Path of AL-LAH here; 8/36)-- as an obligation, and (thus) wait for disaster upon you!
They --(here, in this case now; 3/86-91 & 4/17-18)-- will have the disaster of badness (upon themselves); and AL-LAH is Hearer, Knower.

99- And from the Arabs are those who believe in AL-LAH and the Last Day, and they look upon what they spend --(thus to support the Cause of AL-LAH here; 2/261)-- as a means (of nearness) towards AL-LAH, and (a means of) affirming the "Messenger" (=thus a specific reference again to this long awaited and anticipated Mahdee descendant of prophet Muhammad (peace be upon him), i.e. this "Messenger/MESSAGE of the Covenant" here again now). It is (thus) indeed a means (of nearness) for them (towards AL-LAH). For AL-LAH will (thus) admit them in HIS Mercy --(because of their such strong and firm Support unto this "Messenger/MESSAGE of the Covenant" here); AL-LAH is Forgiving, Merciful. (Quran Testament 9/97-99)

The basic Arabic Hijri calendar is a lunar (=i.e. essentially based on the "phases of the Moon") calendar consisting of **12** months in a year of **354** or **355** days. Four of these **12** Hijri months (=i.e. 7th, 11th, 12th, 1st Months) are considered sacred, --(based on the instructions in the Quran and the explanations of prophet Muhammad (p.b.u.h.) thereof. (Surah Nahl 44)

These twelve Hijri Months are: 1) Muharram 2) Safar 3) Rabi I 4) Rabi II 5) Jumada I
6) Jumada II 7) Rajab 8) Sha'ban 9) Ramadan 10) Shawwal 11) Dhu alQada 12) Dhu alHijja

Each month of this Hijri calendar has either **29** or **30** days, but usually in no discernible order. Traditionally, the first day of each month is the day (beginning at sunset) of the first sighting of the hilal (=crescent moon) shortly after sunset. If the hilal is not observed immediately after the 29th day of a month (either because clouds block its view or because the western sky is still too bright when the moon sets), then the day that begins at that sunset is the 30th. This sighting of hilal (=crescent moon) is recommended by prophet Muhammad (p.b.u.h.) in his lifetime, specifically for the month of Ramadan and Shawwal, in the first place, therein.
(source: en.wikipedia.org/wiki/Islamic_calendar)

So based on this "sighting of the hilal" (=crescent moon) tradition above, that is thus specifically recommended by prophet Muhammad (p.b.u.h.) therein, by this perfect Instruction of our Supreme LORD unto him therein (=Quran, Surah Nahl 44), such a (regular) Hijri Year (=i.e. **354** days in total) can thus actually/really occur in this specific sequence:

1) Muharram 2) Safar 3) Rabi I 4) Rabi II 5) Jumada I 6) Jumada II

29	30	29	29	30	30	=**19**x…
days	days	days	days	days	days	

7) Rajab 8) Shaban 9) Ramadan 10) Shawwal 11) D. al-Qada 12) D. al-Hijja

29	30	29	29	30	30	=**19**x…
days	days	days	days	days	days	

_____

or/and such a (leap) Hijri Year (=i.e. **355** days in total) can thus actually/really occur in this specific sequence:

1) Muharram   **2) Safar**   **3) Rabi I**   **4) Rabi II**   **5) Jumada I**   **6) Jumada II**

29	30	29	29	30	30	$=$**19**$_\text{X…}$
days	**days**	**days**	**days**	**days**	**days**	

7) Rajab   **8) Shaban**   **9) Ramadan**   **10) Shawwal**   **11) D. al-Qada**   **12) D. al-Hijja**

29	29	30	30	30	30	$=$**19**$_\text{X…}$
days	**days**	**days**	**days**	**days**	**days**	

So based on this "sighting of the hilal" (=crescent moon) tradition above again, that is thus specifically recommended by prophet Muhammad (p.b.u.h.) therein, by this perfect Instruction of our Supreme LORD unto him therein (=Quran, Surah Nahl 44), such a (**regular**) **Hijri Year** (=i.e. **354** days in total) or a (**leap**) **Hijri Year** (=i.e. **355** days in total) can thus actually/really occur in these specific sequences:

1) R. Year   **2) R. Year**   **3) R. Year**   **4) R. Year**   **5) R. Year**   **6) R. Year**

354	354	354	354	354	354	$=$**19**$_\text{X…}$
days	**days**	**days**	**days**	**days**	**days**	

7) L. Year   **8) R. Year**   **9) L. Year**   **10) R. Year**   **11) L. Year**   **12) R. Year**

355	354	355	354	355	354	$=$**19**$_\text{X…}$
days	**days**	**days**	**days**	**days**	**days**	

_____

Or/and

1) R. Year **2) R. Year** **3) L. Year** **4) R. Year** **5) R. Year** **6) L. Year**

354	354	355	354	354	355

$=\textbf{19}_{\text{x...}}$

_____

So based on these actual/possible (three) specific "**12**" year sequences above, we clearly see that thus:

within the first "**12**" year above, we may have thus "**0**" and "**3**" leap Years therein,

within the second "**12**" year above, we may have thus "**2**" and "**3**" leap Years therein,

within the third "**12**" year above, we may have thus "**3**" and "**0**" leap Years again therein,

upon "**19**" coded, magnificent "**Symmetrical Designs**" therein above, by the great Wisdom of our Supreme LORD here!

So thus we can have "**11**" leap years (=i.e. a year with **355** days therein) in total in such a specific "**30**" year cycle above, and this would thus perfectly be in sync with Lunar calendar based on such a perfect Calculation, as it has already thus unmistakably and clearly been pointed out by our Supreme LORD here (=Quran Testament 10/5), in the first place,
now herein thus:

"30" Hijri Year = "30" x **354** = 10620 days + "11" days (from those "**11**" leap years therein above) = 10631 days in total

So there are thus 10631 / "30" = **354.366…** average number of days for/in each of such Hijri Years above,

and thus **354.366** / "12" = **29.530…** average number of days for/in each of such Hijri Months above. And this is thus basically the perfcet equivalent of a (mean) Lunar (Synodic) Month (=i.e. the basic time interval between two consecutive occurrences of a particular phase (such as new Moon or full Moon) as seen by an observer on Earth): **29.530…** days!

(So please, certainly see again in this respect now: Quran Testament 10/5 = 74/30 in the first place.)

