UNIVERSAL MAGNIFICENT MIRACLES

Here, we shall witness some of the most amazing Mathematical Miracles specifically created and designed by God in our universe, galaxies, stars, planets, all living beings, elements, etc. based on code “19” and in perfect Symmetry, in exact pairs again, thus to unmistakably understand and clearly perceive that there is only one true God (=AL-LAH) who has thus created His book of Universe and His book of Religion (=“Quran Testament” here) thus basically based on this same 19 coded, most magnificent Symmetrical “Mathematical Language” in essence. (Quran Testament 74/30 & 41/53)

185- Do they not look at the “**dominions**” (=“**malakoot:**” thus also a very specific reference here to those four fundamental “**forces**” in/of the universe) of the skies and the earth, and what Al-lah has thus created (by employing them) of all things (therein, as He wills)! And perhaps, their time (21/1-2) is (thus) drawing near. So in which utterance, after this one, will they still believe? (Quran Testament 7/185)

26- (Al-lah said): So I will get him (=he who claims that this Quran Testament is only an utterance of a human being and not from a/the God) into the Uprooter (now).

27- And what make you perceive what the Uprooter is?

28- It does not let last --(but excludes on the left side, into the lowest region therein), and it does not let stay --(but eliminates on the right side, into the lowest region therein).

29- (Then) it presents “Tables” --(on that left and on that right side, in those upper regions therein) for all humanity.

30- Upon it (there is) “**19!**”

(Quran Testament 74/26-30)

So let us see now the interaction of these four “fundamental forces” (=i.e. strong nuclear force, weak nuclear force, electromagnetic force, gravity) between two protons.

Interaction	Gravity	Weak	Electro-magnetism	Strong Residual
Exchange particle	Graviton	Z0	Photon	Pion
Mass mc^2 (eV)	0	91x10 ⁹	0	135x10 ⁶
Coupling constant C^2 (J · m)	1.87x10 ⁻⁶⁴	3.22x10 ⁻³¹	2.31x10 ⁻²⁸	2.5x10 ⁻²⁷
Range (m)	infinity	2x10 ⁻¹⁸	infinity	1.5x10 ⁻¹⁵

data credit: lbl.gov

	Mass	Mass	
Weak	91 x10 ⁹	0	Gravity
Strong	135 x10 ⁶	0	Electromagnetism
	Coupling C.	Coupling C.	
Weak	3.22 x10 ⁻³¹	1.87 x10 ⁻⁶⁴	Gravity
Strong	2.5 x10 ⁻²⁷	2.31 x10 ⁻²⁸	Electromagnetism
	Range	Range	
Weak	2 x10 ⁻¹⁸	~	Gravity
Strong	1.5 x10 ⁻¹⁵	~	Electromagnetism
	<hr/>	<hr/>	
	= 235.22 _x	= 4.18 _x	
	= 19 _{x...}	= 19 _{x...}	

The delicate values of these four “fundamental forces” above are so critical and important that slightest difference in any of them would cause some dire consequences, such as the collapse of whole universe even in the beginning, and so no formation of stars, no production of elements in stars, and so also no production of carbon therein, and consequently thus no universe and no life on earth at all, as we know it today! So it is thus very significant and absolutely remarkable that our supreme Lord by thus most Wisely and wondrously putting His 19 coded, symmetrical most magnificent Signature on these four “fundamental forces” in the manner we have witnessed above (please, also see again Quran Testament 7/185 & 74/26-30), He thus also unmistakably and clearly points out to us that neither Big bang nor Evolutionary Creation thereafter was definitely NOT the result of blind forces of a vacant universe, but they are certainly thus the most marvelous and magnificent actual Creation acts of a supreme Lord (=AL-LAH) who is thus the one and only Ceator and the Master of the universe/universes and all that are in them, thus even in the first place here. (Please, also certainly see in this respect now: Quran Testament 21/30 & 7/185)

image credit: spacestationinfo.com (Sun)

5- The “sun” and the “moon” (run) by a **calculation!** (Quran Testament 55/5)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

When orbiting the earth, at its farthest point (=apogee), the distance between the (surface of the) earth to (the center of the) moon is 399.325 km;

When orbiting the sun, at its farthest point (=aphelion), the distance between the (surface of the) earth to (the center of the) sun is 152.091.862 km.

image credit: universetoday.com

Apogee:

the distance between the surface of the earth
to the center of the moon
when it is at its farthest point:

399₃₂₅ km

= **19**_{x...}

Aphelion:

the distance between the surface of the earth
to the center of the sun
when it is at its farthest point:

152₀₉₁₈₆₂ km

= **19**_{x...}

Here, we should pay attention and clearly notice that based on this most specific Verse in the Quran Testament (=74/28; so please, see it again now on p. 1), we thus always disregard/exclude on the left side, and disregard/eliminate on the right side all those exponential numbers, and/or fractions in each and every of these 19 coded, most magnificent Miracles of our supreme Lord here. And this is what we always do also in each and every of those 19 coded, most magnificent Miracles of our supreme Lord thus in His book of Religion, here in the first place --(as they are already thus clearly presented in “An Awesome Miracle 1 & 2,” and then also in all those other most Miraculous documents therein)-- within a perfectly parallel manner, in each and every time, on both sides, therein, based on this most specific clear and unmistakable instruction of our supreme Lord here, in this regard, thus in the first place. (Please, see again Quran Testament 74/26-30)! But we should also clearly perceive herein that at least at one point on the surface of the earth, the distance between the surface of the earth to the center of the moon, and then to the center of the sun will thus also totally and exactly be multiple of “19” therein for/in each cases above.

20- And in the earth there are (mathematical) “**Signs**” for those who will attain certainty.
(Quran Testament 51/20)

32- And by the moon! (Quran Testament 74/32)

53- So We will show them Our (mathematical) “**Signs**” in the horizons (=thus also in that “earth” and “moon” above), and also in their own bodies, until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) “**19!**”
(Quran Testament 74/30)

The highest point on Moon is: 10.7 km (source: lroc.sese.asu.edu), and the highest point on earth is: 6.3 km (=on Mount Chimborazo, Ecuador) here;

so the highest point on Moon
(when thus measured from its center
to/on its surface therein) approx:

Radius: **1738**.1 + Highest Mountain: **10**.7

1748.8 km

= **19**_{x...}

so the highest point on Earth
(when thus measured from its center
to/on its surface herein):

Radius: **6378**.1 + Highest Mountain: **6**.3

6384.4 km

= **19**_{x...}

105- How many a (mathematical) “**Sign**” in the skies (=thus also all those planets therein) and the earth do they pass by, while they are still turning away from it. (Quran Testament 12/105)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

	Diameter (in km)	Diameter (in km)	
Mercury	4 ₈₇₉	12 ₁₀₄	Venus
Moon	3 ₄₇₆	12 ₇₅₆	Earth
Mars	6 ₇₉₂	142 ₉₈₄	Jupiter
Saturn	120 ₅₃₆	51 ₁₁₈	Uranus
Naiad	0 ₀₅₈	49 ₅₂₈	Neptune
	<hr/>	<hr/>	
	133	266	
	=19 _{x...}	=19 _{x...}	

Please, note that in the above Table, we have only placed the main “8” planets --(dwarf planets: ceres, pluto, haumea, makemake, eris have not been taken into account here)-- and thus properly placed all those “8” main Planets in accordance with their distance to the Sun (=from the closest one: “Mercury” to the farthest: “Neptune”) therein.

And we have also thus specifically placed “Moon” (because it is thus special to us, and it is the one and only natural “single” satellite around a main Planet in our solar system; all those other main Planets have at least two or more natural satellites orbiting them). And finally, we have thus also specifically placed “Naiad” (=the first moon of Neptune) in that last row thus in order to rightfully complete the perfect Symmetry in our above Table. And because that “Naiad” has a diameter (=0.058 km) therein, it actually does not add anything to our Table above, so it has thus just been taken into account for the sake of perfect Symmetry therein.

	Mass (in kg)	Mass (in kg)	
Mercury	3.3010 _{x10²³}	4.8673 _{x10²⁴}	Venus

Mars	6.4169 _{x10²³}	1.8981 _{x10²⁷}	Jupiter
Saturn	5.6832 _{x10²⁶}	1.1989 _{x10¹⁵}	Ijiraq
Uranus	8.6810 _{x10²⁵}	1.0241 _{x10²⁶}	Neptune
	<hr/>	<hr/>	
	=31.4298	=14.9606	
	=19_{x...}	=19_{x...}	

Please, note that in the above Table, we have only placed the main “8” planets --(dwarf planets: ceres, pluto, haumea, makemake, eris have not been taken into account here again)-- and thus properly placed all those “8” main Planets in accordance with their distance to the Sun (=from the closest one: “Mercury” to the farthest: “Neptune”) therein again. And we have also specifically placed “Moon” again (due to that same reason as clearly explained previously). And finally, we have also specifically placed this time “Ijiraq” (=the first moon of Saturn whose total mass is thus exactly a multiple of “19” in kg therein) in the fourth row in order to rightfully complete the perfect Symmetry in our above Table here again. And because that “Ijiraq” has a mass (= **1.1989** $\times 10^{15}$ kg herein in Scientific notation), it actually does not change anything in our Table above, so it has thus just been taken into account for the sake of perfect Symmetry herein again.