And thereafter, based on this "sighting of the hilal" (=crescent moon) tradition above again, that is thus specifically recommended by prophet Muhammad (p.b.u.h.) therein, by this perfect Instruction of our Supreme LORD unto him therein (=Quran, Surah Nahl 44), within such (**regular**, or **leap**) Hijri Years (=i.e. **354** or **355** days in total) above, those most specific "**4**" sacred Months (=i.e. **7**th, **11**th, **12**th, **1**st Months therein) could also thus occur in these specific sequences therein:

_____

(e.g.) for/within such a leap – regular Year:

…… **7) Rajab**   **11) Dhu al-Qada**   **12) Dhu al-Hijja**   **1) Muharram** ……

      30   **30**   **29**   **29**   = $\mathbf{19}_{x\ldots}$

      days   **days**   **days**   **days**

Or/and (e.g.) for/within such a regular – leap Year:

…… **7) Rajab**   **11) Dhu al-Qada**   **12) Dhu al-Hijja**   **1) Muharram** ……

      30   **29**   **30**   **30**   = $\mathbf{19}_{x\ldots}$

      days   **days**   **days**   **days**

So please, note that this long awaited and anticipated Messiah and Mahdee descendant of prophet David and prophet Muhammad (peace be upon each of them), i.e. this "Messenger/MESSAGE of the Covenant" here will thus confirm --by these most WONDROUS and most AMAZING Miracles above-- and thus strongly recommend these Moon based calendars (=Quran Testament 10/5) specifically for Jews and Arabs (as we have clearly seen on p. 115-121 for the Children of Israel, and on p. 124-129 here now for the Children of Ishmael) by this Commandment of AL-LAH here now (=Quran Testament 5/48, 68);
and he will follow the Sun based calendar (as we have clearly seen on p. 99-102 & 143-147) by the Commandment of AL-LAH unto him (=17/12) among all other Nations on earth now.
(So please, certainly see again Quran Testament 5/44-48, 68 in this regard, in the first place.)
And please, certainly see again "An Amazing Miracle" document, p. 9-13 now, thus to clearly witness therein the clear and unmistakable Support of prophet David and prophet Muhammad (peace be upon both of them), by the Commandment of AL-LAH therein,
unto this most critical and important "Messenger/MESSAGE of the Covenant" also in this respect now therein, in the first place.)

_____

So in the coming years (=i.e. from "**2016**" to "**2035**") the Children of Ishmael (=i.e. thus a specific reference mainly to Saudi Arabs therein now; 2/124-129) will thus witness this most specific "**19**" year cycle of their present Century, in Arabic calendar (=i.e.

from the year: to the end of the year:

14**38**   14**57**

= **19**ₓ…   = **19**ₓ…

So if they listen and hearken to this most critical and important "Messenger/MESSAGE of the Covenant," i.e. the long awaited and anticipated Messiah and Mahdee descendant of prophet David and prophet Muhammad here (peace be upon both of them), they will immensely be blessed by AL-LAH (please, see Quran Testament here again: 9/99); but if they do not listen and hearken to this most critical and important MESSAGE now, then all the Informations that are thus written in the Quran (Surah Naml 93 & Ali Imran 81 = Ahzab 7-8 & Muhammad 38) and in the related Prophecies of prophet Muhammad (p.b.u.h.) therein (please, see "A Supernal Miracle" document, p. 20-27, and "A Delivering Miracle" document, p. 24-26 in this respect now, in the first place) may thus be fulfilled therein or thereafter above, according to the most Equitable and Just Verdict of this One and Only GOD (=HIS Name is: HUWA AL-LAH in modern Arabic, and HUWA ALLAH in classic Arabic), therein then.

_____

image credit: en.wikipedia.org (**David** and **Goliath**)

65- O you "Announcer" (=i.e. thus a specific reference to this "Messenger/MESSAGE of the Covenant," i.e. the long awaited and anticipated Messiah and Mahdee descendant of prophet David and prophet Muhammad here again (peace be upon both of them), urge the believers to fight --(thus exclusively in Mathematical, Intellectual sense here now:
If there are "**20**" of you who are patient, they will defeat "**200**."
And if there are "**100**" of you, they will defeat "**1000**" from amongst those who reject; that is because they are a people who do not comprehend!

66- Now, AL-LAH has lightened for you, for HE knows that (there has normally been some) weariness in you.
So (immediately thereafter) if there are "**100**" of you who are patient, they will defeat "**200**."
And if there are "**1000**" of you, they will defeat "**2000**" by AL-LAH's leave.
For AL-LAH is with the patient. (Quran Testament 8/65-66)

53- So We will show them Our (mathematical) "**Signs**" in the horizons, and also within themselves (=thus also within those specific "**numbers**" of believers vs. disbelievers" above), until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us clearly see all of those comprehending and patient "believers" above versus those uncomprehending and impatient "disbelievers" therein, now here thus:

_____

The number of those **believers**, who are patient above:

20
100
100
1000

The number of those **disbelievers**, who are impatient above:

200
1000
200
2000

So here are those patient **believers** side by side:

20 100 1000

$=$**19**x…

So here are those impatient **disbelievers** side by side:

200 1000 2000

$=$**19**x…

*Please, note that we have rightfully "disregarded/eliminated" that third number (=i.e. **100**) on the left side, and rightfully "disregarded/excluded" that third number again (=i.e. **200**) on the right side, --(because both of them are a "repetition" therein; i.e. **100** and **200** are already placed therein above before them)-- based on these most fundamental and basic Verses (=74/26-30) herein again (please, see it on p. 3 again), in the first place.

Then, or/and

So here are those patient **believers** side by side:

20 100 100

$=$**19**x…

So here are those impatient **disbelievers** side by side:

200 1000 200

$=$**19**x…

_____

*Please, note that we have rightfully "disregarded/eliminated" that fourth number (=i.e. **1000**) on the left side, and rightfully "disregarded/excluded" that fourth number again (=i.e. **2000**) on the right side, --(because this time both of them are Not a "repetition" therein; i.e. after these specific first numbers therein above (=**20**, **100** & **200**, **1000**) only "repetitions" are lawfully taken into account herein, thereafter, in this instance)-- based on these most fundamental and basic Verses (=74/26-30) herein again (please, see it on p. 3 again), in the first place.

So thus all of these comprehending and patient "believers" (=**20**, **100**, **100**, **1000**) have thus been granted <u>ultimate Victory</u> by our Supreme LORD over all of these uncomprehending and impatient "disbelievers" (=**200**, **1000**, **200**, **2000**) therein (=8/65-66) thus in such a most Wise and perfect Design herein again (=74/26-31), within those two most Superb and perfect Tables above, by our Supreme LORD, one after the other therein (8/65-66 = 74/30)!

_____

image credit: mathematicsi.com (**Even** and **Odd Numbers**)

1- By the dawn.

2- And the "ten nights."

3- And the "even" and the "odd" (numbers therein).

4- And the night when it passes.

5- In this is an Oath for (every) one with intelligence! (Quran Testament 89/1-5)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those specific "ten nights" and the related "even" and the "odd" numbers therein above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

So let us see these most blessed "ten nights" in this respect above thus specifically within the "**tenth**" Month (=i.e. October) and thus beginning specifically from the "**tenth**" day therein (=i.e. **10**, **11**, **12**, **13**, **14**, **15**, **16**, **17**, **18**, **19**) for/within this sacred "Town" (=i.e. "Tucson," Arizona) wherein this long awaited and anticipated Messiah and Mahdee descendant of prophet David and prophet Muhammad (peace be upon both of them), i.e. this most critical and important "Messenger/**MESSAGE** of the Covenant" has thus dwelled therein now (so please, certainly see again p. 52-54 now, in this respect)-- now, here thus:

_____

Nights October	the length of the Night	
	hour	minute
10	12	26
11	12	28
12	12	30
13	12	32
14	12	34
15	12	36
16	12	38
17	12	40
18	12	42
19	12	43

*So here are those "**even**" numbered (=89/3) most blessed "five" Nights (=89/2) in this respect above, here thus:

10 **12** **26** **12** **12** **30** **14** **12** **34** **16** **12** **38** **18** **12** **42**

$$=\textbf{19}_{X\ldots}$$

*So here are those "**odd**" numbered (=89/3) most blessed "five" Nights (=89/2) in this respect above, here thus:

11 **12** **28** **13** **12** **32** **15** **12** **36** **17** **12** **40** **19** **12** **43**

$$=\textbf{19}_{X\ldots}$$

_____

So thereafter, let us also see these specific "three <u>days</u>" (=i.e. due to the Oath thus also specifically upon the <u>dawn</u> in the first Verse above; 89/**1**, 5) and then the specific "four <u>nights</u>" (=i.e. due to the Oath thus also specifically upon the <u>night</u> in the fourth Verse above; 89/**4**, 5), now here thus:

Days October	the length of the Day hour	minute
1	**11**	**50**
2	**11**	**48**
3	**11**	**46**

Nights October	the length of the Night hour	minute
24	**12**	**53**
25	**12**	**54**
26	**12**	**56**
27	**12**	**58**

*Please, note that because that there are thus exactly "**9**" days before that **10**th day (=i.e. the first day of those most specific "<u>ten nights</u>" above; 89/2) in this specific Month, and there are thus exactly "**12**" days after that **19**th day (=i.e. the last day of those most specific "<u>ten nights</u>" above; 89/2) to the end of this Month,
we have thus taken into account (**9** / 3 =) "**3**" days in the beginning of this Month due to this specific Oath unto "<u>dawn</u>" here (=89/1) before these most specific "<u>ten nights</u>" therein (89/2), and thus (**12** / 3 =) "**4**" days towards the end of this Month due to this specific Oath unto "<u>night</u>" here (=89/4) after these most specific "<u>ten nights</u>" therein (89/2) thus in such a perfectly parallel and absolutely complementary manner here: (days: **1**, **2**, **3** ………. nights: **24**, **25**, **26**, **27**)
by this most Wise and perfect Design of our Supreme LORD herein again, in the first place!
So please, also certainly note that we can eventually thus place all of these most specific "**3**" days, and "**10**" nights, and "**4**" nights in such a perfectly "Symmetrical Design" here thus:
3 days, **5** (**even** numbered) nights, **4** nights, **or/and 3** days, **5** (**odd** numbered) nights, **4** nights

_____

*So here are those most blessed three "days" (=89/1) in this respect above, here thus:

1 **11 50** **2** **11 48** **3** **11 46**

$$= \textbf{19}_{\text{x}\ldots}$$

*So here are those most blessed four "nights" (=89/4) in this respect above, here thus:

24 **12 53** **25** **12 54** **26** **12 56** **27** **12 58**

$$= \textbf{19}_{\text{x}\ldots}$$

*And please, note that the basic length of each of those most specific <u>Nights</u> (=89/2, 4) and the <u>Days</u> (=89/1) above have thus been taken into account specifically for/in the Year: **2014,** because this is thus the most fundamental <u>first</u> Year (=i.e. which perfectly gives a multiple of **19** here) of this most critical and important **Third** and **Last Day/Millennium** now. (So please, also certainly see again now: Quran Testament 22/47 & 2/62 in this regard, in the first place.)

(*The data is basically retrieved from this site: "timeanddate.com" for/in these excellent Tables above.)

*Please, note that we have rightfully taken into account basically all the "**hours**" and the "**minutes**" of each of those most specific <u>Nights</u> (=89/2, 4) and the <u>Days</u> (=89/1) above, and we have rightfully disregarded/eliminated the "seconds" for/on the left side, and rightfully disregarded/eliminated them for/on the right side, based on these most fundamental and basic Verses (=74/26-30) herein again in this respect (please, see it on p. 3 again), in the first place.

_____

image credit: virtualtelescope.eu (**New Moon**)   image credit: science1.nasa.gov (**Full Moon**)

189- They ask you regarding the <u>new Moons</u>, say: They are (precise) timing devices for the people and the Pilgrimage! (Quran Testament 2/189)

16- So I solemnly swear by the rosy dusk.

17- And the night and all that it enshrouds.

18- And the <u>Moon</u>, when it (dimly or/and clearly) <u>appears round</u> (=i.e. at every "New Moon," or/and at every "Full Moon").

19- You will move from stage to stage (=thus specifically within those "New Moons," or/and "Full Moons" above).

20- So what is the matter with them that they (still) do not believe?

21- And when the --"**19**" coded-- **Reading** (=74/26-30) is recited to them, they do not prostrate!