And because that in our first Table above (which is based on “diameters” of all those “8” main Planets therein) the first moon of Neptune has thus extraneously been taken into account therein, we have placed it as

Naiad

Neptune,

and because that in our second Table above (which is based on “masses” of all those “8” main Planets herein) the twenty fourth moon of Saturn has thus extraneously been taken into account herein, we have placed it as

Saturn

Ijiraq.

The data is taken from “solarsystem.nasa.gov” for/in both of those two magnificent Tables above.

en.wikipedia.org (Jupiter and some of its moons)

en.wikipedia.org (Saturn and some of its moons)

So there are thus “eight” main planets in our solar system, and there are many natural satellites orbiting them. But here are those natural satellites whose diameters are bigger than “eighty” km therein:

Number of satellites whose diameters are bigger than “ <u>eighty</u> ” km			
Mercury	0	0	Venus
Earth	1	0	Mars
Jupiter	7	13	Saturn
Uranus	11	6	Neptune

$$= \textcolor{red}{19} = \textcolor{red}{19}$$

The natural satellites of Earth whose diameters are bigger than “eighty” km:

1) Moon

The natural satellites of Jupiter whose diameters are bigger than “eighty” km:

1) Amalthea 2) Thebe 3) Lo 4) Europa 5) Ganymede 6) Callisto 7) Himalia

The natural satellites of Saturn whose diameters are bigger than “eighty” km:

1) Prometheus 2) Pandora 3) Epimetheus 4) Janus 5) Mimas 6) Enceladus 7) Tethys 8) Dione
9) Rhea 10) Titan 11) Hyperion 12) Lapetus 13) Phoebe

The natural satellites of Uranus whose diameters are bigger than “eighty” km:

1) Juliet 2) Portia 3) Belinda 4) Puck 5) Miranda 6) Ariel 7) Umbriel 8) Titania 9) Oberon
10) Caliban 11) Sycorax

The natural satellites of Neptune whose diameters are bigger than “eighty” km:

1) Despina 2) Galatea 3) Larissa 4) Proteus 5) Triton 6) Nereid

The data --(which was last updated therein in May 2012)-- is thus taken from
“skyandtelescope.com” for/in that excellent Table above.

53- We will show them Our (mathematical) “**Signs**” in the horizons (=thus also in all those planets here), and also in their own bodies, until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

4- When Joseph said to his father: O my father, I saw (in my dream) **eleven planets**, and the sun and the moon; I saw them prostrating before me!

7- So in Joseph and his (**eleven**) brothers (=thus each of them represents a **planet** therein above) there are (mathematical) “**Signs**” for those who will comprehend! (Quran Testament 12/4, 7)

30- Upon it (there is) “**19!**”
(Quran Testament 74/30)

So we should pay attention and first of all thus clearly perceive herein that it is definitely not said “there are only eleven planets in our solar system” in the above Verse, but because that Joseph had specifically “eleven brothers” therein, so it is thus strongly pointed out therein to us that Al-lah will create His 19 coded, most magnificent Plannings based on only “eleven planets” (i.e.) in our first Table here; Mercury, Venus, Earth, Mars, Ceres, Jupiter, Saturn, Uranus, Neptune, Pluto, Eris; and in our second Table here; Mercury, Venus, Earth, Mars, Ceres, Jupiter, Saturn, Uranus, Neptune, Haumea, Makemake, as we will clearly witness them now.

And please, note that our supreme Lord has thus most Wisely and wondrously employed all of those main planets (=Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune), and then all of those known dwarf planets now (=Ceres, Pluto, Haumea, Makemake, Eris) in this most Wise and magnificent manner here.

	Orbital periods (in years)	Orbital periods (in years)	
Venus	0 _{.62}	0 _{.24}	Mercury
Moon	0 _{.00}	1 _{.00}	Earth
Mars	1 _{.88}	4 _{.59}	Ceres
Saturn	29 _{.46}	11 _{.86}	Jupiter
Uranus	84 _{.01}	164 _{.80}	Neptune
Pluto	247 _{.70}	561 _{.37}	Eris
	<hr/>	<hr/>	
	361	741	
	= 19 _{x...}	= 19 _{x...}	

	Rotational periods (hours)	Rotational periods (hours)	
Venus	5832_{.4}	1407_{.5}	Mercury
Earth	23_{.9}	0_{.0}	Moon
Mars	24_{.6}	9_{.1}	Ceres
Saturn	10_{.7}	9_{.9}	Jupiter
Uranus	17_{.2}	16_{.1}	Neptune
Haumea	3_{.9}	22_{.5}	Makemake
<hr/>			
	5909	1463	
	= 19_{x...}	= 19_{x...}	

Please, note that we have placed all these “11” planets in the same unique order in our first and second Table above. The only exception is: in the first Table, we have legitimately placed the “Moon” on the left, and in the second Table, on the right side. And please, note that in the first Table, we do not take into account the orbital period of the Sun, nor the Moon, and then also in the second Table, we do not take into account the rotational period of the Sun, nor the Moon; because the Sun thus only serves here as a central point around which all these Planets thus orbit and rotate, and the Moon thus only serves here by rightfully completing the perfect Symmetry in both of those Tables above, thus to exactly fulfill the special dream of prophet Joseph, also in this most specific respect, by the command of our supreme Lord AL-LAH here now. (Please, certainly see again Quran Testament 12/4, 7 above.)

The data is taken from “solarsystem.nasa.gov” again for/in both of those magnificent Tables above.

image credit: solarsystem.nasa.gov (Outer Solar System)

Now, let us see the distance of those “eleven planets” (Quran Testament 12/4, 7) to the Sun at “perihelion” (=when they are “closest” to the Sun in their orbit) in our first Table here:

	distance (in km)	distance (in km)	
Mercury	46 ₀₀₁₀₀₉	107 ₄₇₆₁₇₀	Venus
Earth	147 ₀₉₈₂₉₁	0 ₃₆₃₁₀₄	Moon
Ceres	380 ₉₅₁₅₂₈	206 ₆₅₅₂₁₅	Mars
Jupiter	740 ₆₇₉₈₃₅	4459 ₇₅₃₀₅₆	Neptune
Saturn	1349 ₈₂₃₆₁₅	5157 ₆₂₃₇₇₄	Haumea
Uranus	2734 ₉₉₈₂₂₉	5765 ₇₃₂₇₉₉	Eris
	<hr/>	<hr/>	
	5396	15694	
	= 19_{x...}	= 19_{x...}	

Now, let us see the distance of these “eleven planets” (Quran Testament 12/4, 7) to the Sun at “aphelion” (=when they are “farthest” from the Sun in their orbit) in our second Table here:

	distance (in km)	distance (in km)	
Mercury	69 ₈₁₇₄₄₅	108 ₉₄₂₇₈₀	Venus
Earth	152 ₀₉₈₂₃₃	0 ₄₀₅₆₉₆	Moon
Mars	249 ₂₃₂₄₃₂	446 ₄₂₈₉₇₃	Ceres
Jupiter	816 ₀₀₁₈₀₇	4537 ₀₃₉₈₂₆	Neptune
Saturn	1503 ₅₀₉₂₂₉	7706 ₃₉₉₁₄₉	Haumea
Uranus	3006 ₃₁₈₁₄₃	7894 ₇₆₂₆₂₅	Makemake
	<hr/>	<hr/>	
	5795	20691	
	= 19 _{x...}	= 19 _{x...}	

Please, note that we have placed all these “11” planets in the same unique order in our first and the second Table above. The only difference is: in the first Table, we have placed it as “Ceres – Mars,” and in the second Table, we have placed it as “Mars – Ceres” therein. And because that there is also only one different “planet” in our second Table above (=in the first one, we have finally placed “Eris,” and in the second one, we have thus finally placed “Makemake” therein) this one difference thereafter in this respect is thus also perfectly plausible therein.