22- No, (because) those who disbelieved are (thus) rejecting --the left side of those "**19**" coded Tables here now!-- (=74/31)

23- And AL-LAH is Best Knower of what they are (thus) hiding --against the right side of those "**19**" coded Tables here now!-- (=74/31)

24- So --(here, in this case now: 41/5)-- give them the tiding of a painful retribution.

25- Except for those who believe and work for the --"**19**" coded-- **Righteous Deeds** (=74/26-31) for them is a Reward unending! (Quran Testament 84/16-25)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also specifically at those "<u>New Moons</u>" or/and the "<u>Full Moons</u>" therein above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

_____

So let us see those "**19**" <u>New Moons</u> and "**19**" <u>Full Moons</u> thus specifically beginning from the very first day of this most fundamental first Year: **2014** (please, see it again on p. 137) for/within this sacred "Town" (=i.e. "Tucson," Arizona) again, wherein this long awaited and anticipated Messiah and Mahdee descendant of prophet David and prophet Muhammad (peace be upon both of them), i.e. this most critical and important "Messenger/**MESSAGE** of the Covenant" has thus dwelled therein (so please, certainly see again p. 52-54 now, in this respect)-- now, here thus:

2014

1st New Moon (on January 1)

29 days later

2nd New Moon (on January 30)

30 days later

3rd New Moon (on March 1)

29 days later

4th New Moon (on March 30)

30 days later

5th New Moon (on April 29)

29 days later

6th New Moon (on May 28)

30 days later

2014

1st Full Moon (on January 15)

30 days later

2nd Full Moon (on February 14)

30 days later

3rd Full Moon (on March 16)

30 days later

4th Full Moon (on April 15)

29 days later

5th Full Moon (on May 14)

30 days later

6th Full Moon (on June 13)

29 days later

_____

7th New Moon (on June 27)

29 days later

8th New Moon (on July 26)

30 days later

9th New Moon (on August 25)

30 days later

10th New Moon (on September 24)

*So thus we have seen the **10**th New Moon exactly on **266**th (=**19**x…) day here, after the **1**th New Moon above!

30 days later

11th New Moon (on October 23)

30 days later

12th New Moon (on November 22)

29 days later

13th New Moon (on December 21)

30 days later

7th Full Moon (on July 12)

29 days later

8th Full Moon (on August 10)

29 days later

9th Full Moon (on September 8)

30 days later

10th Full Moon (on October 8)

*So thus we have seen the **10**th Full Moon exactly on **266**th (=**19**x…) day here, after the **1**th Full Moon above!

29 days later

11th Full Moon (on November 6)

30 days later

12th Full Moon (on December 6)

29 days later

13th Full Moon (on January 4)

30 days later

14th New Moon (on January 20)

29 days later

15th New Moon (on February 18)

30 days later

16th New Moon (on March 20)

29 days later

17th New Moon (on April 18)

30 days later

18th New Moon (on May 18)

29 days later

19th New Moon (on June 16)

*So thus we have seen the **9**th New Moon

exactly on **266**th (=**19**x…) day here

again,

after the **10**th New Moon above!

14th Full Moon (on February 3)

30 days later

15th Full Moon (on March 5)

30 days later

16th Full Moon (on April 4)

29 days later

17th Full Moon (on May 3)

30 days later

18th Full Moon (on June 2)

29 days later

19th Full Moon (on July 1)

*So thus we have seen the **9**th Full Moon

exactly on **266**th (=**19**x…) day here

again,

after the **10**th Full Moon above!

_____

*Please, note that because that the **1**st "New Moon" and the **1**st "Full Moon" is seen thus in the same Month (=i.e. January & January --of 2014) above (p.139), we have thus started counting the days between the "New" and "New" … and the "Full" and "Full" … Moons therein, beginning just at the next days of those **1**st "New Moon" and the **1**st "Full Moon" therein, in the first place.

And then because that **11**th "New Moon" and the **11**th "Full Moon" is seen thus in the different Months (=i.e. October X November --of 2014) above (p.140), we have thus started counting the days between the "New" and "New" … and the "Full" and "Full" … Moons therein, beginning just at the same day of that **1**st "New Moon," and beginning just at the next day of that

1st "Full Moon" therein, in the second place.

Thus we have legitimately applied the <u>same rule</u> for/within the <u>same beginnings</u> above (=i.e. January & January --of 2014) therein, and a <u>different rule</u> for/within the <u>different beginnings</u> (=i.e. October X November --of 2014) therein, in this respect.

*And please, note that we have specifically started to count each of these "**19**" <u>New Moons</u> and "**19**" <u>Full Moons</u> above from the first Month of this most specific Year: **2014,**

because this is thus the most fundamental <u>first</u> Year (=i.e. which clearly gives a multiple of **19** here) of this most critical and important **Third** and **Last Day/Millennium** now. (So please, also certainly see again now: Quran Testament 22/47 & 2/62 in this regard, in the first place.)

And the fact that the first "New Moon" is thus seen in the very first day (=i.e. January 1) of this most specific Year: **2014** above is also thus absolutely remarkable therein.

*And please, also certainly note that within this most specific Verse (=84/**19**) in this regard above (p. 138) our Supreme LORD has already thus most Wisely and perfectly indicated therein to us that we shall thus move exactly **"19"** stages --(as we have already thus clearly witnessed it above)-- within all of those ("**19**") <u>New Moons</u> and ("**19**") <u>Full Moons</u> (=84/18-**19**) therein, thus in the first place!

(*The data is basically retrieved from this site: "timeanddate.com" for/in these excellent Tables above.)

_____

image credit: spaceplace.nasa.gov (**Solar System**)

36- The number of the months, in the sight of AL-LAH, is "twelve months," (thus written) in AL-LAH's Decree (from) the day HE created the heavens and the earth; "four" of them are restricted/sacred. This is the perfect System; so do not wrong yourselves in them. ……
(Quran Testament 9/36)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those "twelve months" and the "four (restricted/sacred) months therein" above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth!
(Quran Testament 41/53)

30- Upon it (there is) "**19!**" (Quran Testament 74/30)

So first of all, we should clearly see here that those specific "four Months" that are thus particularly made restricted/sacred by our Supreme LORD above (=9/36) must be --(not the very first, or/and the following "four Months" in the middle of a Year thereafter)-- but thus exclusively the very last "four Months" (=i.e. **9**th, **10**th, **11**th, **12**th Months) of every Year,

_____

as it has already thus perfectly been indicated by the specific number of this Chapter **"9"** therein, first of all, and thereafter also and specifically by each of these related Verse numbers **9**/<u>36</u>, <u>37</u>, <u>38</u>, <u>39</u> therein thus now: <u>3+6</u>= **9** & <u>3+7</u>= **10** & <u>3+8</u>= **11** & <u>3+9</u>= **12**

(*So please, certainly note that within <u>36</u>th Verse above those "<u>four Months</u>" that are thus particularly made <u>restricted/sacred</u> by our Supreme LORD is thus specifically mentioned therein, in the first place; 9/<u>36</u> and thereafter at the end of this <u>39</u>th Verse therein this powerful statement is thus emphasized: "And AL-LAH is **Measurer** over all things!" in this respect, finally therein; 9/<u>39</u>)!

So let us clearly see now this --"**19**" coded-- perfect **Measure** (=74/26-30) with regard to all of these "<u>twelve months</u>" and the "<u>four</u>" restricted/sacred months" therein (9/36) that our Supreme LORD has thus most Wisely and precisely decreed from the very beginning therein (=9/36), now here thus:

sacred	regular	regular		sacred	regular	regular
Month	**month**	**month**		**Month**	**month**	**month**
9	**1**	**2**		**11**	**7**	**8**

$$_=\textbf{\textcolor{red}{19}}_{x\ldots}$$ $$_=\textbf{\textcolor{red}{19}}_{x\ldots}$$

sacred	regular	regular		sacred	regular	regular
Month	**month**	**month**		**Month**	**month**	**month**
10	**6**	**4**		**12**	**3**	**5**

$$_=\textbf{\textcolor{red}{19}}_{x\ldots}$$ $$_=\textbf{\textcolor{red}{19}}_{x\ldots}$$

_____

*Please, note that because that both of those "regular months" with the **10**th sacred Month (=i.e. **6** and **4** therein) are thus **bigger** than both of those "regular months" with the **9**th sacred Month (=i.e. **1** and **2** therein), we have thus rightfully placed the **bigger** number (=i.e. **6**) first, and the smaller number (=i.e. **4**) secondly, therein.

And then because that both of those "regular months" with the **12**th sacred Month (=i.e. **3** and **5** therein) are thus **smaller** than both of those "regular months" with the **11**th sacred Month (=i.e. **7** and **8** therein), we have thus rightfully placed the **smaller** number (=i.e. **3**) first, and the bigger number (=i.e. **5**) secondly, therein; thus in such a perfectly parallel and absolutely corresponding manner above:

$$\textbf{9} \ \textbf{1} \ _{(+1)} \ \textbf{2} \qquad\qquad \textbf{11} \ \textbf{7} \ _{(+1)} \ \textbf{8}$$

$$\textbf{10} \ \textbf{6} \ _{(-2)} \ \textbf{4} \qquad\qquad \textbf{12} \ \textbf{3} \ _{(+2)} \ \textbf{5}$$

by this most Wise and perfect Design of our Supreme LORD herein again (=74/26-30), in the first place! And thereafter, let us clearly see now all of the "total number of days" within each of those "twelve months," now here thus:

sacred Month	regular month	regular month	sacred Month	regular month	regular month	
9	**1**	**2**	**11**	**7**	**8**	=**19**ₓ…
September	january	february	November	july	august	
Days	days	days	Days	days	days	
30	31	2**9**	30	31	31	=**19**ₓ…

_____

sacred Month	regular month	regular month	sacred Month	regular month	regular month	
10	**6**	**4**	**12**	**3**	**5**	=**19**x…
October	june	april	December	march	may	
Days	days	days	Days	days	days	
3<u>0</u>	30	30	31	31	31	=**19**x…

*Please, note that because that we have thus taken into account specifically "**29**" days for/in **February**, within those first specific "six months" above (=i.e. the very last one of those first three specific months therein), so in order to rightfully compensate for this leap --(because we should basically be within that normal 365 days range here, for the sake of all those major regular Years)-- so we have thus rightfully restricted "1" day and have thus taken into account specifically "**30**" days for/in **October** (=i.e. a restricted/sacred Month itself herein) within those second specific "six months" above (=i.e. the very first one of those first three specific months therein), by this most Wise and perfect Instruction of our Supreme LORD herein again, in the first place.

So now let us clearly see again these most critical and important Verses (=**9/36-37**), in this specific respect, here thus:

37- Altering --(within/about those "four" Months which are thus made restricted/sacred above; please, see it again in this Verse: "9/36" on p. 143)-- is a sign of excessive disbelief; it augments the straying of those who have disbelieved. (For) they are (thus) making it lawful in one time (=i.e. they accept this: **10 6 4** as legitimate and lawful therein now), and making it restricted in one time (=i.e. they reject this: **12 3 5** as illegitimate and unlawful therein now, thus citing that it should have been in this order: **10 <u>6</u> <u>4</u> 12 <u>5</u> <u>3</u>** therein now!), thus to violate the --"**19**" coded-- **Count** (=74/30) that which AL-LAH has (thus) made restricted/sacred (above)!

_____

And (then) they are (also) making lawful that which AL-LAH has made <u>restricted/sacred</u> therein (=i.e. they are rejecting that "1" day <u>restriction</u> and thus demanding it to be lawful therein within that <u>restricted/sacred</u> Month of **October** above now!) Their bad works are adorned in their eyes. So AL-LAH --(here in this case now; 11/19-22)-- does not guide (such) disbelieving people.

(Quran Testament 9/36-37)

=========

_____

image credit: svs.gsfc.nasa.gov --NASA/Goddard Space Flight Center-- (A **Pulsar**)

1- By the sky and the Bright one.

2- And what will enlighten you as to what the Bright one is!