And please, note that because “Pluto” is an irregular planet (=i.e. although it is in the outer solar system, it intrudes into the main solar system and gets ahead of Neptune at its closest point to the Sun; please, see the image above), we have excluded it in both of our two Tables above because of this irregularity and violation, in the first place. And our supreme Lord has thus exactly fulfilled again the special dream of His prominent servant Joseph (peace be upon him), also in this respect now, by having thus most Wisely and wondrously employed all these “eleven planets” (Quran Testament 12/4, 7) in His above perfectly complementary two Tables in this most Magnificent manner here again. (So please, certainly see again Quran Testament in this respect now: 41/53 & 12/4, 7 & 74/30)

The data is taken from “solarsystem.nasa.gov” again for/in both of those two magnificent Tables above.

image credit: galacticimages.com (**Aldebaran**)

16- And landmarks. And by the “**Stars**” they are --(based on this code “19” again, which is also thus specifically called here as “Guidance; 74/30-31)-- “guided!”
(Quran Testament 16/16)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us see now (based on their apparent magnitudes) 10 brightest stars in the sky by taking into account here their “absolute magnitudes” (provided that they are all in the “minus” spectrum) here:

	Absolute Magnitude	Absolute Magnitude	
Achernar	- 1 _{.3}	- 0 _{.3}	Aldebaran
Canopus	- 2 _{.5}	- 3 _{.2}	Spica
Hadar	- 4 _{.4}	- 4 _{.6}	Acrux
Becrux	- 4 _{.7}	- 5 _{.2}	Antares
Rigel	- 8 _{.1}	- 7 _{.2}	Betelgeuse

= **19** = **19**

Please, note that because that our supreme Lord has thus clearly pointed out to us “the nights,” that we may thus look at the celestial bodies (=planets, stars, etc.) thus to see the superb creative power and glory of Al-lah over all of them therein (Quran Testament 6/76 & 15/16), and then He has thus made an oath by the “10 nights” here (Quran Testament 89/2), it is thus perfectly legitimate for us to take into account those “10” brightest Stars in the sky here, in the first place. And please, pay attention and clearly notice that in the above Table just in the middle row therein there is such a perfect parity ($4=4$) and just above and below this middle point the numbers on the right side are thus equally one bigger ($2-3 = 4-5$), and in the first and the last row the numbers on the right side are thus equally one smaller ($1-0 = 8-7$), thus in a perfect Symmetry also in this respect therein again.

The data is taken from “skyserver.sdss.org” for/in that excellent Table above.

So let us also see now 10 nearest Stars in the sky by taking into account here their “apparent magnitudes” (provided that they are all in the “plus” spectrum) here:

	Apparent Magnitude	Apparent Magnitude	
Alpha Centauri B	1 _{.34}	9 _{.54}	Barnard’s

= 19_{x...} = 19_{x...}

Please, note that in our above Table, all the numbers on the right side are bigger than the numbers on the left side therein.

The data is taken from “cosmobrain.com” for/in that excellent Table above.

And here, let us also remember in this respect these most critical Verses in the Quran Testament, and then also in Psalms.

1- Whatever in the skies (=thus also all those planets, stars, galaxies therein) and the earth (thus especially by “19” coded, Symmetrical this most Miraculous mathematical Language; 74/30-31) glorify Al-lah. For He is --now, thus on the left side therein-- the Mighty, --on the right side therein-- the Wise! (Quran Testament 57/1)

1- The heavens (=thus also all those planets, stars, galaxies therein) declare the glory of God, and His handiwork is thus proclaimed by the sky!

2- Day following day --now, thus on the left side therein-- utters speech, and night following night --on the right side therein-- conveys knowledge --(which will thus be delivered to all humanity by prophet David’s descendant, the servant of Al-lah, this “Messenger/Message of the Covenant” here; Psalms 118/26)!

3- There is no (verbal) speech and there are no words; unheard is their (=all those planets, stars and galaxies therein) sound (in this respect).

4- But throughout the land their (thus again especially “19” coded, Symmetrical this most Miraculous mathematical Language; Psalms 118/19-27) Report --now, thus on the left side therein-- goes forth, and their (mathematical) Message --on the right side therein-- reach to the end of the world! 53- We will show them Our (mathematical) “**Signs**” in the horizons (=thus also in all those galaxies therein), and also in their own bodies, until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

12- And We have (thus) built above you seven **mighty** (in “brightness” here) **ones** (=galaxies)! (Quran Testament 78/12)

87- And We have (thus) given you seven of/as the pairs (thus also of all those “galaxies” above) and thus a great Quran! (Quran Testament 15/87)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us see now those “14” brightest galaxies in the sky --(as “7 pairs” here; 15/87)-- by taking into account their “apparent magnitudes” here.

And here, let us also remember in this respect these remarkable prophecies of prophet Jesus (peace be upon him), and prophet Muhammad (peace be upon him) thus here.

26- And then the --(19 coded; Luke 17/17)-- sign of the “Son of Man” (=a reference to this “Messenger/Message of the Covenant” here, who would thus definitely be sent by Al-lah in this Last and Third Day (=Millennium); please, see Gospel-John 6/27, 40) will appear in heaven --(thus within all those planets and stars, first of all), and all the tribes of the earth will be mourning --(due to some significant calamities that will thus be coming upon many regions on earth around this time)-- and (thereafter) they will (thus) see the “Son of Man” coming upon the “Clouds” (=please, especially notice those small and large magellanic “Clouds” on the above Table within those galaxies here now, in this respect) of heaven (thus) with --on the left side therein-- (mathematical) Power, and --on the right side therein-- (mathematical) great Glory!

27- And he will thus send out his “Angels” (please, see all those “Angels” now within “A Glorious Miracle” document in this respect here) with a trumpet blast --(thus especially via/on internet now), and they will thus gather his elect from the four winds, from one end of the heavens to the other. (Gospel-Mark 13/26-27)

72- Prophet Muhammad said: “Mahdee” (=a reference to this “Messenger/Message of the Covenant” here, the descendant of prophet Muhammad, who would thus definitely be sent by Al-lah in this Last Day (=Millennium); please, also certainly see all those other most authentic prophecies of prophet Muhammad in this respect, within “A Supernal Miracle” document here) will come out, and above his head will be a piece of “Clouds” (=please, especially see again those small and large magellanic “Clouds” on the above Table now, in this respect), and in/by them will be an “Angel” (please, see all those “Angels” now within “A Glorious Miracle” document again in this respect here) announcing: Certainly, this person is “Mahdee” (=the long awaited and anticipated descendant of prophet Muhammad who is thus specifically “guided” (=y~~ah~~dee) by Al-lah here, thus essentially based on this 19 coded “Guidance” (=H~~u~~daa) here; 74/30-31 & 39/23);” so you shall follow him! (from Tabaraane, Musnadu 2/71-72)

15- He has placed on earth rooted “**Mountains**,” lest it sway with you, and rivers and roads, so that you may thereby --(based on this code “**19**” again, which is also thus specifically called here as “Guidance,” 74/30-31 thus)-- be “guided!”
(Quran Testament 16/15)

20- And on earth (=thus also in all those “**Mountains**” therein again) are (mathematical) “**Signs**” for those who will attain certainty! (Quran Testament 51/20)

30- Upon it (there is) “**19**!” (Quran Testament 74/30)

So we will take the two highest Mountains now in each of these “8” continents/lands on earth thus in such a perfectly corresponding manner here, in the first place:

North America	Asia
Greenland	Australia
South America	Africa
Europe	Antarctica

and see the total heights of them therein now.

	Height (in m)	Height (in m)

So we will take the two longest “**Rivers**” now in each of these “**8**” continents/lands on earth this time in such a perfectly corresponding manner here:

Please, note that for Mississippi-Missouri river system for/in North America, we have thus only taken into account the basic river Missouri therein, like for Murray-Darling river system for/in Australia, we have thus only taken into account the basic river Murray therein, in our above Table.

And please, note that because that those two longest rivers (=Majorqaq and Kangerlussuaq) in Greenland, and (=Onyx and Alph) in Antarctica could thus give us only “**0**” m therein, we have also thus taken the next two longest rivers (=Madeira and Tocantins) in South America, and (=Niger and Zambezi) in Africa, thus to perfectly compensate for that loss therein, in the first place.

109- Say: If the ocean were ink --now, thus also on those 19 coded Tables here, on the left side-- for the Words of my Lord, the ocean would run out before the Words of my Lord run out (therein), even if/when We were to bring the like of it (=all those oceans) --for/on the right side-- as an ink (thereafter)! (Quran Testament 18/109)

27- If all the trees on earth were made into pens and the ocean (supplied the ink, as pointed out above), augmented by “seven” more seas (therein), the Words of Al-lah would not run out. For Al-lah is --now, thus also on those 19 coded Tables herein again, on that left side-- the Mighty, --on that right side-- the Wise! (Quran Testament 31/27)

Here, first of all, we should clearly see that this specific word (=albahru) in the Quran Testament can sometimes thus refer to all “oceans” (including all seas therein) on earth (as in 18/109 above), and sometimes to some specific “seas” and/or “lakes” which has salty or fresh water therein (as in 25/53). So here, when we perceive it as all “oceans,” we see that the surface area of all “oceans” (including all seas on earth therein) is:

$$= 361_{648138} \text{ km}^2$$

$$= 19_{x...}$$

$$= 361_{648138} \text{ km}^2$$

$$= 19_{x...}$$

thus for/on the left and the right side here, in the first place. (18/109) So let us see then the “seven” largest “Lakes” on earth, for/on the left and the right side therein again, after this, as our supreme Lord has thus clearly pointed out to us in a most Wise and wondrous manner here again in this above Verse (31/27) thereafter!

	Surface Area (in km ²)	Surface Area (in km ²)	
Balkash	17 ₀₇₀	18 ₁₃₀	Ladoga
Ontario	19 ₄₇₇	23 ₇₅₃	Winnipeg
Erie	25 ₇₁₉	28 ₉₃₀	Great Slave
Great Bear	31 ₀₈₀	30 ₀₄₄	Malawi
Tanganyika	32 ₈₉₃	31 ₅₀₀	Baikal
Superior	82 ₄₁₄	69 ₄₈₅	Victoria
Michigan-Huron	117 ₇₀₂	371 ₀₀₀	Caspian
<hr/>		<hr/>	
	323	570	
	= 19 _{x...}	= 19 _{x...}	

Please, note that in the first three rows above, the larger Lakes are on the right side, and in the second three rows thereafter the smaller Lakes are on the right side, and in the last row --(which is exceptional in the respect that Michigan-Huron is specifically a “fresh water” Lake on the left side therein, and Caspian Sea is specifically a “salty water” Lake/Sea on the right side therein), the larger one is thus exceptionally on the right side therein again. So let us see now these related most specific Verses (25/53 & 55/19-20) in the Quran Testament which already thus most Miraculously and wondrously informs us about it here thus:

53- And He is the One who has let free the two Seas (or Lakes); one is --now, thus also on the left side above-- fresh and palatable (=Michigan-Huron), and the other --on the right side therein-- salty and bitter (=Caspian)! And He has made between them a distance, and thus an inviolable barrier. (Quran Testament 25/53)

19- He has let free the two Seas (or Lakes) --now, thus also on those 19 coded Tables above again-- facing each other.

20- Between them is a distance; they do not violate --(the “19” coded measurements thus decreed upon them by Al-lah; 74/30 therein)! (Quran Testament 25/53)

So here are those two specific Seas (or Lakes) thus facing each other here, in the first place:

image credit: ilike2learn.com

image credit: movingplanets.com (Continents)

image credit: theworldsoceans.com (Oceans)

63- (Al-lah is) the One who --(with this code “**19**” again, which is also thus specifically called here as “Guidance” by Him; 74/30-31 thus)-- “guides” you (now) in the darkness of --now, thus also on the left side therein-- the land (=continents) and --on the right side-- the sea (=oceans)! (Quran Testament 27/63)

53- We will show them Our (mathematical) “**Signs**” in the horizons (=thus also in all those continents and oceans above), and in their own bodies, until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

87- And We have given you seven of/as the **pairs** (thus also of those continents and oceans here) and thus a great Quran! (Quran Testament 15/87)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us see now all the surface areas of each of those seven “continents,” and seven “oceans” of our earth, in this unique manner here:

	Surface Area (in km ²)	Surface Area (in km ²)	
Australia	9 ₀₀₈₅₀₀	40 ₂₇₀₀₀₀	S. Atlantic Ocean
Arctic Ocean	15 ₅₅₈₀₀₀	17 ₈₄₀₀₀₀	S. America
Europe	10 ₁₈₀₀₀₀	70 ₅₆₀₀₀₀	Indian Ocean
Southern Ocean	21 ₉₆₀₀₀₀	30 ₃₇₀₀₀₀	Africa
Antarctica	13 ₇₂₀₀₀₀	77 ₀₁₀₀₀₀	N. Pacific Ocean
N. Atlantic Ocean	41 ₈₉₆₀₀₀	43 ₈₂₀₀₀₀	Asia
N. America	24 ₄₉₀₀₀₀	84 ₇₅₀₀₀₀	S. Pacific Ocean
	<hr/>	<hr/>	
	133	361	
	= 19 _{x...}	= 19 _{x...}	

Please, note that we legitimately excluded the Mediterranean Sea (because it is almost totally closed off) from North Atlantic Ocean, and then in a parallel manner eliminated South China Sea from North Pacific Ocean above. (74/28)

The data for the surface areas of each Continent is taken from “mapsofworld.com” and for the surface areas of each Ocean from “ngdc.noaa.gov” for/in this excellent Table above.

6- And the “Stars” (in all those galaxies before) and the “Trees” (in all these forests here) with “**19**” coded, Mathematical superb Language here again; 74/30) all prostrate (before Al-lah)! (Quran Testament 55/6)

53- We will show them Our (mathematical) “**Signs**” in the horizons (=thus also in all those “forests” above), and also in their own bodies, until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

87- And We have given you seven of/as the **pairs** (thus also of those “forests” here) and thus a great Quran! (Quran Testament 15/87)

30- Upon it (there is) “**19**!” (Quran Testament 74/30)

So let us see now the seven pairs of largest Forest areas by Countries in the world thus in this most specific manner here:

	(Area in km ²)	(Area in km ²)	
Forests Angola	588 ₅₄₄	606 ₃₄₀	Forests Colombia
Forests Mexico	637 ₁₇₂	677 ₅₉₈	Forests India
Forests Sudan	663 ₆₇₇	685 ₅₃₆	Forests Peru
Forests Congo	1329 ₇₀₇	847 ₅₂₂	Forests Indonesia
Forests Australia	1632 ₉₁₂	3101 ₃₄₀	Forests Canada
Forests China	2054 ₀₅₆	4714 ₉₂₀	Forests Brazil
Forests Usa	3034 ₀₇₀	8085 ₉₈₆	Forests Russia
	<hr/>	<hr/>	
	9937	18715	
	= 19 _{X...}	= 19 _{X...}	

The data is taken from “atoplists.com” for/in this excellent Table above. (The data is collected by United Nation Static Division therein, date of information: 2011)

Please, note that even if/when these specific Forest areas change in the future, this data will thus remain valid for/within this magnificent Miracle above, as it has thus clearly been presented to all humanity by this “Messenger/Message of the Covenant” by the permission of Al-lah (6/59) now for/at this right time here. 27- And We made therein rooted “Islands” that are “**tall!**” ... (Quran Testament 77/27)

40- Or it is like darkness in a “Lake” that is “**deep!**” ... (Quran Testament 24/40)

53- So We will show them Our (mathematical) “**Signs**” in the horizons (=thus also in all those “tallest” Islands and “deepest” Lakes above), and in their own bodies, until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

87- And We have given you seven of/as the **pairs** (thus also of those “tallest” Islands here, in the first place) and thus a great Quran! (Quran Testament 15/87)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us see now the seven pairs of “tallest” Islands on earth thus in this most specific manner here:

	from sea level to highest point (in m)	from sea level to highest point (in m)	
Greenland	37 ₀₀	33 ₂₃	Sicily
Tenerife	37 ₁₈	34 ₅₅	Celebes
Lombok	37 ₂₆	36 ₇₆	Java
South Island	37 ₅₄	37 ₉₄	Ross Island
Honshu	37 ₇₆	38 ₀₀	Sumatra
Taiwan	39 ₉₇	40 ₉₄	Borneo
Hawaii	42 ₀₅	48 ₈₄	New Guinea
<hr/>		<hr/>	
	266	266	
	=19 _{x...}	=19 _{x...}	

Please, note that in the first three rows above the taller Islands are on the left side, in the middle row those two Islands are exactly same (based on those specific first two digits therein) in height, and in the last three rows the taller Islands are thus on the right side.

The data is taken from “worldsislandsinfo.com” for/in this excellent Table above.

	from sea level to deepest point (in m)	from sea level to deepest point (in m)	
Baikal	16 ₃₇	14 ₇₀	Tanganyika
Tahoe	5 ₀₁	5 ₈₆	General Carrera
Sarez	5 ₀₅	5 ₉₀	Matano
Toba	5 ₀₅	5 ₉₄	Crater
Quesnel	5 ₀₆	6 ₁₄	Great Slave
Hornindalsvatnet	5 ₁₄	6 ₆₈	Issyk Kul
Malawi	7 ₀₆	8 ₀₀	Pinatubo
Vostok	9 ₂₄	8 ₃₆	O'Higgins
<hr/>			
	57	57	
	= 19_{x...} = 19_{x...}		

Please, note that in the first and the last row above, the deeper Lakes are on the left side, then in the first three rows all those Lakes are exactly same (based on those specific first digits therein again) in depth, and in the next three rows the deeper Lakes are thus on the right side again.