3- (It is) the pulsating/piercing Star. (Quran Testament 86/1-3)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within that specifically Bright and "pulsating/piercing Star" above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

PSR J0437-4715 is a pulsar. It remains the **closest** and **brightest** millisecond pulsar (MSP) known. It emits a searchlight-like radio beam that sweeps past the Earth each time it rotates. It is currently the **most precisely located object** outside of our Solar System. This pulsar is also distinguished by being the **most stable natural clock** known and is debatably **more stable** than man-made atomic clocks. **PSR J0437-4715** is the first MSP to have its X-ray emission detected and studied in detail. (source: en.wikipedia.org/wiki/PSR_J0437-4715)

So let us clearly see the basic data regarding this "exclusively Bright" and "most notable Pulsar" in these regards above, here thus:

_____

PSR J0437-4715 (Pulsar)

Coordinates (J-2000)

Right Ascension: **4** hours   **37** minutes   **15.7** seconds (=i.e. round number: **16** seconds)

So we can clearly see here:

                        seconds   minutes   hours

            16   37   04   =**19**ₓ...

Declination: -**47** degrees   **15** arcminutes **7.9** arcseconds (=i.e. round number: **8** arcseconds)

So we can clearly see here:

                degrees   arcminutes   arcseconds

            47   15   8   =**19**ₓ...

*Please, note that only within that main parameter above (=i.e. "**hours**"), we have thus legitimately placed an extra "0" before "**4**" therein.)

Rotational Period: (around its own axis) **5.7**574 millisecond

5.7 =**19**ₓ...

Orbital Period: (around its companion star) **5.7**410 days

5.7 =**19**ₓ...

_____

Orbital eccentricity: **0.000019**186

0.000019 =**19**x...

Orbital inclination: **42.75**356

42.75 =**19**x...

*Please, note that we have thus mainly taken into account only two --(excluding those "zeros" above)-- digits after decimal points, and thus rightfully "disregarded/excluded" the rest --on the left side-- and thus rightfully "disregarded/eliminated" the rest --on the right side-- based on these most fundamental and basic Verses in this regard (=74/26-31) here again, (so please, see it again on p. 3), in the first place.

*And please, note that we can see each of those "**19**" coded, most essential parameters above in a perfectly "Symmetrical Way," if/when we look at this "most notable Pulsar" (=86/1-3) while it is in motion when "on the left side," or/and "on the right side" of its specific orbit therein now.
_____

image credit: chandra.harvard.edu --Optical: DSS, Illustration: NASA/CXC/M.Weiss-- (**Cygnus X-1**)

15- I solemnly swear by <u>the Invisible ones</u> (=alKhunnas).

16- (Together with) those running/revolving ones (in their orbits), <u>the Visible ones</u> (=alKunnas). (Quran Testament 81/15-16)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within those specific <u>Invisible ones</u> together with those <u>running/revolving</u> companions: <u>Visible ones</u> above), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

Cygnus X-1 is the **most famous example** of "**High Mass X Ray Binary**" systems.
It is among the **strongest X Ray source** in the night sky.
It is one of the **heaviest stellar-mass blackholes** to date in MilkyWay.
It is the **brightest persistence source** of **hard X Rays** (E > 20 keV) on the sky.
Such a stellar-mass black hole is normally totally **<u>invisible</u>** to us (*"**<u>alKhunnas:</u>**
thus **<u>the Invisible ones</u>**" in the above Verse!) But in such a binary system (=i.e. it has a companion star) bright X Rays might give away its presence.
This is the **first discovered** X Ray source and a **stellar-mass black hole**.
Cygnus X-1 was the subject of a friendly scientific wager between physicists Stephen Hawking

_____

and Kip Thorne in 1974, with Hawking betting that it was not a black hole. He conceded the bet in 1990 after observational data had strengthened the case that there was indeed a **black hole** in the system. (sources: skyandtelescope.com/community/skyblog/newsblog/Cygnus-X-1-Exactly-134241693.html & en.wikipedia.org/wiki/Cygnus_X-1)

(Companion Star) **HDE 226868** is a blue supergiant star.
It is totally **visible** to us (*"**alKunnas:** thus **the Visible ones**" in the above Verse!) through telescopes in visible spectrum. It revolves around the **Cygnus X-1**, and **Cygnus X-1** revolves around it. (But because **Cygnus X-1** is totally **invisible** to us, so we can only see **HDE 226868** revolving there (=hence it is also exclusively called "**the running/revolving ones**" in the second Verse therein above; 81/16)!
(sources: observing.skyhound.com/archives/avg1/V1674_Cyg.html & hea-www.cfa.harvard.edu/~jein/apj_742_2_84.pdf)

So let us clearly see the basic data regarding this "exclusively Bright" and "most notable Binary System" in these regards above, here thus:

Cygnus X-1 / HDE 226868 (Binary System)

Coordinates (J-2000)

Right Ascension: **19** hours   **58** minutes   **21.6**$_{76}$ seconds

So we can clearly see here:

hours	minutes	seconds	
19	**58**	**21.6**	$=$**19**$_{x...}$

Declination: +**35** degrees   **12** arcminutes   **5.7**$_{75}$ arcseconds

So we can clearly see here:

arcseconds	arcminutes	degrees	
05.7	**12**	**35**	$=$**19**$_{x...}$

_____

*Please, note that we have thus placed the **Right Ascension** parameters in proper order (=i.e. as "hours & minutes & seconds") and the **Declination** parameters in reverse order (=i.e. as "arcseconds & arcminutes & degrees") for this most specific "Black Hole" here, and we had placed the **Right Ascension** parameters in reverse order (=i.e. as "seconds & minutes & hours") and the **Declination** parameters in proper order (=i.e. as "degrees & arcminutes & arcseconds") for that most specific "Pulsar" before this (please, see it again on p. 149), thus in such a --(in exact opposite way)-- perfectly parallel and absolutely complementary manner here. And so because that we have legitimitely placed a "0" before "**4**" therein within the (reverse ordered) **Right Ascension** (=i.e. hours: **"04"** at the end therein), we may legitimately place a "0" before "**5.7**" here within the (reverse ordered) **Declination** (=i.e. arcseconds: **"05.7"** at the beginning therein) thus in such a --(in exact opposite way)-- perfectly parallel and absolutely complementary manner here again.