And please, note that in the first Table above, the total “heights” of those tallest Islands were thus equal therein ($266 = 266$), and here the total “depths” of these deepest Lakes are thus equal ($57 = 57$) here again. And those specific first “two digits” ($=\mathbf{16}_{37}$ and $\mathbf{14}_{70}$) in the very first row on this above Table thus perfectly connects the two Tables above, in this respect.

So henceforth, they are thus perfectly complementary (7 pairs of “tallest” Islands, and 8 pairs of “deepest” Lakes) above.

And please, note that we have not taken into account “Caspian Sea” for/in this Table above, because it is thus considered a “Sea” rather than a “Lake” here, in this respect.

39- And those who disbelieved, their works are like a mirage in a “**Desert**”
(Quran Testament 24/39)

53- So We will show them Our (mathematical) “**Signs**” in the horizons (=thus also in those “Deserts” above), and in their own bodies, until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

87- And We have given you seven of/as the **pairs** (thus also of those “Deserts” here) and thus a great Quran! (Quran Testament 15/87)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us see now the seven pairs of largest Deserts on earth thus in this most specific manner here:

	(Surface Area in km ²)	(Surface Area in km ²)	
Sonoran	3 ₁₀₇₉₈	3 ₃₆₆₉₈	Colorado Plateau
Gibson	3 ₁₀₇₉₈	3 ₄₉₆₄₈	Karakum
Great Sandy	3 ₈₈₄₉₈	4 ₅₃₂₄₇	Chihuahuan
Thar	4 ₅₃₂₄₇	4 ₉₂₀₉₇	Great Basin
Kalahari	5 ₆₉₇₉₇	6 ₄₇₄₉₇	Great Victoria
Arabian	25 ₈₉₉₈₈	6 ₇₃₃₉₆	Patagonian
Sahara	90 ₆₄₉₅₈	12 ₉₄₉₉₄	Gobi
	<hr/>	<hr/>	
	133	38	
	= 19 _{x...}	= 19 _{x...}	

Please, note that because that the measurements of these Deserts vary largely from source to source due to their different measurement criteria therein, and/or from year to year, due to climate conditions and also some other factors therein, we have thus proceeded in the broadest sense (=i.e. by thus basically taking into account only the related very first digits therein) in our above Table.

The data is taken from “geology.com” for/in this excellent Table above.

26- No, when it reaches up to the “**collarbones;**” (Quran Testament 75/26)

7- It comes out from between the “**spine**” and the “**ribs.**” (Quran Testament 86/7)

53- So We will show them Our (mathematical) “**Signs**” in the horizons, and in their own bodies (=thus also within those “collarbones,” the “spine” and the “ribs” above), until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us take a look and find out now the exact number of these “collarbones” (=clavicles), the “spine” and the “ribs,” in total, in a human body, thus on either side, here:

Left Clavicle	1 1	Right Clavicle
Left true Ribs	7 7	Right true Ribs
Left false Ribs	5 5	Right false Ribs
Left -cervical- Vertebrae	7 7	Right -cervical- Vertebrae
Left -thoracic- Vertebrae	12 12	Right -thoracic- Vertebrae
Left -lumbar- Vertebrae	5 5	Right -lumbar- Vertebrae
Left Sacrum	1 1	Right Sacrum
<hr/>		
	38 38	

$$= \textcolor{red}{19}_{x\dots} = \textcolor{red}{19}_{x\dots}$$

Please, note that because that we have thus taken into account the “clavicles” (75/26) above the ribs, in the first place, we have also thus rightfully taken into account the “sacrum” below the spine, in our above Table. And please, note that the --left & right-- “coccyx” (please, see that smallest extra bone below the “sacrum” in the image above) thus represent --on the left side-- disregarded/excluded, and --on the right side-- disregarded/eliminated part on our Table above, based on this most basic Verse again (=74/28) here in this case. (So please, certainly see again 74/26-30 on p. 1)

3- Does the human being think that We cannot gather his “**bones**?”

4- Yes, We are able to reconstruct (even all of) his “**finger (bones)!**”

(Quran Testament 75/4)

53- So We will show them Our (mathematical) “**Signs**” in the horizons, and in their own bodies (=thus also within all of those “finger bones” above), until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us take a look and find out now the exact number of these “finger bones,” in total, in a human hand, and then also a foot, here:

Finger bones
of the left hand:

Please, note that those --(not “fingerlike” but rather)-- rounded or cubic shaped small carpal and tarsal bones (gray colored bones in the image above for the hand, and also for the foot therein) thus represent --on the left side-- disregarded/excluded, and --on the right side-- disregarded/eliminated part on our Table above, based on this most basic Verse again (=74/28) here in this case.

image credit: users.forthnet.gr (upper and lower Teeth)

45- And We have decreed therein (=in Torah) for them: ... and a **“tooth”** for a **“tooth”** ...
But whoever forgives it out of charity (therein), it will atone for his own sins.
(Quran Testament 5/45)

53- So We will show them Our (mathematical) **“Signs”** in the horizons, and in their own bodies
(=thus also within all those upper and lower “Teeth” above), until (thus) it becomes perfectly
clear to them that certainly it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) **“19!”** (Quran Testament 74/30)

So let us take a look and find out now the exact number of all the crowns and roots of these
upper and lower “Teeth” above, thus here:

upper Teeth	the number of crowns, roots	the number of crowns, roots	upper Teeth
two incisors	2, 2	2, 2	two incisors
one canine	1, 1	1, 1	one canine
one premolar	1, 2	1, 2	one premolar
one premolar	1, 1	1, 1	one premolar
two molars	2, 6	2, 6	two molars
	<hr/>	<hr/>	
	= 19	= 19	
lower Teeth	the number of crowns, roots	the number of crowns, roots	lower Teeth
two incisors	2, 2	2, 2	two incisors
one canine	1, 1	1, 1	one canine
one premolar	1, 1	1, 1	one premolar
one premolar	1, 1	1, 1	one premolar
three molars	3, 6	3, 6	three molars
	<hr/>	<hr/>	
	= 19	= 19	

Please, note that in the upper and the lower Teeth above, only the usual number of roots (seen in more/most of the people) have thus been taken into account therein. And again, usually the more/most prone ones to be impacted and must be taken out (=third molars: wisdom teeth therein) in the upper Teeth are --on the left side-- disregarded/excluded, and --on the right side-- disregarded/eliminated also on our Table above, based on this most basic Verse again (=74/28) here in this case.

So ultimately, “7” pairs of upper teeth, and “8” pairs of lower teeth have thus correctly given us this perfect results on our Table above.

The data is thus taken from “dental-picture-show.com/endodontics” for/in both of those two excellent Tables above.

150- ...then Moses took his brother (Aaron) by his **“head”** dragging him (therein) towards himself. (Quran Testament 7/150)

53- So We will show them Our (mathematical) **“Signs”** in the horizons, and in their own bodies (=thus also within all those **“bones”** of the “head/skull” above), until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) **“19!”** (Quran Testament 74/30)

So let us take a look and find out now the exact number of all the major “bones” in a human skull, here:

cranial and facial bones:

- left parietal bone I I
- left temporal bone I I
- left frontal bone I I
- left occipital bone I I
- left sphenoid bone I I
- left ethmoid bone I I
- left nasal bone I I
- left lacrimal bone I I
- left zygomatic bone I I
- left maxilla I I
- left vomer I I
- left upper teeth I I
- left lower teeth I I
- left mandible I I
- left palatine bone I I
- left nasal conchae I I

ear bones:

- left malleus I I
- left incus I I
- left stapes I I

cranial and facial bones:

- right parietal bone
- right temporal bone
- right frontal bone
- right occipital bone
- right sphenoid bone
- right ethmoid bone
- right nasal bone
- right lacrimal bone
- right zygomatic bone

- right vomer
- right upper teeth
- right lower teeth
- right mandible
- right palatine bone
- right nasal conchae

ear bones:

- right malleus
- right incus
- right stapes

Please, note that we have rightfully included the upper and the lower teeth in our Table above, because (though they are not basically made from bone, but rather some hard tissue therein) they are thus firmly related/connected to the skull. And also all those ear bones which are again thus totally related/connected to the skull. And we have only excluded the throat bone (=hyoid) --for/on the left & the right side therein-- which has no connection to and is thus totally outside of the skull therein, based on this most basic Verse again (=74/28) here in this case. The data is taken from “learnbones.com” for/in this excellent Table above.

53- So We will show them Our (mathematical) **“Signs”** in the horizons, and in their own bodies (=thus also within the **“heart”** above), until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) **“19!”** (Quran Testament 74/30)

So let us take a look and find out now the exact number of all the external parts of a human **“heart,”** here:

a man’s heart:

brachiocephalic trunk	I	I
left common carotid artery	I	I
left subclavian artery	I	I
aorta	I	I
superior vena cava	I	I
inferior vena cava	I	I
right pulmonary arteries	2	2
left pulmonary arteries	2	2
pulmonary trunk	I	I
right pulmonary veins	2	2
left pulmonary veins	2	2
right ventricle	I	I
left ventricle	I	I
right atrium	I	I
left atrium	I	I

a woman’s heart:

brachiocephalic trunk
left common carotid artery
left subclavian artery
aorta
superior vena cava
inferior vena cava
right pulmonary arteries
left pulmonary arteries
pulmonary trunk
right pulmonary veins
left pulmonary veins
right ventricle
left ventricle
right atrium
left atrium

= 19 19

Please, note that the “left cardiac vein” and the “right coronary artery” (which do not look like external parts therein; please, see the image above) hence represent --on the left side-- disregarded/excluded, and --on the right side-- disregarded/eliminated parts on our Table above, based on this most basic Verse again (=74/28) here in this case.

And please, note that because that our supreme Lord has thus commanded us to rightfully stand up either “in twos” or as “individuals,” and thus reflect on all of His 19 coded, most Magnificent mathematical Plannings here (please, see Quran Testament 34/46), we can also thus legitimately take into account “two persons” (=a man and a woman) here in this respect, in the first place.

36- When she gave birth to her (Mary), she said: My Lord, I have given birth to a female -and Al-lah was (already) fully Aware of what she would thus give birth to (therein)- and/or the “male” is not like the “female!” (Quran Testament 3/36)

53- So We will show them Our (mathematical) “**Signs**” in the horizons, and in their own bodies (=thus also and especially within a “female” body above, here in the first place), until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us take a look and find out now the total number of all “base pairs” in human DNA in each chromosome, and eventually thus see what makes a “female” special/different, in this respect, than a “male” here:

Total length of	number of base pairs:	round figure:
Chromosome 1	249 _{904 550}	=250 million
Chromosome 2	243 _{199 373}	=243 million
Chromosome 3	198 _{022 430}	=198 million
Chromosome 4	191 _{535 534}	=192 million
Chromosome 5	180 _{915 260}	=181 million
Chromosome 6	171 _{115 067}	=171 million
Chromosome 7	159 _{321 559}	=159 million
Chromosome 8	146 _{440 111}	=147 million
Chromosome 9	141 _{696 573}	=142 million
Chromosome 10	135 _{534 747}	=136 million
Chromosome 11	135 _{046 619}	=135 million
Chromosome 12	133 _{851 895}	=134 million
Chromosome 13	115 _{169 878}	=115 million
Chromosome 14	107 _{349 540}	=107 million
Chromosome 15	102 _{531 392}	=103 million

Chromosome X	155 _{270 560}	=155 million
Chromosome Y	59 _{373 566}	=59 million

Please, note that when we go to “Chromosome 19” in the first place above, we see the number 59 380 ..., so based on this, whenever a fraction reaches 380 and above, we round that number off to the next number therein, but if the fraction is below 380, we thus keep it as the same number therein.

$$= \mathbf{19}_{\text{X...}} = \mathbf{19}_{\text{X...}}$$

Please, note that X and Y chromosomes of a “male” hence represent --on the left side-- disregarded/excluded, and --on the right side-- disregarded/eliminated parts on our Table above, based on this most basic Verse again (=74/28) here in this case. So as we clearly see, our supreme Lord thus bestows an evident favor upon women here, in this respect, over men. (So please, certainly see Quran Testament in this respect now 3/36 & 4/32)

The data is taken from Genome Reference Consortium “ncbi.nlm.nih.gov” for/in those two remarkable Tables above.

4- And in your creation, and also what He has scattered (over the earth) of (all those) “animals” there are (mathematical) “**Signs**” for a people who will attain certainty! (Quran Testament 45/4)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us see all the quadruped/biped land “animals” that our supreme Lord has thus specifically mentioned by their names in the Quran Testament here, in the first place:

Wolf (=alzeb; 12/13, ...), Dog (=alkalb; 7/176, ...), Lion (=alqasvarat; 74/51, ...), Camel (=aljamal or alnaqat; 7/77, 7/40, ...), Horse (=alkhayl or alsafenat; 3/14, 38/31), Monkey (=alqeradat; 5/60, ...), Donkey (=alkhameer; 16/8, ...), Pig (=alkhanazeer; 5/60, ...), Heifer (=albaqarah; 2/70, ...), Frog (=aldafaadeu; 7/133, ...), Elephant (=alpheel; 105/1, ...), Mule (=albighaal; 16/8, ...), Goat (=almaz; 6/143, ...), Sheep (=aldan oralnaacat; 6/143, 38/23, ...). So let us see the chromosome numbers of all these seven pairs (15/87) of “animals” thus here now:

	diploid chromosome numbers	diploid chromosome numbers	
frog	26	38	lion
pig	37	56	elephant
monkey	48	60	heifer
sheep	54	63	mule
goat	60	64	horse
donkey	62	78	dog
camel	74	78	wolf
	<hr/>	<hr/>	
	361	437	
	= 19_{x...}	= 19_{x...}	

Please, note that the chromosome numbers of “pigs” vary as 36, 37, or 38 in different breeds, but because that there is only one animal (=“mule”) with an odd chromosome numbers (=63) on the right side on our Table above, we can thus rightfully choose, in a perfectly parallel manner, the odd number (=37) thus also for the “pigs” on the left side therein.

And please, note that the mitochondrial dna (=smallest chromosomes, which are located outside the nucleus) are not included in these regular chromosome numbers (which are located inside the nucleus); so they represent --on the left side-- disregarded/excluded, and --on the right side-- disregarded/eliminated parts on our Table above, based on this most basic Verse again (=74/28) here in this case.

And please, note that this 19 coded, most Magnificent mathematical Plannings of our supreme Lord are essentially foretold and unmistakably described by Him in these Verses: 74/26-31 in the Quran Testament, and in that same Chapter again, our supreme Lord has then allegorically likened this 19 coded, most Magnificent symmetrical Plannings to a “Lion” therein (74/51). So if we look again the chromosome numbers of a Lion, we see that it is: “38” = i.e. “19” pairs; “19” chromosomes --on/for the left side-- and “19” chromosomes --on/ for the right side-- herein again.

And this is why this 19 coded, most critical and important “Messenger/Message of the Covenant,” the long awaited and anticipated descendant of prophet David, has already thus unmistakably been foretold in Torah, and then in Psalms, in this most specific manner:

9- Prophet Jacob thus prophesied regarding his son Judah (=the ancestor of prophet David and thus also his long awaited and anticipated descendant here): Judah, like a “Lion’s” whelp, you have grown up on prey, my child! For he squats --for/on the left side of those “19” coded Tables here-- and crouches --for/on the right side of those “19” coded Tables here-- like a “Lion,” like the king of beasts, who would dare rouse him?
(Torah, Genesis 49/9)

Prophet David thus prophesied regarding this 19 coded (please, pay attention and certainly see that the Verse number is specifically “19” here, in the first place) most critical and important “Messenger/Message of the Covenant,” his long awaited and anticipated descendant thus here:

19- Open for me the Gates of righteousness; I will enter them and thank God.
20- This is the Gate of God; the righteous shall enter through it!
21- I thank you, (O God), for You have answered me, and You have been for me a Salvation.
22- The “Stone” despised by the builders (=thus a reference to “Quran” which was sent down to prophet Muhammad, the other most honorable ancestor of this most critical and important “Messenger/Message of the Covenant,” in literary and metaphorical sense therein) has become the “CornerStone” (=thus a reference here to this “Quran Testament” which has been given to this “Messenger/Message of the Covenant,” the long awaited and anticipated descendant of prophet David and Muhammad (peace be upon each of them) now, as a new Scripture by/from Al-lah in mathematical and scientific sense herein)! (Please, also certainly see the introduction part of Quran Testament in this respect now).

23- This has been done by God; and it is wondrous in our eyes!

24- This is the day God has made; let us rejoice and be glad in it.

25- Please, O God, then --by/on the left side of those “**19**” coded Tables above-- save (us) now; please, O God, --by/on the right side of those “**19**” coded Tables above-- help (us) now!

26- Blessed is he (=a reference again to this most critical and important “Messenger/Message of the Covenant,” the long awaited and anticipated descendant of prophet David and Muhammad; peace be upon each of them) who comes (as His promised servant here) under the name of God; we (=all honorable Prophets therein) bless you from the House of God!