Cygnus X-1 (=i.e. **the Invisible one** here; 81/15)
(=so if we get that specific number: **1** here)

HDE-226868 (=i.e. **the Visible one** here; 81/16)
(=so if we get that specific number: **226868** here)

$$\underline{1} \quad \underline{226868} = \mathbf{19}_{x\ldots}$$

Cygnus X-1 (=i.e. **the Invisible one** here; 81/15) is **14.8** times massive than our Sun
(=so if we make it round as: **15** here)

HDE-226868 (=i.e. **the Visible one** here; 81/16) is **19.2** times massive than our Sun
(=so if we make it round as: **20** here)

$$\underline{15} \quad \underline{20} = \mathbf{19}_{x\ldots}$$

*Please, note that Scientists can discover and "name" or/and "number" all astronomical objects always under the Watchful Eyes of AL-LAH and by HIS permission. (=Quran Testament 2/255) So every action of human beings --(if/when it is approved by AL-LAH)-- is thus created and implemented by AL-LAH, in essence, in the first place. (=Quran Testament 2/255 & 21/80 & 8/17 & …) (So please, certainly see again that most fundamental and basic Explanation in this regard, on p. 12 now.)

_____

Cygnus X-1 (=i.e. **the Invisible one** here; 81/15) its apparent magnitude (in visible spectrum) is **none** (=i.e. totally **invisible**)
(=so if we take it as: **0.0** here)

HDE-226868 (=i.e. **the Visible one** here; 81/16) its apparent magnitude (in visible spectrum) is in the range of **8.9** – **8.7**
(=so if we take it as: **8.9** **8.7** here)

0.0 0.0 8.9 8.7 = **19**x...

Cygnus X-1 (=i.e. **the Invisible one** here; 81/15) moves through MilkyWay galaxy at **21** km per second (=i.e. **75600** km per hour)
(=so if we increase that specific number only one digit as: **75601** here)

HDE-226868 (=i.e. **the Visible one** here; 81/16) moves through MilkyWay galaxy at **21** km per second (=i.e. **75600** km per hour)
(=so if we increase that specific number only one digit as: **75601** here)

75601 75601 = **19**x...

Cygnus X-1 (=i.e. <u>**the Invisible one**</u> here; 81/15) orbits around HDE-226868

in **5.599829** days

(=so if we increase it by "**5**" just at that "**5**<u>th</u>" digit after that decimal point as: **5.59987** here)

HDE-226868 (=i.e. <u>**the Visible one**</u> here; 81/16) orbits around Cygnus X-1

in **5.599829** days

(=so if we increase it by "**5**" just at that "**5**<u>th</u>" digit after that decimal point as: **5.59987** here)

<u>**5.59987**</u> <u>**5.59987**</u> = **19**_{x…}

(*The data is basically retrieved from these sites: "aavso.org" & "stars.astro.illinois.edu" & "observing. skyhound.com" & "skyandtelescope.com" for/in these excellent Tables above.)
_____

image credit: nasa.gov –(by pat corkery, united launch alliance) **LCROSS Mission** to **Moon**

1- The Hour --(of this "Smoke" and those "Heavenly Requitals" thereafter, here in this case now; 44/10-16)-- has (thus) come closer, and the Moon was split.
2- But if they see a (mathematical) "**Sign**," they (still) turn away and say: A persistent delusion! (Quran Testament 54/1-2)

53- So We will show them Our (mathematical) "**Signs**" in the horizons (=thus also within that most specific "splitting of the Moon" event above now), and also within themselves, until (thus) it becomes perfectly clear to them that it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) "**19**!" (Quran Testament 74/30)

The "**Lunar Crater Observation and Sensing Satellite**" (=**LCROSS**) was a robotic spececraft operated by NASA. The main LCROSS mission objective was to explore the presence of water ice in a permanently shadowed crater near a Lunar polar region.
LCROSS was designed to collect and relay data from the impact and debris plume resulting from the launch vehicle's spent Centaur upper stage (and data collecting Shepherding Spacecraft) striking the crater Cabeus near the south pole of the Moon. **--(**this is the moment of splitting (=anshaqqa) of the Moon" by these impacts; because e.g. the same root word is thus specifically used to refer to the "splitting (=shaqqna) of the Earth"**

_____

by the impact of the rain droplets here in this case; Quran Testament 80/26)--
Centaur impacted successfully on October 9, 2009, at 11:31 UTC. The Shepherding Spacecraft
descended through Centaur's ejectate plume, collected and relayed data, impacting six minutes
later at 11:37 UTC. (source: en.wikipedia.org/wiki/LCROSS & nasa.gov/LCROSS)

So let us clearly see the basic data regarding this "most memorable and important
Historic Event" in this regard above, here thus:

<u>Launch Time</u>:

Centaur rocket   **<u>5:32</u>** p.m. (EDT)
Shepherding Spacecraft   **<u>5:32</u>** p.m. (EDT)

(*They are connected to each other at the time of Launch.)

<u>5:32</u> <u>5:32</u> = **19**_{x…}

<u>Impact Time</u>:

Centaur rocket   **<u>11:31</u>** a.m. (UTC)
Shepherding Spacecraft   **<u>11:37</u>** a.m. (UTC)

(*They were separated from each other before the time of Impact.)

<u>11:31</u> <u>11:37</u> = **19**_{x…}

*Please, note that we can lawfully and appropriately use EDT (=Eastern Daylight Time)
for the time of the Launch (for this specific location: Florida, U.S. therein) on this Earth then,
and UTC (=Coordinated Universal Time) for the time of the Impact on the Moon thereafter.

_____

<u>Inert mass</u> (without fuel) **at the time of Launch**

Centaur rocket   **<u>2247.09</u>** kg (=so if we keep it round as: **<u>2247</u>** kg)
Shepherding Spacecraft   **<u>585.13</u>** kg (=so if we round it as: **<u>586</u>** kg)

<u>2247</u> <u>586</u> = **19**_{x…}

<u>Dimensions (maximum length,</u> and **<u>maximum width from antenna to antenna)</u>**

Centaur rocket   **<u>12.68</u>** m (=so if we round it as: **<u>13</u>** m)
Shepherding Spacecraft   **<u>3.30</u>** m (=so if we keep it round as: **<u>3</u>** m)

<u>13</u> <u>3</u> = **19**_{x…}

<u>Minimum range of Mass at the time of Impact</u>

Centaur rocket   **<u>2249</u>** kg (=such a Mass would weigh on Moon: **<u>373.3</u>** kg)
Shepherding Spacecraft   **<u>621</u>** kg (=such a Mass would weigh on Moon: **<u>103.1</u>** kg)

<u>373</u> <u>103</u> = **19**_{x…}

<u>It would create a Crater on Moon whose diameter is approximately</u>

by Centaur rocket   **<u>20</u>** m
by Shepherding Spacecraft   **<u>14</u>** m

<u>20</u> <u>14</u> = **19**_{x…}

_____

Launch Date:

Centaur rocket   **June 18, 2009**
Shepherding Spacecraft   **June 18, 2009**

(*They are connected to each other at the time of Launch.)