(Psalms 118/**19**-26)

3- ...and from every “**fruit**” He made a “pair of two” therein. He causes the night to cover the day. Certainly, in this there are (mathematical) “**Signs**” for a people who will reflect!
(Quran Testament 13/3)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us see all the “fruits” that our supreme Lord has thus specifically mentioned by their names in the Quran Testament here, in the first place:

Bean (=baql; 2/61), Cucumber (=qissaa; 2/61), Garlic (=foom; 2/61), Lentil (=udas; 2/61), Onion (=bosal; 2/61), Gourd (=yaqteen; 37/146), Olive (=zaytoon; 6/99, ...), Dates (=nakheel; 16/11, ...), Cherry (=sedr; 34/16, ...), Pomegranate (=rummaan; 6/99, ...), Banana (=tolh; 56/29), Grape (=anab; 16/11), Mustard (=khardal; 21/47), Fig (=teyn; 95/1).

So let us see the chromosome numbers of all these seven pairs (15/87) of “fruits” thus here now:

	diploid chromosome numbers	diploid chromosome numbers	
lentil	14	16	pomegranate
cucumber	14	16	mustard
gourd	22	16	garlic
onion	32	32	cherry
fig	26	22	beans
date	36	38	grape
olive	46	88	banana
	<hr/>	<hr/>	
	190	228	

$$= \mathbf{19}_{x\dots} = \mathbf{19}_{x\dots}$$

Please, note that the chromosome numbers of “fruits” may vary greatly, in some cases, but the fact that we thus witness this 19 coded, magnificent Planning above in this most unique order herein is absolutely Miraculous by the great Wisdom and power of our supreme Lord here again, in the first place. (Quran Testament 13/3 & 74/30 & 41/53)

And please, note that the mitochondrial dna (=smallest chromosomes, which are located outside the nucleus) are not included in these regular chromosome numbers (which are located inside the nucleus); so they represent --on the left side-- disregarded/excluded, and --on the right side-- disregarded/eliminated parts on our Table above, based on this most basic Verse again (=74/28) also here in this case.

image credit: squidoo.com (birds in V formation)

41- Do you not see that everyone in the skies and the earth glorifies Al-lah! Even the “**birds**” “in formation,” each (of them thus) knows its --on the left side therein-- prayer, and its --on the right side therein-- glorification! And Al-lah is (thus) fully Aware of what they do (as they are thus taught and commanded by Him therein; 16/49-50). (Quran Testament 24/41)

53- So We will show them Our (mathematical) “**Signs**” in the horizons (=thus also within those “**birds**” flying “in formation”), and also in their own bodies, until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So firstly, we should pay attention here and clearly know that these type of birds (=geese, pelicans, etc.) which fly in V formation thus points out to us His 19 coded, most magnificent Symmetrical Plannings here. And usually on one side therein there are more geese than the other side in all of these V formations. So they thus also indicates to us --on the left side-- disregarded/excluded, and --on the right side-- disregarded/eliminated parts of our 19 coded Tables here, based on this most basic Verse again (=74/28) here in this case. So we should also thus expect that in many cases, two groups of geese which thus fly in such an elegant V formation will thus also give us therein code “**19**” (=74/30) on each side! (Quran Testament 41/53)

image credit: en.wikipedia.org (completely filled frame by honeybees)

68- And your Lord (thus) inspired to the **“honeybees:”** You shall take homes of the mountains and of the trees, and in (the hives) they build (for you).

69- Then you shall eat from every fruit, and follow --on the left and the right side therein-- the “ways” of your Lord, precisely! From their bellies comes a drink of different colors, wherein there is healing for the people. Certainly, in this there is a (mathematical) **“Sign”** for a people who will reflect! (Quran Testament 16/68-69)

30- Upon it (there is) **“19!”** (Quran Testament 74/30)

So firstly, we should pay attention here and clearly know that these “honeybees” which build these unique hexagonal structures back to back, on both sides, thus point out to us His 19 coded, most magnificent Symmetrical Plannings again here. And usually they leave some cells “not capped” therein, on both sides (please, see the image above); so they thus also indicate to us --on the left side-- disregarded/excluded, and --on the right side-- disregarded/eliminated parts of our 19 coded Tables here, based on this most basic Verse again (=74/28) here in this case. So we should also thus expect that in many cases, all these properly capped hexagonal cells by these diligent “honeybees” may thus also give us therein code **“19”** (=74/30) on each side! (Quran Testament 41/53)

image credit: lenntech.com (**Zinc**)

image credit: lenntech.com (**Iron**)

25- ... And We have sent down “**Iron**,” wherein there is great strength and many benefits for the people. And thus Al-lah will distinguish those who will help Him and His Messengers truly. (For) certainly, Al-lah --now, thus also on the left side herein-- Powerful, --on the right side-- Mighty! (Quran Testament 57/25)

53- So We will show them Our (mathematical) “**Signs**” in the horizons (=thus also within that “**Iron**” and also all those other elements therein), and in their own bodies, until (thus) it becomes perfectly clear to them that certainly it is the Truth! (Quran Testament 41/53)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us see now the “atomic masses” of all these specific elements, and then especially “Iron” here thus:

atomic number:	atomic mass	atomic mass	atomic number:
10 Neon	20 . ₁₇	22 . ₉₈	11 Sodium
20 Calcium	40 . ₀₇	44 . ₉₅	21 Scandium
30 Zinc	65 . ₃₉	69 . ₇₂	31 Gallium
40 Zirconium	91 . ₂₂	92 . ₉₀	41 Niobium
50 Tin	118 . ₇₁	121 . ₇₆	51 Antimony
60 Neodymium	144 . ₂₄	145 . ₀₀	61 Promethium
70 Ytterbium	173 . ₀₄	174 . ₉₆	71 Lutetium

<hr/>		<hr/>	
1083		1102	

$$= \mathbf{19}_{\text{X...}} = \mathbf{19}_{\text{X...}}$$

Please, note that we do not go beyond atomic number “90” on the left side, and “91” on the right side, because after atomic number “92,” on the periodic table, none of those elements occur in nature. And in our Table above there is only one element (=Promethium) which do not occur anymore in nature; and therefore, because that it is in the 6th row (on the right side), we will replace it now with “61” + 6 = “67” (=Holmium) therein instead, whose atomic mass is: **164**.₉₃, and we will thus again rightfully witness “**19**” coded perfect result therein by the great Power and absolute Knowledge of our supreme Lord here. (So please, also see in this respect now: Quran Testament 16/101-102)

atomic number:	atomic mass	atomic mass	atomic number:

= 19 x...		= 19 x...	

Please, note that on the right side in the 3rd row normally “Copper” (atomic number: “29”) should have been placed therein. But because that we have already --rightfully and necessarily-- made that replacement (=“67” Holmium instead of “61” Promethium in the previous Table), we can --because that it is in the 3rd row herein-- rightfully replace this now here this time with “29” – 3 = “26” thus with most specific “**Iron**” (please, see again Quran Testament 57/25) therein instead, by the great Power and absolute Knowledge of our supreme Lord here again. (So please, also see in this respect: Quran Testament 16/101-102)

Please, note that our most special second Table above (because that it also includes “Iron” therein; 57/25 and then also “Gold”) begins with number “10” on the left side, and number “9” on the right side, thus also clearly points out to us “10” + “9” = “**19**” in this respect therein again (74/30)! So let us also see now these most remarkable prophecies in Torah, and then in Gospel, in this respect thus here:

1- God said: Lo, I am sending My messenger (=a reference to His messenger Rashad to whom the secret of number “19” was revealed by Him here, in the first place; Quran Testament 37/130) thus to prepare the Way before Me. And then suddenly/unexpectedly, there will come to the Temple the Teacher whom you seek, and thus the “Messenger of the Covenant” (=a reference to this messenger Mateen, the long awaited and anticipated descendant of prophet David and Muhammad, thus the prime Messenger/Message of the Covenant here; Quran Testament 2/146) whom you desire. Yes, he is thus coming, says the LORD of hosts.

2- But who will endure the day of his coming; and who can stand when he appears? For he is like the refiner’s fire, or like the fuller’s lye.