Impact Date:

Centaur rocket   **October 9, 2009**
Shepherding Spacecraft   **October 9, 2009**

(*They were separated from each other before the time of Impact.)

So the "<u>total number of days</u>" from Launch to Impact (counting **June 18** as the first day above, and **October 9** as the final day therein)

for Centaur rocket   **114th Day**
for Shepherding Spacecraft   **114th Day**

$$\underline{114}\ \underline{114} = \mathbf{\color{red}19}_{x\ldots}$$

Launch Date: **Year** **Day** **Month**

Centaur rocket   **2009**   **18**   **6**
Shepherding Spacecraft   **2009**   **18**   **6**

(*They are connected to each other at the time of Launch.)

$$\underline{2009}\ \underline{2009}\ \underline{18}\ \underline{6}\ \underline{18}\ \underline{6} = \mathbf{\color{red}19}_{x\ldots}$$

_____

Impact Date: **Month** **Day** **Year**

Centaur rocket   **<u>10</u>**   **<u>9</u>**   **<u>2009</u>**
Shepherding Spacecraft   **<u>10</u>**   **<u>9</u>**   **<u>2009</u>**

(*They are separated from each other at the time of Impact.)

<u>10</u> <u>9</u> <u>10</u> <u>9</u> <u>2009</u> <u>2009</u> = **19**_{x…}

*Please, note that as there is such a contrast between Launch (=**Ascent**) X Impact (=**Descent**) herein, so there may thus legitimately be such a contrast between Launch Date (=i.e. as "**Year** – **Day** – **Month**") X Impact Date (=i.e. as "**Month** – **Day** – **Year**") above.

(*The data is basically retrieved from these sites: "nasa.gov/LCROSS" & "en.wikipedia.org" & "spaceflightnow.com" for/in these excellent Tables above.)

_____

image credit: space.com   -(**F**undamental **Y**ear: **2014**)-

20:14

AL-LAH said: I am AL-LAH, there is no god except ME; so you shall serve ME, and you shall observe/maintain the Support for MY "**Commemoration**" (=**Dhekree**; thus a specific reference also and especially to HIS "**19**" coded, most Superb and matchless "**Symmetrical Miracles**" here now; **74/26-30**, **31**)!

20:15

Certainly, the Hour --(of this "**Smoke**" and those "**Heavenly Requitals**" thereafter, here in this case again now; **44/10-16**)-- is surely coming! AL-LAH said: I certainly keep it (=its exact Month, Day and Year) hidden; each soul shall be paid for its works.

20:16

So do not be diverted (=thus a specific reference also and especially to this "Messenger/MESSAGE of the Covenant" and all those who believe with him here; **12/108**)-- therefrom by those who do not believe in it --those who pursue their own opinions-- lest you fall!

(Quran Testament **20:14-15-16**)

So please, certainly see "**An Essential Miracle**" document, p. 28-32 now, thus to clearly witness this most critical and important "Messenger/**MESSAGE** of the Covenant," and this fast approaching "**Hour**" (=54/1-2 & 21/1-10) therein now, in the first place.

_____

Last of all, please, note that the author of this document (=i.e. this "Messenger/MESSAGE of the Covenant" here) has no relation or affiliation with none of those sites from which all those images and data have thus legitimately been retrieved for/in this Document now, and due credit has already thus openly, clearly and truthfully been given to each of them herein, <u>exclusively and only</u> for all those specific data and images therein. And all those specific data have thus rightfully been retrieved from those most credible sites and sources in Scientific respects therein; but if there is still --unintentional or inadvertent-- any mistake, contradiction, or error herein, AL-LAH will absolutely nullify them and will thus unmistakably and clearly establish thereafter HIS "**19**" coded, (mathematical) "**Signs**" in their most accurate and perfect forms herein again, if/when HE wills so. (So please, certainly see in this respect now: Quran Testament **34/50** & **22/52-57**)

The sole purpose of the author (=i.e. this "Messenger/MESSAGE of the Covenant" here) is thus to clearly present to all humanity --without asking of them <u>any payment or/and any monetary gain, in nowhere and in no way, at all</u> for this most critical and important MESSAGE here

(please, see Quran Testament **38/86-88**)-- (*so it is also thus definitely prohibited to copy and sell that "Universal Magnificent Miracles 1" document before this, and also "Universal Magnificent Miracles 2" document here now for any commercial/monetary gains whatsoever in nowhere and in no way again at all)--

the most magnificent "**Mathematical Signs**" which thus clearly and unmistakably prove to us that there is only One Real GOD (=AL-LAH) who has thus created HIS Book of Universe, and HIS Book of Religion based on "**19**" coded, most Superb and matchless "**Symmetrical Miracles**," from the very beginning! (So please, certainly see in this respect now: Quran Testament **41/53** & **74/26-31** & **112/1-4**)

So henceforth, whoever loves AL-LAH here (3/31) from among the jews, christians, arabs, and the buddhists, hindus, atheists, agnostics, and all others (29/47) should thus follow this most critical and important "Messenger/**MESSAGE** of the Covenant," i.e. the long awaited and anticipated Messiah and Mahdee descendant of prophet David and prophet Muhammad (peace be upon each of them) here (3/31), that AL-LAH may thus love them and forgive all their past sins and/or mistaken or sinful deeds, and henceforth thus rightfully guide and reward them in this Most Generous and Most Benevolent manner here (25/70-71) as HE has thus promised to him (=93/7 & 48/1-3) and to all those who will thus rightfully follow him in this respect (12/108) here now. (So please, also certainly see in this regard now: Quran Testament **7/196** & **39/33-35**)

_____

So to clearly witness this most Superb and matchless "**MESSAGE** of AL-LAH" (=**17/88**) and all of HIS "**19**" <u>**coded**</u>, most Magnificent and matchless "<u>**Symmetrical Plannings**</u>" therein (=**74/26-31**) please, see now: QURAN TESTAMENT, and then each and every one of those Most Miraculous Documents thereafter, as all of them have already thus clearly been presented therein, one after the other (=**29/49**), in the first place.

Peace be upon all of you. (Quran Testament **27/59** & **6/54**)