3- He will sit --now, thus on that left side-- “refining” and --on that right side-- “purifying” (thus also all those specific “elements” above); and he will thus purify the sons of Levi, refining them like “gold” or like “silver,” that they may thus offer due sacrifice to the LORD!
(Torah, Malachi 3/1-3)

17- Jesus said in reply: “10” was cleansed, was it not; so where is the other “9”?
(=he thus in a prophetic manner thus also predicts “10” + “9” = “**19**” here; so please, also certainly see in this respect now: John 14/26)

18- Has none but this foreigner returned to give thanks to God (=thus also for “10” and “9” coded those most magnificent Tables above here now; John 6/43-45)!
(Gospel-Luke 17/17-18)

40- Jesus said in reply: I tell you, if they keep silent, the “stones” (=thus also a reference to all those specific “elements” therein above) will --by this “19 coded, most magnificent Mathematical Language” here-- cry out (to proclaim the Oneness of GOD, and the truthfulness of His servant, this Messenger/Message of the Covenant here, who would thus definitely be sent by AL-LAH in this Third and Last Day (=Millennium) here; John 6/27, 40)!
(Gospel-Luke 19/40)

(*And please, also certainly see now “the Words of Jesus” document, in its entirety, thus to witness the most authentic and genuine Gospel preached by him by the command of AL-LAH therein.)

17- And Al-lah has germinated you from the earth (=from all those “elements” therein in earth crust) like plants. (Quran Testament 71/17)

20- And in the earth (=thus also all those “elements” therein) there are (mathematical) “**Signs**” for those who will attain certainty!

21- And in your own “**bodies**” (=thus also all those “elements” therein again); so will you still not see? (Quran Testament 51/20-21)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So let us see now all those “25” most essential “elements” in a human body, --(many other elements are also picked up by human body, but these “25” elements are actually what essentially makes up a human body)-- and we will also include “boron” --(which is in many cases also deemed as a most essential “element” in a human body)-- thus to complete it to/as “13” perfect pairs on our Table here now:

Most essential elements in a human body:	atomic number	atomic number	Most essential elements in a human body:

20- And in the earth (=thus also all those “elements” therein) there are (mathematical) “**Signs**” for those who will attain certainty! (Quran Testament 51/20)

105- How many a (mathematical) “**Sign**” in the skies (=thus also all those “elements” therein) and the earth do they pass by, while they are still turning away from it! (Quran Testament 12/105)

30- Upon it (there is) “**19!**” (Quran Testament 74/30)

So we should know here, first of all, that the most abundant elements in our atmosphere are: Nitrogen (% 78.0), and Oxygen (% 20.9), and then trace amount of some other gases each of which is less than % 1 therein.

And the most abundant elements in the earth crust are: Oxygen (% 46.6), and Silicon (% 27.7), and Aluminum (% 8.1), and Iron (% 5.0), and Calcium (% 3.6), and Magnesium (% 2.1), and Sodium (% 2.8), and Potassium (% 2.6); and then trace amount of some other elements each of which is less than % 1 therein, thus Titanium (% 0.66) in the first place therein.

So because that Oxygen is thus mentioned twice above, so we will take these 9 most abundant elements, and thus also the Titanium with them, thus to perfectly complete it to/as “5” pairs of most abundant elements in our sky and the earth (12/105) now thus here:

Please, note that all those elements on the right side are again bigger in atomic number than those on the left side in our Table above.

The data is taken from “periodictable.com” and “windows2universe.org” for/in both of those two magnificent Tables above.

91- (O Messenger of the Covenant, the descendant of prophet David and Muhammad here; 2/146) say: I am commanded to serve (now) the Lord of (also) this Town (=Tucson), that He has made it sacred, and to Him belongs all things. And (henceforth), I am commanded to be (thus) of those who surrender (to Al-lah here; 3/84)! (Quran Testament 27/91)

So to clearly witness all those most miraculous prophecies of prophet David and Muhammad (peace be upon each of them) by which they have already thus clearly informed about and unmistakably pointed out to this holy City thus appointed by Al-lah in the West now (please, see Quran Testament 3/96-97), we should certainly see “A Special Miracle,” and “A Supernal Miracle,” and “A Miraculous Seal” documents, in this respect, here in the first place.

air distance from	(in km)	(in km)	air distance from
Makkah to Istanbul	2 ₃₉₉	1 ₁₈₄	Hebron to Istanbul
Medina to Istanbul	2 ₀₈₄	1 ₁₆₆	Jerusalem to Istanbul
Hebron to Tucson	12 ₁₈₀	13 ₃₀₄	Makkah to Tucson
Jerusalem to Tucson	12 ₀₈₂	13 ₀₀₁	Medina to Tucson
Istanbul to Tucson	10 ₉₁₈	10 ₉₁₈	Istanbul to Tucson

= **19**_{x...} = **19**_{x...}

Please, note that in the above Table thus these four great Prophets, the most honorable ancestors of this promised Messenger/Message of the Covenant are thus --here, in allegorical sense only of course-- coming to Istanbul (the birth place of this Messenger/Message of the Covenant, their descendant);

Ishmael (from Makkah) to Istanbul,
Muhammad (from Medina) to Istanbul,

Abraham (from Hebron) to Istanbul,
David (from Jerusalem) to Istanbul,

and because that there may also thus come a quake (as such a test; 57/22-23) upon this prominent City as predetermined by Al-lah (upon which may be a seal “19” again, as a profound sign therein) in the near future (please, also certainly see in this respect now Quran Testament; 47/13) they --thus only in allegorical sense therein again-- (through their most miraculous prophecies in Psalms and Quran) thus point out to him to emigrate to this holy City appointed by Al-lah in the West now; so then they thus all come from their homelands,

Abraham (from Hebron) to Tucson,
David (from Jerusalem) to Tucson,
Mateen (from Istanbul) to Tucson with them,

Ishmael (from Makkah) to Tucson,
Muhammad (from Medina) to Tucson,
Mateen (from Istanbul) to Tucson with them,

--thus only in allegorical sense herein again-- all together to settle in this holy City then.

And please, note that because prophet David (peace be upon him) has already thus clearly indicated that he would emigrate --of course, thus only in allegorical sense here again, with his descendant herein-- to this appointed "Desert City" by flying like a bird (please, see Psalms 55/6-8), we have thus specifically taken into account the "air (bird fly) distances" above. And please, note that prophet Muhammad (peace be upon him) has already thus specifically mentioned "Istanbul" (=as "Qustanteneyya" in arabic) in his most miraculous prophecies, and then "Mountain of the Mighty Town" (=as "Jabalu alDaylam" in arabic: i.e. "Mountains of Tucson" here now) thus as two significant places, from wherein his descendant will thus deliver this wholly Peaceful and absolutely Matchless and Marvelous (17/88) most critical and important "Message of the Covenant" to all humanity now. (Please, see again "A Miraculous Seal" document, in this respect here.) And by emphasizing his Prayers specifically for "19" days, and then participating specifically in "19" defensive Wars against those hostile and despotic natured pagan Arabs at that time therein (please, see Bukhari), he has thus left this two number "19" as a profound Sign --for/on the left side-- and --for/on the right side-- here, thus to fully support again his descendant, this most critical and important "Messenger/Message of the Covenant" here now.

Last of all, please, note that the author of this document (=this “Messenger of the Covenant” here) has no relation or affiliation with none of those sites from which all those images and data have thus legitimately been taken for/in this document now, and due credit has already thus openly and rightfully been given to each of them herein, only and exclusively in this respect, under all those images therein. And all those data have thus legitimately been taken from the most credible sources in Scientific respects therein, but if there is still any mistake, contradiction, or error here, Al-lah will nullify them and will thus establish thereafter His “Signs” in a most accurate and perfect manner here again. (Please, see in this respect now: Quran Testament 34/50 & 22/52-56)

The sole purpose of the author (=this “Messenger of the Covenant” here) is thus to clearly present to all humanity --without asking of them any payment for this most critical and important Message here (please, see Quran Testament 38/86-88)-- the most magnificent Mathematical Signs which thus unmistakably prove to us that there is only one true God (=AL-LAH) who has thus created His book of Universe, and His book of Religion based on “19 coded, most magnificent Symmetrical Plannings” here (please, see Quran Testament 74/26-31 & 41/53)!

So henceforth, whoever loves Al-lah here (3/31) from among Jews, Christians, Arabs, and Buddhists, Hindus, Atheists, Agnostics, and all Others (29/47) should thus follow this “Messenger/Message of the Covenant,” the long awaited and anticipated descendant of prophet David and Muhammad (peace be upon each of them) here (3/31), that Al-lah may thus love them and forgive all their past sins and wrongful deeds, and henceforth thus rightfully guide and reward them in this most Generous and Kind manner here (25/70-71) as He has thus promised to him (93/7 & 48/1-3) and all those who will thus rightfully follow him in this respect here now. (Please, see Quran Testament 7/196 & 39/33-35)

So to clearly witness that absolutely Matchless and Superb “Message of AL-LAH” (17/88) and all His 19 coded, most magnificent Plannings therein, please, see now: QURAN TESTAMENT, and all those most miraculous Documents thereafter, as they have already thus clearly been presented therein, here in the first place.

Peace be upon all of you. (Quran Testament 27/59 & 6/54)

Mateen,
